A PLEASANT DAY.

Catholic Societies Picnic at Elm Park

Elm Park just now is at its loveliest and the pleasure seeking populace seem to recognize the fact for hardly a day elapses without a party of picnickers or excursionists of some kind betaking themselves with their families and lunch baskets to the grateful shelter afforded by the majestic elms which give this justly popular resort the name it bears.

Everything was in favor of the Roman Catholic picnic held in the park last Tuesday. The day was comfortably warm without being hot; there was neither wind nor rain, and mosquitos did not put in their appearance till it was nearly time for the crowds to go home. The cars commenced to bring the picnickers to their destination shortly after noon and soon several hundred people were busy at the easy task of enjoying themselves. The crowds continued to come and by 7 or 8 p.m. fully 1200 persons had paid their admission into the park. The band of the Indian Industrial school were early on the scene of action and produced numberless selections of really first class music throughout the day. After lunch some children's races were given but these created comparatively little interest, compared with the chief attraction of the day, viz., a 100 yards dash open to all amateur sprinters. There were four entries, R. Jefferson J. W. Nunn, N. Cohen and J. W. Foulds, and as all of these are well known sprinters the public were not disappointed in anticipating a close and hard race. Several heats were run on account of false starts and dead heats, but the honor of winning the race and of becoming possessor of the handsome silver cup provided for the winner, fell to J. W. Foulds, who won the final race after a hard fight in the last time of 10 2-5 seconds. N. Cohen, second man received a box of fifty cigars, and R. Jefferson a handsome pipe, for third place. The crowds then commenced to come in a fresh, as the day was to be wound up with a dance in the pavilion, and Wigston's string band had been secured to furnish the requisite melody. At about 8 o'clock the hall began to fill and soon the sweet strains of a popular waltz floating out on the air of a lovely night set the time for the dancers who though the floor. Dancing was continued till 11, and the crowds returned to the city in the best of tempers and having thoroughly enjoyed their day.

The picnic was in aid of the Catholic schools and was under the auspices of St. Vincent de Paul society, the C.M.B.A., C.O.F., and C.T.S. (Free Press.)

Manitoba Catholic Schools.

The following despatch is taken from the Free Press of Friday last:—

Montreal, A 5th

Archbishop Langevin, who has arrived here to attend the consecration of Mgr. Bruchesi, states that there are 65 Catholic schools in operation in Manitoba, that there will soon be 80 and that before long there will be not a village containing twelve children or more which will not have its own Catholic school. He says he is confident he will be able to maintain these schools.

There is implanted in every man a love of life strong enough to make him tremble and kneel before death when he thoroughly recognizes its approach. The trouble with men is that they do not recognize death unless it comes in some violent or rapid form. Consumption kills more men than wars, famines, plagues, and accidents, but its approach they are in its clutch. While consumption is a germ disease, the bacilli will not invade sound and healthy lungs. The lungs must first be in a diseased condition. First a man feels a little out of sorts. Probably he is overworked and has given too little time to eating, sleeping and resting. His appetite falls off. His digestion gets out of order and his blood does not receive the proper amount of life-giving nutriment. The liver becomes torpid and the blood is filled with impurities. These are pumped into every organ of the body, building up unhealthy, half-dead tissues. The most harm is done at the weakest spot, and most frequently that spot is in the lungs. A slight cold leads to inflammation, the bacilli invade the lungs and we have a case of consumption. Ninety-eight per cent. of all cases of consumption are cured by Dr. Pierce's Golden Medical Discovery. It is the great blood-maker and flesh-builder. It restores the lost appetite, makes the digestion perfect, invigorates the liver, purifies the blood, builds new and healthy flesh and drives out all impurities and disease germs. It cures weak lungs, spitting of blood, obstinate coughs and kindred ailments. No honest druggist will recommend a substitute.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I had a pain in my side all the time. Had but little appetite and grew very thin. The 'Golden Medical Discovery' promptly cured the pain, restored my appetite and increased my weight."

St. Boniface College. THE ONLY Catholic College In America...

That competes annually with half a dozen Protestant Colleges & Collegiate Institutes. In proportion to the number of its pupils, St. Boniface College...

Has Won... More Scholarships Than any of its Protestant Competitors.

Read the following extract from the Northwest Review, July 8th, 1897:—

The students of St. Boniface College came off with even more than usual success. They captured the two scholarships for Greek, Achille Rousseau, of the previous year, winning the coveted \$40 over 26 competitors from his own and other colleges, and Jean Arpin the corresponding \$25 in the Preliminary over twenty competitors. As our candidates numbered only eight against forty from three other colleges, this double victory redounds greatly to their credit. Moreover Achille Rousseau was fourth out of seventy-seven in Latin and Algebra, Antonin Dubuc was first out of one hundred and thirty from St. Boniface, Winnipeg, Portage La Prairie, Brandon and Regina, in the Latin of the Preliminary. The French and History scholarship of \$60 in the Previous was won by Fortunat Lachance. In the Latin course of Mental and Moral science, Marius Cinq-Mars took his B. A. degree with first class honors and the Silver Medal, while Noel Bernier and E. J. Golden divided the two scholarships in the Junior B. A. year, receiving \$100 each. The only other student in this year, Gustave Roncar, obtained first class marks in all the honor papers of his course. The St. Boniface candidates maintained their long established reputation for thoroughness in the past subjects, Cinq-Mars being second out of thirty-eight in Latin and first out of thirty-three in Physics. Not one of the St. Boniface men failed in anything.
