Next came fresh April, full of lustryhed,
 And wanton as a kid whose horne new buds.
 Upon a bull he rode, the same which led
 Europa floting through th' Argolick fluds:
 His horns were gilden all with golden studs,
 And garnished with garlands goodly dight
 Of all the fairest flowers and freshest buds
 Which th' earth brings forth; and wet he seem'd in sight,
 With waves, through which he waded for his love's delight.
