

Bennett, Right Hon. R. B.—Con.

Address in reply—*Con.*

ment of farm debts are acts in which movement towards reform has been made; power vested in government with regard to central bank, 80; nationalization of credit; attempt on part of government to prevent credit and politics being mixed; action in 1913 in breaking with the government on railway question; suggestion of leader of opposition that the community and labour and capital should meet together and arrange matters to their mutual satisfaction; reforms initiated by Lord Shaftesbury, 81; invoking regulatory power of parliament to enact legislation protecting those who suffer from inequalities of freedom on part of either capital or labour; history of mergers and combines between 1920 and 1930; expression of views of leader of opposition recorded in Industry and Humanity instead of being placed on statute books of the country; fine-spun theories in books will not accomplish reforms; Shaftesbury's creed the emphasizing of sanctity of personality over property, 82; determination of government to go forward with reforms so that the country may be purged of inequalities and iniquities which have grown up under the capitalist system, 83
