FRACTIONAL CHANGES

Toronto Market Quiet With Scattered Dealings-Mining Stocks Only Active Issues.

New York's closing yesterday had no effect on the Toronto stock market. Trading was pretty well scattered, but except in the listed mining stocks there were no evidences of activity. Price were no evidences of activity. Price movements were irregular, but in no instance did the changes amount to more than fractions except in the mining stocks and the Dominion Foundry, a curb issue. The latter was advanced to 90, but nobody seemed to be interested except the brokers, who put the transactions thru. General Electric was in better request and Montreal reports that another upward Montreal reports that another upward movement in the stock is near. Smelters weakened visibly, but the high quotation was for a broken lot and the low price for full board orders.

Conlagas The dealing on the Standard Min-ing Exchange continue to expand and yesterday the total dealings were in the vicinity of 185,000 shares. This was the more important in that New York business was small owing to the American Thanksgiving holiday. The big side of the market was in the Cobalts, with Timiskaming and Peterson Lake the most active issues. Silver was reported from London as un-changed, and this was accepted as indicating remarkable strength after the recent advance. In the less ac-tive shares, such as Seneca. La Rose, Crown Reserve and McKinley, good advances were scored, but these were not regarded as so important as the firmness of the free trading issues. Peterson Lake closed up at \$4 1-2 and Timiskaming at 53. There is no definite news on either of these, but local bankers assert that the buying of Pe-terson Lake is practically all done for New York and that they believe there is some kind of a deal on. The gold stocks were somewhat neglected, but is some kind of a deal on. The gold stocks were somewhat neglected, but Dome sold at a new high at 27.50 and crossed Hollinger. McIntyre was steady and closed at 73 1-2 and Vipond made a small recovery. The market is gradually widening in interest and the boom is believed to be still only in its incipent stage.

Word was received in the city yesterday that an important strike had been made on the old Shamrock at the 400 foot level. The work on the Sham-rock is cross-cutting clear across the north side of the Beaver property to to the Shamrock. The strike reported is of a 3-inch vein which assays 1500 ounces to the ton. MANY MORE WOUNDED SOLDIERS ON WAY BACK

More Than Two Hundred Will Reach St. John Next Saturday Night.

OTTAWA, Nov. 25.—A second large contingent of Canadian wounded will reach St. John on the Coreican next Saturday night. This contingent numbers 213 men. Those who do not stay at St. John will be entrained for Quebec, where they will go thru the discharge depot in the usual way.

The militia authorities have decided to establish a discharge depot and medical board at St. John and a local committee will provide cigarets, chocolates and other comforts.

SWEDEN HOLDS COTTON.

STOCKHOLM, via London, Nov. 25 .-The Swedish Government has forbidden the export of cotton wool, cotton wadding and cotton twist from today, and also essential oils, and brandy and other spirits, except whiskey.
