

Sept 22nd

Dear Arthur,

I was very sorry that due to my, unfortunately illness I was not able to see more of you, - and also unable to do anything for the entertainment of Lady Currie and the family while here. But my health has been so uncertain ever since the war that I get very depressed over it at times, - in fact I have rather lost confidence in my ability to do what I did before.

News from home about Mother is not encouraging. While she is improving I fear that she has developed gall stones, or something wrong
