### CLOSE OF 13TH SESSION **BIBLE TRAINING SCHOOL**

Review of Work of Year by Dr. Elmore Harris - Rev. Dr. Stewart III.

One of the higher educational institu tions which have attracted the attention of no small number is the Bible Train ing School, situated at 110 College-street The splendidly designed hall is adorned with a single banner, which bears the inscription: "Let the Word of Christ dwell in you richly." The note struck is a quiet note, but its sound has gone out, literally, thruout all the earth. The atmosphere of the college is very de-

is a quiet note, but its sound has gone out, literally, throut all the earth. The atmosphere of the college is very delightful.

The closing of the 13th session was held Friday evening. Previously tuere was a meeting of the council, when nev. John McNicol was confirmed in the principalship, to which he was appointed temporarily a year ago, on the resignation of Rev. William Stewart, D.D., to whom the school owes a debt that cannot readily be computed.

Rev. Elmore Harris, D.D., who presided, gave a brief sketch of the work of the session. They had had 66 students, from different parts of the province, and other countries, in the day classes, which is a two years' course. In the evening classes, 240 were enrolled. Dr. Harris 'expressed his gratitude that wherever the students of the school went, they were filled with evangelistic fervor and were the means of leading many to Christ. The missionary spirit in connection with the institution had never been so high. "We have lost not a single bit of loyalty," said Dr. Harris, emphatically, "to the Word of God."

He shadowed forthe work of the college content of the states are being emptied by the single state of the states are being emptied by men who are dishonoring the Word of God. Rev. Dr. McTavish, who also has been at the closing of every session since the school was founded, touched on the leading ideas that had been pointed out to the students as a guide to their future study of the Word of God. He said that too many in this day were trying to fill the Master's place instead of the servant's. Our thought should not be: "What would Jesus do?" but "What would Jesus have me do?"

## A LAZY LIVER

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over-work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver complaint," or torpid liver, by its wonderful control over the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system of poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the

Symptoms. If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distresse in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, or biliousness, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery.

Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver, or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cak's and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and state to a seure the reader that defection of other organs.

Of Golden Seal root, which is one of the prominent ingredients of "Golden Medical Discovery," Dr. Roberts Bartholow, of Jefferson Medical College, says:
"Very useful as a stomachic (stomach) tonic and in atonic dyspepsia. Cures gastric (stomach) catarrh and headaches accompanying same."
Dr. Grover Coe, of New York, says:
"Hydrastis (Golden Seal root) exercises

an especial influence over mucous sur-

faces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator) it has few equals." Dr. Coe also advises it for affections of the spleen and other abdominal viscera the spleen and other abdominal viscera generally, and for scrofulous and glandular diseases, cutaneous eruptions in digestion, debility, chronic dierches, constipation, also in several affections peculiar to worden, and in all chronic derangements of the liver, also for chronic inflammation of bladder, for which Dr. Coa says "it is one of the most reliable agents of cure"

the foregoing writers have said about it, as does also Prof. John M. Scudder, M. D., late of Cincinnati. Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means the bland of food. By these means the blood is enriched. \* \* \* \* the consequent improvement on the glandular and nervous systems are natural results." Dr. Scudder further says, "in relation to its general effect upon the system, there is no medi-cine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states " ","

be quoted from prominent authorities as to the wonderful curative properties possessed by Golden Seal root.

We want to assure the reader that "Golden Medical Discovery" can be relied upon to do all that is claimed for Golden Seal root in the cure of all the various diseases as set forth in the above brief extracts, for its most prominent and important ingredient is Golden Seal root. This agent is, how-ever, strongly reinforced, and its curative action greatly enhanced by the addition, in just the right proportion of Queen's root, Stope root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure glycerine. All of these are happly and harmoniously blended into a most perfect phar-maceutical compound, now favorably known throughout most of the civilized countries of the world. Bear in mind that each and every ingredient entering into the "Discovery" has received the endorsement of the leading medical men of our land, who extol each article

named above in the highest terms. What other medicine put up for sale through druggists can show any such professional endorsement? For dyspepsia, liver troubles, all chronic catarrhal affections of whatever name of nature, lingering coughs, bronchial, throat and lung affections, the "Discovery" can be relied upon as a sover covery" can be relied upon as a sovereign remedy.

A little book of extract treating of all the several ingredients extering into Dr. Pierce's medicines, being extracts from standard medical works, of the different schools of practice will be mailed free to any one asking (by postal card or letter), for the same, addressed to Dr. R. V. Pierce, Buffalo, N. Y., and giving the writer's full post-office address plainly written.
