

SPECIAL FARMING & LIVE STOCK EDITION

THE MILK PRODUCERS.
The prices asked by the milk producers are not unreasonable. The farmers are the men upon whom all the brunt of hard work in the production of milk falls. They are the men who must lose by the rise in the price of feed. The failure of crops, the death of their animals, and the demand for modern improvements and sanitary conditions all bear directly upon the man behind the can. At best he gets little enough for the produce of his dairy. But when the prices in Toronto go below those of the big City of Montreal, where conditions can not approach Toronto ones, it is time to enquire the reason why. The dealers in the city ought to find no favor among those farmers whom they may approach for a low priced contract. All they care is to get the contract. The farmer can do the hustling then.

It is up to the farmers everywhere to maintain their prices. A big corporation which advertises the purity of its products should not squeeze one producer to the point of adulteration or carelessness.

BACON HOG SALES.

Sales are Being Made in Eastern Ontario Next Week.

In order to introduce a better class of bacon hogs, and also to encourage their greater production in Eastern Ontario, the Ontario government are holding several sales in Eastern Ontario. The first of these will be held at Brockville on Monday next. Others will be held at Morrisburg on Tuesday, Cornwall on Wednesday, Lancaster on Thursday, Alexandria on Friday and Vars on Saturday.

On Wednesday, April 24, a series of sales will begin on the C.P.R. line. The Birkenside and Yorkshire are the leading breeds being sold, and animals have been supplied from the leading Ontario breeders.

MR. FRED SILVERSIDES.

Fred Silversides of Uxbridge, whose cut appears below, is a well-known breeder and live stock man in Central Ontario. Born on the farm at Zephyr in the good Township of Scott, in Ontario County, he remained on the home farm until the age of 23, when he left

to assume the control of Col. McMillan's big farm at Uxbridge and later at Bedford Park, ending his 14 years as manager this winter.

His success as a live stock manager and showman is evidenced from his winnings at the great world fairs in the United States and the Industrial Exposition at Chicago in 1893 and at St. Louis and the Pan-American his sheep were the winners of the grand championship. Many prizes are to the credit of the flock at Toronto, while his shorthorn cattle were being raised rapidly to the front rank until the dispersion sale this winter at Bedford Park, owing to the unfortunate illness of Col. McMillan.

Three years ago Mr. Silversides took out a license as an auctioneer, and he has steadily risen in the work. He handled several sales of purebred Scotch and Friesian cattle, and his encouraging results, as well as conducting numerous ordinary farm sales in the counties of York and Ontario, has made him an auctioneer who treats his bidders fairly and does well for his employers.

No doubt Mr. Silversides will have a successful season when the fall sales open up, and his many friends will wish him all growing prosperity.

IMPORTED FILLY SALE.

As will be seen by the advertisement on this page the combined sale of sixty imported mares and fillies and several imported stallions will be held at the Caistor Hotel Stables at Woodstock on Tuesday, April 16th. These are the property of Messrs. Butler, Innes, Schaefer & McClary, and the represent Scotland's richest blood, the get of Scotland's most noted sires. The great number guarantees the most famous and the best quality of the stock. What he is looking for at this sale, whether it be the very large draught mare, the thick-set cart horse kind, the flash-quality medium kind, or the high-class show ring kind. Many of the mares are safe in foal, and there are a number of extra well bred pairs. They are in fairly good condition, and as a profitable investment nothing is likely to yield larger returns for the money invested for years to come, than one, two or more first-class registered Clydesdale brood mares. Among the stallions to be sold at this sale is the famous show horse, Baron Kitchener, which, in Feb., 1907, won the Cavalier Challenge Cup, at the Glasgow Stallion Show, a son of Baron's Pride, and said by The Scottish Farmer, to be the best stallion that ever left Scotland. The whole lot, mares, fillies and stallions, are a high-class offering. See the advertisement in The World.

LEGACY TO MCGILL.

(Canadian Associated Press Cable.)
London, April 11.—Mrs. Grace Redpath of the Manor House, Chislehurst, and at Montreal, left an estate in the United Kingdom valued at \$53,311. She bequeathed \$30,000 to McGill.

THE FARMERS ARE ASKED TO MAINTAIN MILK PRICES

Increased Cost of Labor and Feed Have Not Been Met by Better Milk Prices.

There is war between the Milk Producers' Association and the city dealers. In the conflict being waged, there is little interest on consumers. The price will not be advanced to the public, even if the price asked by the association is accepted by the city dairy and other dealers. The price to the farmers for the winter has been \$1.30 per eight-gallon can delivered at the dealers' offices. This means about \$1.12 1/2 net to the farmer for eight gallons, or about 3 1/2 cents per quart. It has been the custom to lower the prices in the summer months to the farmers, so that the dealers may be recouped for the expense of icing and waste by souring. At any rate the farmer, as is usual, is asked to foot the bill. The milk producers are asking differently. They know that Montreal pays a better average price than does Toronto. They know that the increases in wages in materials, in feed for the animals and in the prices for cows, have gone up rapidly of recent years. Last year there was a milk famine in Toronto. This was due to the scarcity of milk from the farms, as the money is not a sufficient inducement to keep many of the farms. The City Dairy and other dealers are offering a bait to the distant producer, even involving the cheese and butter districts. But the farmers will likely be slow to bite. Cheese and butter prices are firm and the skim-milk and bottlemilk furnish valuable by-products for the farm. Sending these off will tend to the impoverishment of these farms.

The Canadian Dairyman feels that it is a parsimonious policy for the dealers to pursue, and call upon the public to witness the justice of their very moderate demands. Surely Toronto is as good as Montreal! The dealers have nothing to risk, assert the producers, and it is a question of the farmers remaining firm.

Price of Milk.
The following letter has been received by The World, which explains itself:

Editor World: There are some statements published in this week's issue of The Canadian Dairyman which I consider need a reply.

I believe the milk dealers of Toronto purpose to maintain the present retail price of milk, consequently if they can purchase their supplies for less they will be enabled to obtain an increased profit at the expense of the producer receiving a lower price. Prices of butter and of cheese are unusually high, and are likely to continue so, especially in the case of butter. There is at present a very limited supply of cheese, and prices, no doubt, will continue high for the coming season. Much of the milk supplied to Toronto during the past year was produced at no profit to the producer, taking little account of his own labor. Prices of cows have been high, feed scarce and dear, while labor was difficult to secure, even at good wages.

The secretary of the Locust Hill Creamery states in his report that the price of butter fat has increased in its production of 1896 to 1906. The price of butter has advanced 49 per cent, from 1897 to 1906, while milk has advanced only 13 per cent, in price. The City Dairy proposes to offer an average for the year of \$1.25 per 100 lbs., equal to \$1.02 1/2 per can, after cartage and freight have been paid. I am satisfied that for a good portion of the year milk cannot be produced at this price if all expenses incurred in its production are taken into account. Whether a member of our association or not, to maintain the price, if we accept any lower price we simply impoverish the dealer's profits.

I wish to correct the statement made by some large milk dealer when he says that a large part of the production is asking is too high, by stating that he has been misinformed. We have now a very large membership, enough to control the bulk of the milk supplied to Toronto, and we trust no producer will accept any such price as is now offered by the dealers.

A. J. Reynolds,
Secretary Toronto Milk Producers' Association.

THE FARMSTEAD

Imported fillies at Woodstock.
The spring seed time is on.
All machinery should be in working order.
Read the condensed ads. and deal with them.
Farmers, stand up for your rights!
The milk producers must win. Their cause is right.
The farm must not be made a sweatshop to build dealers' dividends.
Fruitmen should advertise in The World, which gives them the markets.
Now is as good a time as any to begin your orchard grafting.
Prof. Mavor struck a right key when he said that the farm life was the ideal home life.
Several groups of farmers are taking advantage of the government's offer of help on power spraying.

It is said that there will be three power sprayers purchased at Whitby this year.

Mixed grain yields larger than the single crops. Manseur's berries and oats, a bushel of each to the acre, brings the biggest results.

Raisers of hogs will do well to plant a good acreage of cheap feed, such as mangels, alfalfa and coarse grains. Clover makes one of the best-paying crops on the farm.

A successful seed fair was held by the South Waterloo Agricultural Society at Waterloo recently.

William Morrison of Sand Hill has just purchased a pure-bred Berkshire sow from John Latner of Vane, Ont. Mr. Morrison is another farmer who is persuaded that the pure-bred stock is the kind that pays.

Mr. Atkinson of Scarborough thinks that the hired man on the Ontario farm is the best-used employe in the world. And Mr. Atkinson speaks from acquaintance. He served his apprenticeship on the farm for seven years, and has for fourteen years been an employer. Of all farmers to get along with, the old country farmers are the hardest to satisfy. Canadians are all right.

The agricultural editor will be pleased to receive news from the farms at any time. Sales of lands, animals or the contents of crops will be welcome to these columns from all our friends and subscribers.

Where the sowing of spring grass seeds is intended, the greatest care should be taken to see that a good seed-bed is prepared. Good surface cultivation even for a good portion of the year, and a good substantial bottom with a most mellow top will amply repay the labor.

The Scottish Farmer says that Mr. G. A. Brodie of Stouffville, Ont., has taken a course in the University of Toronto, and has received a diploma in strength and quality. Mr. Brodie's success at his recent sale has encouraged him to get the best.

The Montreal horse show is to be held at the Arena on May 8, 9, 10 and 11. Several classes and prizes are offered. Entries for the different classes close on April 20. W. Northey, Windsor Hotel, Montreal, is the secretary.

Mr. McLean, manager of Robert Daxie's Thorncliffe Farm, visited Uxbridge and Myrtle recently and purchased several cows for his dairy.

James Howitt of Altona recently sold two big Clyde horses at a big figure, says The Uxbridge Journal. Boyd Porteous of Owen Sound paid \$400 for his registered mare.

William Vanotens of Pickering, who buys cattle for a Kingston buyer, recently shipped a load from Uxbridge. Good butchers' cattle are hard to get this spring.

His many farmer friends will be glad to wish Hon. Thomas Crawford a long continuance in the Speaker's chair. His geniality and fairness have commended him to every one with whom he came in contact.

WHITE PLYMOUTH ROCK.
Here is a cut of a typical and prize-winning White Rock hen. It will be noticed how it differs from the White Wyandotte, although many at first glance will be unable to detect a difference. The breed is of American origin, perfect in every respect.

habe better known by their justly celebrated cousins, the Barred Rocks, seen in almost every farm yard in Canada. Their combs are generally upright. Their bills and legs are a clear yellow and their tails small. Fisher of Indiana holds his first prize hen of this breed at \$1000.

Masons to Fraternize.
Members of the Chapter of Royal Arch Masons of Toronto, to the number of 75, leave on the 5 o'clock G. T. R. train this afternoon for the purpose of fraternally visiting Tonawanda Chapter of Tonawanda, N. Y. Among the prominent Toronto craftsmen to go will be Messrs. George J. Bennett, grand S. E. R. W. Brennan, grand Supt., Toronto district; Henry T. Smith and A. G. Howwood, past grand super.; George Clemens, Joseph Hickson and other grand chapter officers.

CLASSIFIED ADVERTISEMENT

Advertisements are inserted in this department of The Daily World, issued on Tuesday and Friday of each week, for the low price of one-half cent per word per issue or one cent per week. Each number and initial letter counts for one word. The circulation reaches all the leading breeders, gardeners, farmers, fruitmen, dairy men in Ontario.

OUR FARM LINES
Do pay. Many farmers say so. The farm pages are growing in popularity. Pleased advertisers are a good asset.
Frank Best of Myrtle writes as follows: "My ad. that has appeared in your paper has been a great worker for me. It certainly pays to advertise in The Toronto World's farm pages. The people are getting a high quality at a low price."

FARMS FOR SALE.
CHOICE FARM FOR SALE OR TO RENT. In Price Edward County, containing 117 acres, more or less; good fence; well watered; a building; orchard; a square block with buildings near centre. Fall ploughed; highly cultivated. Easy terms of payment to buyer. Farm is 5 miles from Pictou, 2 from Bloomfield. J. Roblin, owner, Pictou.

EXCHANGE FOR ONTARIO FARM. In Price Edward County, 100 acres, well watered, choice soil, dairy and wheat location; fenced; half under cultivation; fair buildings; good water; fence and fencing timber; school, church, post-office convenient. Henry Myrtle, 84 West End, Toronto.

Finest Bright American Timothy No. 1, \$6.50 to \$7.00 per 100 lbs.
All other varieties of clover, grass, clover and clover at close prices in the trade only.

J. GOODALL,
Wholesale Field Seeds, Toronto

UNDER DRAINAGE OF FARMS.
Agricultural Editor World: Dear sir, During the past two seasons the department of physics has been endeavoring to emphasize the importance of under drainage, and arrangements have been made whereby our services are available to anyone wishing advice in matters relating to drainage. We have full equipment for drainage survey work and, when requested, visit man's place, survey his land, give him a map showing elevations of all parts surveyed, together with location of drains, their grades, depth, etc. There is no charge made for this work, except the traveling expenses of one man, consisting of railway fare, meals and cartage of instruments. These expenses are very light, as arrangements have been made with the railway companies whereby we can travel at one cent per mile each way, i. e., a man living fifty miles from Toronto would have an outlay of \$1.00 for railway fare and 25 or 50 cents for cartage, and so on.

Last year, together with others, you were kind enough to make arrangements for assistance either by way of information or surveys resulted therefrom. I beg to thank you for your kindness and to ask if you will again make mention of the name of William H. Day, Guelph, April, 1907.

To Auburn for Life.
Rochester, April 11.—Fred Schultz, convicted of murder, in second degree, for the killing of Edward Pullman of Soles, this morning, was sentenced to Auburn Prison for the rest of his life.

NOTICE TO THE LIVE STOCK TRADE:

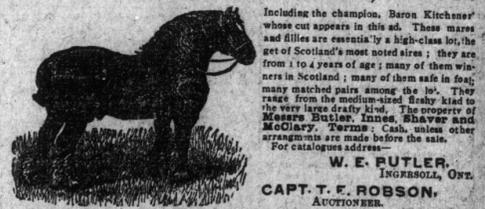

GENTLEMEN: We beg to inform you that there are Two Market Days Weekly here, namely:

Monday and Wednesday

When buyers of all kinds of Live Stock will be present.
CME AND GIVE THIS MARKET A TRIAL.
YOURS RESPECTFULLY,
W. W. HODGSON - MANAGER

60 Imported CLYDESDALE

And Several Imported Clyde Stallions
By Auction
At the CAISTOR HOUSE STABLES, Woodstock, Ont., on
TUESDAY, APRIL 16TH, 1907.

Including the champion, Baron Kitchener, whose cut appears in this ad. These mares and fillies are essentially a high-class lot, the get of Scotland's most noted sires; they are from 1 to 4 years of age; many of them winners in Scotland; many of them safe in foal; many matched pairs among the lot. They rank from the medium-sized, fleshy kind to the very large drafty kind. The owners are Messrs Butler, Innes, Schaefer and McClary, Toronto. Cash unless other arrangements are made before the sale. For catalogue address—
W. F. FUTLER,
Ingersoll, Ont.
CAPT. T. F. ROBSON,
AUCTIONEER.

POTASH

FOR FIELD, GARDEN AND ORCHARD
This important plant food may be obtained from all leading fertilizer dealers, in the highly concentrated forms of
MURIATE OF POTASH and SULPHATE OF POTASH

On account of the increased demand for these fertilizers throughout Canada this year, farmers ought to order at once to prevent disappointment.

The judicious use of potash in conjunction with phosphatic and nitrogenous fertilizers cannot and does not fail to bring satisfactory results.

Testimony to this effect is becoming more frequently heard each day.

Write at once for our FREE publications, treating of the fertilization of various crops, as well as of the results of fertilization experiments in Canada and elsewhere.
