Provisions of the Chicago Convention Applicable to International Air Services

In implementing this Agreement, the Contracting Parties shall act in conformity with the provisions of the Convention on International Civil Aviation, opened for signature at Chicago on 7 December 1944, including the relevant Annexes, insofar as those provisions are applicable to international air services.

ARTICLE 3

Grant of Rights

(1) Each Contracting Party grants to the other Contracting Party the following rights in respect of international air services:

- (a) the right to fly across its area without landing;
- (b) the right to make stops in its area for non-traffic purposes.

(2) Each Contracting Party grants to the other Contracting Party the rights hereinafter specified in this Agreement for the purpose of operating international air services on the routes specified in the appropriate Section of the Annex to this Agreement. Such services and routes are hereinafter called "the agreed services" and "the specified routes" respectively. While operating an agreed service on a specified route the airlines designated by each Contracting Party shall enjoy in addition to the rights specified in paragraph (1) of this Article the right to make stops in the area of the other Contracting Party at the points specified for that route in the Annex to this Agreement for the purpose of taking on board and discharging international traffic in passengers and cargo (including mail), separately or in combination.

(3) Nothing in paragraph (2) of this Article shall be deemed to confer on the designated airlines of one Contracting Party the right to take on board, at one point in the area of the other Contracting Party, passengers and cargo (including mail) carried for hire or reward and destined for another point in the area of the other Contracting Party.

(4) If because of armed conflict, political disturbances or developments, or special and unusual circumstances, a designated airline of one Contracting Party is unable to operate a service on its normal routeing, the other Contracting Party shall use its best efforts to facilitate the continued operation of such service through appropriate temporary rearrangements of routes.
