If You Would Avoid One of the Chief Causes of Unhappy Marriages, Mr. Man, Don't Propose Until You Have Money, the Desire for a Home, and Girl Who is Pal Instead of Dancing Partner.

A YOUNG man wants to know why so many marriages are failures. Oh, there are various and sundry reasons, too numerous to catalogue here; but one of the chief causes of wedding bells getting jangled and out of tune is because men go into marriage before

A happy marriage is not the result of blind luck. It is a scientific structure erected on a carefully laid foundation, and it has to be built up brick by brick. It also has to be erected by a competent architect who understands his trade and can show his union card—not by 'pren-

THEREFORE, young man, when you fall in love with a girl or think you are falling in love with one don't propose marriage to her until you know whether you are really ready to marry.

For pity's sake, for your own sake and, above all, for the woman's sake, don't marry until you are sure you are not marrying just because your fancy has been captured by a pretty face and you selfishly and jealously want to call it your own until you tire of it.

Only marry when you have got to the time of life when a quiet home looks better to you than a cabaret and when you have reached the point of wisdom when you know that the smiling reached the point of wisdom when you know that the smiling face of a good woman across the table is the crowning blessing that comes to a man and when the voices of little children have in them a thrill that beggars all other excitement and gayety that the world holds.

DO NOT marry until you are sick and tired of sowing your wild oats. There is an old proverb to the effect that the reformed rake makes the best husband. This does not gibe with our American ideas, but all the same there is a grain of truth in it.

Each of us at some time—men and women—must have our little fling, our little hour with the cap and bells, our playtime, and if we do not get it in our youth we take it later on when it is mighty liable to make trouble.

YOU will observe that the gay Lotharios whose affairs with adventuresses furnish spicy reading in our daily newspapers are almost always middle-aged men whose youths were hard and poverty-stricken and barren of all pleasure. We laugh at these men who are the easy marks of designing women, but the truth is that they are merly sowing their wild oats crop in the fall instead of in the spring, and the autumn sowing brings in the heaviest harvest of shame and remorse.

So, if you must go through the time when your idea of enjoyment is to drink a bit more than is good for you or to sit up all night in a poker game or to kiss painted lips, be very sure that these ignoble pleasures have palled upon you and that they weary, sicken and disgust you before you ask any woman to marry you.

No man has a right to marry a woman and set her down at home unless he intends to stay there with her and to stay because he wants to stay. If you are not certain that you love a woman well enough to enjoy spending your evenings in her company leave her in her own home where she has cheerful society. Give her a chance of marrying somebody who will chum up with her. You are not the only man.

ALSO consider the money question and be suze that you can afford the luxury of a wife before you indulge yourself in one. Never forget that while courtship is run on the hot-air plan, marriage is a cash transaction and that it takes money—and lots of it—to support a family.

Before you marry spend a week in careful study of your mother's bill book. Grind into your consciousness that there are bound to be butcher bills and grocery bills and plumber's bills and doctor bills of which you never dreamed. Then when you marry you will not have fits, as so many young husbands do, when you find out that your wife can't work miracles in the loaves and fishes line nor clothe herself with air.

AND to be happy you must be financially able to meet these bills, for, believe me, no matter how much people love each other there is no peace nor joy in the home where the collector is forever hammering on the door and where anxiety as to the future of wife and children tears at a man's heartstrings.

Finally, son, don't marry until you are old enough to have your taste settled and to know just what sort of a wife you will really want. Half of the matrimonial misery in the world is the direct result of men marrying when they are kids and getting sick and tired of their kid choice of a life partner. It is like condemning a man whose sophisticated appetite calls for caviar and strong meat to spend his life devouring chocolate creams because he was crazy about gooey messes when he was 18.

MATRIMONY is for grown-ups. It is not a pastime for babes and sucklings, so wait until you can bring a man's judgment to the choice of
a wife. Wait until you can see something in a woman beside a pretty face.
Wait until the color of her soul seems more important to you than the
color of her eyes. Wait until you consider her heart more important than
her complexion and you give more thought to the kind of companionship
she can give you than you do to whether her dance step matches yours or
not.

The thing that is worth having is worth waiting for. That is as true of love as it is of everything else, and if you would be happy though married wait until you are good and ready for it.

JULY 14—Sympathetic and kindly. Fond of the country, not at your best in town. Sincere—probably not at all of the "coquette" type. Possibly skilful at "decoration" in some form or other—fancy-work, painting, house-furnishing—whatever you happen to have thrown yourself into. Treat love wisely when Your flower is the water-lily.
Your lucky color is green.

Miss II. Dykeman, director of the Health Centre, advised yesterday that another donation to the Lady Byng summer camp at Belmont had been received. Mrs. W. White, wife of the Mayor, has paid in \$10, which had been sent to her for the camp by Mrs. E. Nelson Davis and Dr. E. Cosman Davis. Naturally the gift was graciously accepted and will go a long way in helping during the conduct of the camp at Belmont.

The glorious weather of the last few days has made doubly happy the life of the kiddles at the camp, it was said yesterday. The out-of-dors has proved very popular and to say that the youngsters are having a good time is putting it mildly. The general health of the camp is regarded as excellent with the children gaining each day.

SEE-SAWING up and down Broadway I did see the University of Wisconsin rowing crey disporting at Tommy Guinan's Playground. And whatever their ill success in the late regatta, surely they were most victorious in the conquest of pretty chorines.

Saw many noted ones at the club of Tommy's little sister Texas, and it moves me always to wonder at the strange cross section of life presented by the more popular of these resorts. What with potentates and celebrities trubbing cibows with unknowns and questionables.
