PROSPERITY.—At the meeting of the Etobicoke Agricultural Society on Wednesday last, W. In responding at dinner to one of the toasts, Mr. Gamble, after remarking upon the extraordinary prosperity now attending all branches of industry in this country, and reminding the suits of gain, they did not forget to acknowledge the source from which they derived their pros-perity, but by the voice of the State Legislatures. and with the sanction of the people, days of thanksgiving were periodically appointed, on which the whole people publicly returned thanks for God's blessings granted to them. Mr. Gamble continued, he would not leave the table, till he had moved a resolution that that influential meeting, then and there assembled, should call upon the Administrator of the Government to appoint a day of public thanksgiving, in acknowledgment of the unexampled prosperity which Canada now enjoys. This proposal of Mr. Gamble, we are enjoys. This proposal of Mr. Gamble, we are happy to add, was immediately heartily responded to, and carried with acclamation .- Patriot.

WEST INDIES.

We have received files of The West Indian, Barbadoes, to September 23rd. The month of August has been remarkably favourable for the planter. There has been a plentiful supply of rain, which, with hot suns, has much improved the appearance of the canes. Seldom has this critical month been more favor-The consequence is the almost general expectation of a large crop next year. On account of the rains, foreign manures have been in demand; there is a scarcity, particularly of guano. The canes are not so forward on the Cliff, and in the central part of the Island, as they are about Bridgetown and in the out Parishes of Christ Church and St. Philip, and to leeward. But this is, in a great measure, to be leeward. But this is, in a great measure, to be attributed to the late finishing of the crops on the hills, and the rations not having time yet to show themselves. The planters are busy preparing the fields for next year's crop; and in some places, we have observed, are by no means gardens, in which the Jews dwelt for eight days, forward in their preparations. Few eddoes, and fewer yams, have been planted; and now they rewer yams, have been planted; and now they are digging potatoes, which are not so plentiful which all the males were obliged, by the law, to as was expected. On the last day of the month, a severe thunder storm passed over the Parish of Bridgetown, killing a man who, with some dozen others had taken refuge in the mill at trees, willows and myrtles, and tying them to trees, willows and myrtles, and tying them to

The great success which has attended the first year of this institution, has encouraged Mrs. Poetter to leave nothing undone that can add to the advantages already offered in her School. In consequence of the increase in her pupils, she has engaged another Music Master, (an English Professor from Boston,) who has been highly recommended as a finished musician. Mrs. Poetter has during the past year taken her more advanced pupils through a course of English Studies, which have prepared them to give their time next year only to the higher branches of English Literature, and the French, Italian and German languages, in which they have already made some proficiency. Mrs. Poetter will take this opportunity of expressing the pleasure she has felt at the kind and satisfactory letters she has received from many of the parents, and she trusts that her system, combining home comforts with the advantages of a sound and finished

education on such very moderate terms, will continue to be appreciated and encouraged. The School will re-open on the 5th of Sept. Mrs. Poetter bas taken the splendid house, with grounds attached, the residence of the late Mr. Justice Jones, situated on Front Street, where she will have increased accommodation
