THE T. EATON CO LIMITED

"SOLD OUT" SIGN AT EX. OFFICES

Five For Dollar Tickets Have All Been Disposed Of.

Five for one dollar tickets entirely "sold out" is the sign appearing in the Exhibition office, indicating that the 50,000 strips annually issued were all disposed of on the first day of the sale. In fact, the last of the strips were passed through the wicket shortly after noon. Last year the sale was closed before this hour, but this year Treasurer F. E. Brentnall took the precaution of questioning each applicant not known to him, for the purpose of keeping the tickets out of the hands of the "scalpers," and this consumed considerable time. After the sale it was announced that the tickets were in a large number of hands and were widely distributed than ever before.

This year the tickets are five instead of six for one dollar, and this fact, too, helped considerably in reducing the number of speculators. Many of whom in past years have profited, keeping the tickets until the visitors crowd the city at Exhibition time, and then selling them at an advance in price.

Big Demand for Space.

It was also announced by General Manager John G. Kent that there has been an unprecedented demand for space in every section of the grounds and buildings. All the concession space on the midway and the more congested sections of the grounds was disposed of weeks ago, and practically nothing remains to be sold in the more isolated parts of the grounds, more ground having been allotted today than was the case up to a week before the big fair opened a year ago. In the buildings the situation was never better. It was thought that the imposition of a space fee to exhibitors might result in the retirement of a considerable number of exhibitors, but the reverse has been the case. Old space holders have cheerfully met the new charges, while a record number of new applications have been received for space in the manufacturers, industrial, and other buildings. A rather notable feature in this connection is
