LONDON, Sept. 13 .- At the City Temple yesterday, Rev. R. J. returned to England, where I met one
grim young Canadian who wished to

debt to pay. The Canadian had seen
with his own eyes two Canadian sergeants crucified. I said to him, 'Perhaps they were nailed up after they

'Sir, you would not have thought so
if you had seen their faces.' Our soldiers are more bitter against the
Germans than they were at first, on Germans than they were at first, on account of the atrocities, attested sometimes by a number of men to-gether and which were too horrible to

When asked by the chairman of the property committee. Ald. He promised to make a careful investigation and record ful investigation and report.

'The committee yesterday instructed Property Commissioner Chisholm to have the well on the Women's Industrial Farm sunk another hundred feet, as at the present depth there is not a sufficient supply of water. An appeal is being made before the court of revision by the Massey-Harris Company for a reduction in the assessment of a portion of their property on King street west containing in all 4.8 acres. On a portion containing 2.6 acres the assessment on the land is \$93,150, and on the business valua-tion \$55,890, a total of \$149,040. In a ietter to the court the vice-president of the company points out that from 1909 to 1915 there was an increase in the assessment of 136 per cent, and 200 per cent. in taxes, while during the same period the business only increased 32 per cent. This year, owing to the war, the output so far has been less than it was in 1909. The land assessment on that portion of the property used as a lumber yard is the perty used as a lumber yard is the same as for that on which the build-ings are erected and the company thinks this unfair and figures are given to show that a difference is made at places where their other plants are ocated.
