

McGILL UNIVERSITY  
FACULTY OF MUSIC

DEAN - DR. H. C. FERRIN

323 W. SHERBROOKE STREET

MONTREAL, 14th Decr., 1922.

Sir Arthur Currie,  
Principal,  
McGill University.

My dear Principal,

I venture to think that some restraining or stabilising influence should be brought to bear on the energies of the leader writers of 'McGill Daily'. I have come to that opinion after reading the leading articles appearing for a little time past. However I am roused to express that opinion more openly because from this morning's paper under the caption "The Glee Club" an ordinary person would gather that the only really musical work done in the University was that by the Glee Club.

Neither I nor anybody else would object to any endeavour on the part of the 'Daily' to 'boost' a student endeavour. The objection lies in the fact that this 'boosting' is done at the expense of the fair fame of the University, which has certainly not got down to the level of entrusting to the Glee Club, composed of a few callow young men the whole of its musical activities.

Yours very truly,

H. C. Perrin
