**LET'S ALL KEEP HENS**

Professor of Oviculture Unburdened Himself of a Barnyard Pagan.

**SPOKANE, Wash., Dec. 8.**—(Special.)—J. G. Cotton of Okanagan, Wash., who started in the poultry business on a small scale about a year ago with nine hens, has compiled some interesting statistics.

The hens began laying in December, and he has kept a close record of the eggs obtained from Feb. 1, 1910, until Nov. 1, 1910, as follows: February 107, March 165, April 203, May 166, June 114, July 125, August 161, September 146, October 108. This is an average of about 12 eggs per hen a year.

Another record which promises to be as remarkable as that of the hens, is for pullets. Eight pullets that were hatched April 11, 1910, began laying Aug. 15, and during that month laid 20 eggs. In September they laid 196 eggs, and in October 178 eggs.

**Debating Season Opens.**

The city inter-club debates were inaugurated last night. The Broadway Debating Club met at the Gladstones in Parliament street. Methodist Church on the subject, "Resolved, that the city should purchase and operate the street railway system." Broadway, represented by W. E. Bickwell and Charles Rook, took the affirmative, and won over Messrs. Bennett and Hodgson. The judges were Messrs. Sinclair, Edward Harley and E. P. Heaton. Ald. Rowland presided.

The Saturday Night L. & D. Society got the decision over the Hicklin L. & D. S., taking the negative of the subject, "Resolved, that Toronto should be governed by an appointive municipal commission, rather than by the present system." The winners were Messrs. Flewman and Darlington, as against Messrs. Richardson and Auman.

**Charged With Assaulting Wife.**

George Thomas, 47 Ashdale avenue, was arrested last night by Detective Murray upon a warrant charging him with an aggravated assault upon his wife.

Two Burglaries.

On Dec. 8, Claude M. McCarthy, charged with stealing goods from a store in Rochester, Ont., at Ridgeway, Ont., by J. H. Dowd, provincial bridgeburg, in Buffalo, N. Y. The officer also the stolen goods, worth \$100, but was sent for county judge.

**DEATHS.**

CAMPBELL—On Thursday, Dec. 8, at Toronto General Hospital, Mary Campbell, dearly beloved wife of John Campbell, formerly of 16 Lovatt-place, and daughter of Mrs. James Noller of Newmarket.

Funeral Saturday morning at 8 o'clock from 328 Sumach-street. Interment at Newmarket.

HICKSON—On Thursday, Dec. 8, 1910, at his late residence, 50 Teraulay-street, N. Jephcott Hickson.

Funeral Friday, Dec. 9, at 10 a.m. from St. Michael's Cemetery. Interment in St. Michael's Cemetery.

PRENTISS—On Thursday, Dec. 8, 1910, at his late residence, 20 Admiral-road, at 10 p.m. Saturday, the 10th. Interment Mount Pleasant Cemetery. Friends and acquaintances please accept this intimation.

**Westmont Golf Club.**

MONTREAL, Dec. 8.—(Special.)—The annual meeting of the Westmont Golf Club, which was held at Victoria Park, Westmont. The treasurer's report showed a balance in cash of \$611 on hand. The club trophies were presented to the winners of the past season. Lyall Warden won the Yule and Holden Cups, while Aubrey Elder won the Grip Cup.

A full discussion of the position of the club took place, and it was finally decided to adjourn the annual meeting until the spring, when more information might be available and the club possibly be carried on by the committee.

President in office, viz.: C. E. Archibald, hon. president; C. W. Davis, president; Rev. Dr. J. H. Hamilton, jr., H. E. Smith and H. J. B. Hamilton, hon. president ladies' committee, Mrs. Graham C. Dunlop.

A hearty vote of thanks was rendered the proprietors of the land and other friends of the club for their kindness and courtesy in allowing the use of their property by the club.

**Eastern Hockey Association.**

MONTREAL, Dec. 8.—(Special.)—The only feature of the hockey situation tonight was the announcement from headquarters of the Wanderers that one of the players of last year's team had come to expect to have four of last season's team signed up to-morrow night. With the early rumors coming to terms the Wanderers are dying out. The Wanderers will look to the \$500 salary limit, but if exhibition games are arranged at the end of the season, it is said the players will be allowed to share in the receipts. There would be no infringement of the salary clause in this and the prospects of the exhibition games would probably prove a stimulus to the team, as no exhibition would be wanted in exhibition. The Ottawa Club has notified the Wanderers that they waived their rights to Roberts, now at McGill, who played in Ottawa part of last season.

**C.R.U. Orders Game to Be Played.**

The Canadian Rugby Union notified the Ontario Union yesterday that Alberta and Tiger Clubs must meet on Saturday, at all, the winner to play St. Lamberts at Montreal a week later for the junior title. The C.R.U. evidently evidently look on the Petroles protest as a pretext.

**Western Ontario Trotting Dates.**

LONDON, Ont., Dec. 8.—At a meeting of Western Ontario horsemen to-day dates for Ontario trotting circuit were allotted as follows: Chatham, June 6-9; Seaford, June 13-16; Tillsonburg, June 20-23; Aylmer, June 27-30; London, July 2-5; St. Thomas, July 11-14.

**HEALTH OF SCHOOL CHILDREN**

Results of Medical Staff's Work for November.

Some interesting figures are given out in the report of the medical inspectors of the public schools for November. Dr. Wilmet A. Graham visited twenty-five schools and examined 360 pupils. Among 515 pupils he found 382 defects, 153 of which were referred to the family physician. They were as follows: Defective vision, 22; enlarged tonsils, 61; adenoids, 22; nasal obstruction, 3; defective vision, 22; defective hearing, 1; skin disease, 12; other defects, 19. One pupil was excluded on account of contagious disease.

Dr. Helen MacMurely examined 217 pupils and sent 17 cards to parents of defective children. The defects were: Throat affections, 58; defective vision, 138; defective hearing, 1; skin disease, 12; enlarged tonsils, 61; adenoids, 22; nasal obstruction, 3; defective vision, 22; defective hearing, 1; skin disease, 12; other defects, 19. One pupil was excluded on account of contagious disease.
