It struck many of the aldermen at the time as a new method of quibbling. There was nothing to do but refer the matter back to Mr. McCallum for a specific instance of refusal. Nothing more specific than the instances already referred to the minister have come up, and so the matter lies dormant. **ENLARGE COMMERCIAL** DEPARTMENT TO CARE FOR RUSH OF PUPILS

Committee Decides To Add One Room.

The commercial department of the Collegiate Institute will be closed next week. The advisory committee of the Collegiate commercial department met at the city hall this morning and dis-cussed the question of providing in-creased accommodation for the over-flow of pupils to this department this year. It was decided to alter the front year. It was decided to alter the front of the school and remove certain partitions and thus make an additional room. This will be gone ahead with next week under the supervision of Superintendent Clemons, and in the meantime the school will be closed. This means the loss of three days, as the school will be closed two days for the fair anyway. The cost of the work will be \$390. An advertisement is to be inserted in the papers immediately for a new commercial teacher.

| Consider the city selecters asking this power for its official. Later the city got Hume Cronyn, M. P., to take the matter up, and as a result the city did get a reply to its letters. Later it got a second reply, Mr. McCallum was asked to furnish a state ment that he had made a demand on the storage men for information and was refused. This was immediately forthcoming and was sent on to Ottawa. It did not satisfy. The exacting ministry was intended to the common, \$3.05.00 (a), medium, \$1.275.00 (a), medium, \$1

Casual remarks dropped here and there by those in more or less close touch with the Canadian editors recently returned from the war front disclose in their entirety an important sum-total. This is to the effect that private advices from the British that private advices from the British Government literally promise a finish o the war within the next five or six months. The feeling seems to prevail definitely throughout industrial and financial circles, producing a stiffening in the backbones of investment and stock trading centres.

Following the same trend of market existing at Toronto and Montreal, local investors gave Canada Steel their close attention Wednesday along with Brazillan Traction and Canada Steamships.

> The developments of certain lines in Canada can proceed only along circumscriced lines at present. The real ser'ousness of the situation is not generally apparent. The War Industries now the call is for five million more tons for first half 1919 than the prestons for first half 1919 than the present capacity of the furnaces and mills can show. Where the extra material is coming from is a question that is a very serious one for all concerns that look to U.S. production centres for 100k to U. S. production centres for their supplies. It means that restrictions placed upon the Canadian market will be strictly adhered to, and there will be a tendency to make these tighter than in the post.
