## KINDERGARTENS AS NOW BUT SCHOOL BOARD WILL LOOK AFTER FINANCES

### Protestant Orphanage Asks Rental for the Use of School Rooms.

The Board of School Trustees decided last evening to finance the Free Kindergartens and have them carried on as at present under the management of the Free Kindergarten Association. This proposition was acceptable to the I. O. D. E., who have been advocating the inclusion of the kindergartens into the school system. S. A. Worrell, acting superintendent of schools, will have a general supervision over the work. A request for rental for the school rooms used in the Protestant Orphanage Home was presented by D. C. Clark.

Others present were Trustees Mrs. E. R. Taylor, Mrs. D. P. Chis- John, A. C. Smith, G. Herbert Green, E. R. W. Ingham, A. A. McIntyre, Michael Coll, George E. Day, and Thomas Nagle. S. A. Worrell acting superintendent, and A. Gordon Leavitt, secretary.

Contracts for equipping manual training rooms were awarded as follows: in Lorne school to R. A. Corbett; in the new Albert school to H. O. Clark. The resignation of Stanley Nason from the teaching staff was accepted.

**School Rent.**  
D. C. Clark, president of the New Brunswick Protestant Orphanage, appeared before the board asking that some rental be paid for the school rooms used in the orphanage buildings. No rental had ever been paid and

school rooms had been used for thirty years in the Britain street Home; two and a half years in the Wright street Home, and two years in the West St. John Home. He pointed out that there were 8,696 pupils in the schools of whom 2,711 were in separate schools. He reckoned the cost of fuel and janitor service per pupil in the public school was \$7.70 and housing, fuel and janitor service per pupil in the separate schools amounted to \$18.83. Arrears of rental to the orphanages would amount to \$19,206.93. While making claims he reminded the board it was hoped to have the orphanage children moved outside the city this school year began in 1924 and he said the money would be most welcome at this time.

Mr. Nagle said the Cliff street orphanage received no rental for school rooms.

A committee consisting of Judge McKewen and Trustees Smith, Nagle, Ingham and McIntyre was appointed to consider the orphanage room rental matter.

## A 10-Day Tube FREE Send the Coupon

## This Free Test Will amaze and delight you

This offers you a ten-day test, to show the way to prettier teeth. To cleaner, safer teeth.

Millions now employ it. You see the results in whiter teeth wherever you look today. Now find out, for your own sake, what that way means to you.

**Film—the great enemy**

Dingy teeth and most tooth troubles come from film. From that vicious film you feel. Much of it resists the tooth brush, clings and stays.

Soon that film discolors. Then it forms dingy coats, and white teeth lose their luster.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.

Very few people who brush teeth in old ways escape those film-caused troubles.

**How to combat it**  
Dental science, after long research, has found ways to fight that film. One acts to disintegrate the

film at all stages of formation. The other removes it without harmful scouring.

A new-type tooth paste has been created to apply those methods daily. The name is Pepsodent. Now leading dentists the world over advise it, and careful people of some 50 nations enjoy its benefits.

**Natural, gentle ways**

In other ways Pepsodent is bringing a new dental era. It multiplies the alkalinity of the saliva and multiplies its starch digestant.

Those are Nature's agents for fighting acids and starch deposits on the teeth. Every use of Pepsodent gives them manifold effect.

Thus Pepsodent acts to protect the enamel in natural, gentle ways, and without the grit that injures.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the vicious film. See how teeth whiten as the film-costs disappear.

You will be amazed and delighted at what you see and feel. Cut out coupon now. This is too important to forget.

inspected under the supervision of an appointee of the Board, Judge McKewen, Mr. Coll and Mr. Leavitt were appointed a committee to name a weigher and inspector.

Adjustment was made to sit as teachers' committee.

## ORGANIZE FOR TOURIST TRAFFIC

### W. C. Allison Advocates Provincial Action Before Year Ends.

The most promising asset of New Brunswick, so far as development along new lines is concerned, is the opinion of Walter C. Allison, of Manchester, Robertson, Allison, Limited, is tourist traffic. What it has done for California is familiar to all readers; but what it has done and is doing for our neighbor the State of Maine is more familiar still. "The amount spent in Maine each year by tourists, summer campers and sportsmen has been estimated at \$60,000,000 or more. To get it some sort of comparison, that amount is very greatly in excess of what is expended in the lumber and pulp industry in New Brunswick in a year."

Mr. Allison presents the supposition that we received from tourist traffic even half as much as we do from lumber and pulp, and asks what that would mean. Everybody knows that when there is a severe slump in lumber for a year or two it means almost the difference between a profitable and unprofitable trade for merchants generally, affecting wholesale and retail alike, as well as the farmer, and practically every branch of business.

Once established, Mr. Allison points out, tourist traffic is not subject to vicissitudes, but tends to grow. We have the climate, the scenery, and now the roads. What we need is more hotel accommodation, camp sites, and for St. John and the St. John valley, a hotel and steamer service up to date on the river. We need also such a combined effort on the part of the whole province as would ensure a continued and effective publicity campaign.

**A Source of Business.**  
The business man who sees a sure return does not hesitate to invest, and the same should be true of the province. Here is a source of business that would bring millions into New Brunswick, and distribute the money very wisely among the people, and it would grow from year to year.

Mr. Allison points to another important consideration. Among the many thousands who would come from year to year would be some who would be impressed by opportunities for investment, and this would further benefit the province. But even if they come and find heavy enjoyment the money they would spend each year would aggregate a very large amount.

Mr. Allison has found that more and more business men are talking about developing this great asset. They are found not only in St. John, but in many parts of the province. The rapidly increasing number of American motorists seen on our roads in the last two years has set people thinking. If we are to have more money sent in our province by tourists next year the time to organize for the development of the business, Mr. Allison maintains, should not be delayed. He hopes to see such an expression of general interest as will ensure a real, province-wide organization at work before the end of the year.

**Roads Good.**  
Mr. Allison went recently on a motor tour through a portion of Kings and Queens counties, covering about a hundred miles. He found the roads good.

**Corns Hurt Less**  
If you polish your shoes well with Black-O shoe polish immediately before you wear them. This glycerine polish softens the leather which yields to the foot's pressure and much discomfort is avoided.

Black-O gives a wonderful black, soft lustre to the shoe without much rubbing. Tan-O is the polish to use for tan boots.

Throughout Nova Scotia dealers recommended it.

## RE-ELECT M. E. AGAR CHAIRMAN

### Meeting of Commissioners of the General Public Hospital.

The board of commissioners of the General Public Hospital elected officers at last night's meeting and appointed M. E. Agar as president, making appreciative reference to Mr. Agar's splendid service for the board and his able leadership since the retirement of Senator J. W. Daniel. The appointment was made retro-active commencing on the retirement of Senator Daniel. Alexander McMillan was appointed vice-president and Mrs. J. Verrier McMillan, treasurer and special commendation was given each of the newly elected officers. The chief business dealt with was the passing of by-laws. A new draft of by-laws had been prepared by a special committee and the board as a whole must pass upon them, section by section. Good progress was made. A letter from the American College of Surgeons regarding the standardization of hospitals referred to the recent visit of Dr. McEachern, the representative of the College, who had inspected the hospital. Praise was given many departments of the hospital, but Dr. McEachern had reported that the case records were not kept up to the requirements of the standardization committee and had urged special attention being given to this part of the hospital routine.

## Assessment Made By Compensation Board

### Class Two Industries Affected In Call To Cover Deficit.

It has been announced that an assessment will be made under the terms of the Workmen's Compensation Act on the industries falling under Class 2. This class comprises lumbering and all forms of woodworking. This assessment is in addition to the annual one in Class 1 for the current year and is made to make up a deficit which had accumulated in the industries concerned.

The deficit he explained was due to the fact that the amount paid out for compensation was greater and the total pay-rolls of the class were less than had been anticipated by the board. Consequently the amount of compensation paid had to be made up out of the general accident fund and the further assessment was made to restore this amount to the general fund and to carry out the terms of the act by making each class self-sustaining. The assessed deficit, he said, would amount to between \$165,000 and \$170,000.

Mr. Sinclair said that in accordance with the official notice, the board was calling for the payment of the first instalment of the further assessment on or before October 1. All those whose assessment will amount to \$100 or less are expected to pay the total amount by that date, and others, assessed for more than \$100 will be asked to pay one-third of the amount due. The balance will be subject to an interest charge unless the full amount is paid before October 1. He expected that the balance of the assessment would be spread over two or three years.

**NAME CONVENERS FOR FUNCTION AT THE INFIRMARY**

The tea and garden party to be held at the end of this month at the St. John Infirmary in aid of the building fund for the new wing, was further planned for at a largely attended meeting in the nurses' home of the infirmary last night. Miss Mary Downing, president of the Infirmary Alumnae, was in the chair and representatives of all the Catholic women's organizations were present.

Tea is to be served in the nurses' home and the conveners for the tea were named as follows: Mrs. J. E. Owens, for the St. John sub-division of the Catholic Women's League; Miss M. H. McCloskey, for the St. John north sub-division; Mrs. John O'Regan for the Altar Society; Mrs. Edward Heaney for St. Vincent de Paul Society. The conveners for the different booths which will be arranged about the grounds were named as follows: candy booth, St. Vincent Alumnae, Miss Mary Chelison, confectioner; ice cream, three divisions of the A. O. H. Mrs. Edward Finnigan, confectioner; fancy work, Children of Mary, Miss Mary McGrath, confectioner; soft drink booth, St. John

the Baptist Ladies' Society, Mrs. J. H. Doody, the Assumption Society, Mrs. Thomas Morrissey; Holy Trinity parish, Miss Amelia Haley; booth for home first aid articles, St. John Infirmary Alumnae, Miss Mary Downing convenor.

Asked in a recent grade school examination, "Who Was Frances Willard?" one pupil wrote: "He is a famous prize-fighter." Another: "She was the first to introduce women's sufferings."

**RUHR REFUGES TO FIND HOMES IN PROUD CASTLES**

Berlin, Aug. 14.—The spirit of democracy has begun to creep through the walls of the musty old castles of Germany.

Much interest has been aroused by the announcement of the Duke of Anhalt, former ruler of the Duchy of Anhalt, that his castle would be turned over to the government for the use of the Ruhr and Rhineland refugees. The enormous structure is to be divided into apartments and there will be a stovepipe protruding from every other window.

Owners of other castles are to follow suit.

**ART EXHIBITION.**  
The art and industrial exhibition being held at the Armouries by the A.M.E. in the Maritime Provinces is proving a great success. The exhibits show a great deal of interest and ability along the lines displayed and all who have visited the exhibition are speaking in complimentary terms of the effort. Today those in charge will set out to sell 1,000 tickets for the special concert to be given in the evening.
