SIR ADAM EXPLAINS

The appointment of a commission inquire into Hydro railway matwill probably consist of five esterday. He was not prepared at There would be an engineer of repute in the commission, also free of any ntangling alliances. It was hoped that the commission would be named within the next few days, so that they build get to work immediately.

The premier also said that eminent inancial opinion had been given the covernment that Ontario would be inancially crippled and have difficulty in floating loans if Hydro radial chemes were proceeded with regarders of the resources of the provinge.

Government Not Hostile.

Province Not Liable.

"The government is not respons'be a magning else than what I have cited ove," he went on. "The province is tilable, under the statute, for the yment of any bonds to the extent of y guarantee given under section 8 of a radial railway act, nor is the compission liable in any manner for the yment of any bonds, except for moneyaceived from the operation and the sale bonds."

Mayor MacBride, Brantford, one of the laders of the labor croup in the legisture, sives it as his opinion that the diocates of public ownership will have accept the government's announcement as a direct challenge.

"I think it is an outrage and that the overnment doesn" indestand the lestion. The government evidently asn't the know edge or the capacity for etting at the true facts," he declared.

"The government doesn't need a commission to go into the matter. Wherever he bylaws have been a by litted there has been a full and free discussion before the people. The pros and commave heem that could be brought against the Hydrogeneric and the property argument that could be brought against argument that could be brought against the Hydro project has been brought forward, and they have all been met. Action by Councillors-President Lyon of Hydro Association Critical.

Guelph, Ont., July 7—(Special).—
Guelph city council, after discussing the attitude of the provincial government regarding the Hydro radial projects, particularly their refusal to issue the necessary order-in-council for the transfer of the local street railway to the Hydro-Electric Power Commission, decided at a special meeting this afternoon on the following resolution, which will be forwarded to the government:

"That this counci!, while regretting the action of the Ontario government, is prepared to accept the Hydro-Electric Power Commission bonds for the purchase of the Gusiph Radia; Railway."

Opinion of J. W. Lyon.

Previous to the passing of the resolution, J. W. Lyon, president of the Hydro-Electric Municipal Association, addressed the council and gave it us his opinion that the action of the government in regard to Guelph was decidedly strange. He pointed out that the Drury government recently authorized the purchase of the Sandwich, Amherstburg and Essex Hailway for \$2,100,000 and guaranteed Hydro bonds, and the commission are now operating the road. In the case of Guelph, only \$150,000 is involved. "The vote of the Guelph Railway was (Centinued on Page 3, Column 5,)

WILLING TO ACCEPT MEIGHEN NEW PREMIER CABINET RESIGNATION EFFECTIVE SATURDAY

Washington, July 7.—Restrictions on trade with soviet Russia were removed today by the United States state department, except insofar as they pertain to the shipments of materials susceptible of immediate use for war purposes.

An individual export license must be obtained for the shipment of such materials, and it was announced that such licenses would be granted only in exceptional cases. Individual export licenses also will be required for the export to Russia of locomotives, railroad material and rolling stock, and motor cars and component parts.

While taken independently of other nations, this action followed extensive exchanges between the United States and Great Britain and France. It is believed to have been hastened by the recent negotiations between Gregory Krassin, representing the Bolshevik government, and Premier Lloyd George, looking to the resumption of trade between Great Britain and Russia.

His first election to the house of commons was at the general elections in the American board mission buildings in Hadjin, to the gratique of Enver Bey, a Nationalist machine gun commander. This soldier had been nursed back to life by Miss Mary Super, Narbeth, Pennsylvania, a Red Cross nurse detailed with the commission, of relief from the United States. On June 18, thirty minutes after the escape of the Canadian and American workers, the buildings were destroyed by the artillery fire of the Nationalists. This facts became known upon the arrival here of Mr. and Mrs. Bby, Miss Super and Miss Katherine Bredemus, South Bend, Indiana.

The relief workers maintained neutrality in the fighting between the Armenians and the Turks, which opened March 29. The Turks took charge of their compound, fortifying between the Armenians fired upon the Turks, the compound was perpendent of the same year. Ottawa, July 7.—Hon. Arthur Meighen is Sir Robert Borden's successor. He is the youngest man who has ever held the prime ministership, and also the first westerner called to this high honor. Yesterday Sir Robert Borden notified Mr. Meighen that he proposed submitting his name to his excellency as the proper person to form an administration. Last night Hon. Mr. Meighen accepted the task and in a few days will submit his cabinet to his excellency. Sir Robert Borden's formal resignation takes effect Saturday and the new leader will announce his cabinet shortly afterwards.

It has been a day of intense interest here. The arrival of Sir Thomas White, even the he had given an emphatic refusal to the attempt to have him reconsider his determination not to accept the leadership, added to interest and rumor. Sir Thomas made it clearly known that he was out of public life and strongly recommended Hon. Arthur Meighen as Sir Robert Borden's successor. There have always been the most friendly relations between sir Thomas White and Hon. Arthur Meighen. It is known that the new prime minister was willing to serve under Sir Thomas White if the latter accepted the leadership, and it is also known that Sir Thomas paid strong tribute today to the new leader's ability and service and urged on the cabinet that they give him a loyal support.

on Sir Thomas White's arrival he went into conference with the primary of the cabinet. He strongly urged that they present Hon. Arthur Meighen's name to the governor-general to form the new administration. His wishes prevailed and Sir Robert Borden sent for the commission of interior.
