### **FOREIGN CROPS** LOOKING BETTER

Advices From India and Argentina Sent Prices Down at Chicago.

CHICAGO, Nov. 5 .- More favorable advices as to weather and crop conditions in India and Argentina today pushed wheat values downward and at the close the market had suffered a net decline of 1-8c to 3-4. Fine weather lowered corn to a net loss of 7-8c to 1 1-8c, oats finished 1-8c to 1-4c off and provisions closed irregular, 7 1-2c lower to 5c up.

The wheat market sank in the last half of the session under liberal selling by several leading houses. There had been conflicting reports earlier had been conflicting reports earlier concerning crop conditions in India and Argentina. Later it seemed to be established to the satisfaction of the bears that advices saying prospects in the countries named were excellent; were reliable. Then began a selling campaign that carried values down till the close. A slight early rally on influential buying, based on the lower opening figures, was eliminated and the market seemed to lack support. Predictions of a largely increased winter wheat acreage also were effective in giving values a downturn.

Corn Liberally Offered.

There were liberal corn offerings as an adjunct to "good weather" bear arguments. Lower cables also had an important effect on quotations as did reports that new corn is beginning to impress in some volume at central markets.

Oats were weak, chiefly in sympathy Oats were weak, chiefly in sympathy with other grain.
Good buying of lard was the feature in provisions, that commodity being the only one in the list that did not show a decline. Pork and ribs were depressed because of large receipts at the yards.
