California
the Scenic Way

The Overland Route to California is like turning the leaves of a picture book—majestic peaks and ranges of the Rockies, deep colorful Weber, Echo and Rainbow canyons, Great Salt Lake and the orange groves.

Scenes suggesting the glamor of the painted Indians, buffaloes, Mormon pioneers, gold seekers—all inseparable from the old Overland Trail.

See them this year—on the Chicago & North Western-Union Pacific—the Overland Route.

McClary's Ovens--White Nickled Inside
There are good reasons for the successful baking records of thousands of women with these wonderful ranges. The ovens are constructed of Arco Iron, a metal famous for its rust-resisting quality and particularly valuable in an oven because it heats so quickly. More than this, the interior of McClary's ovens are white nickled. This increases the radiating quality of the metal and makes a quick-heating, washable oven that it is a delight to work with.

Pandora Cast-Iron Range
Pandora has built a wonderful reputation in Canada, not only for its absolute reliability as a baker, but for fuel economy brought about by its unique flue system. In the Pandora the fire travel is doubled which ensures against loss of heat up the chimney.

Beautifully carved body, trimmed with bright smooth nickel; high warming closet with porcelain-enamel back; large porcelain-enamel hot-water reservoir; knife sharpener; tested thermometer; foot release for oven door.

If They're not COWAN'S They're Not MAPLE BUDS

THERE are many cheap imitations of Maple Buds on the market. People who buy them, not realizing that they are imitations, naturally think that Maple Buds have deteriorated in quality and flavour. This is not the case. The standard set by the real Maple Buds over fifteen years ago, has always been maintained.

Ask for Maple Buds. Look for the name "COWAN". It is on every Maple Bud.

A Positive Saving in Fuel and Food achieved by Two McClary's Ranges

Every extra pound of coal, every spoiled baking, contributes to the high cost of using an old, broken-down, rusted-out range. You can effect real savings in fuel and food by going to McClary's dealer and selecting a superior McClary's Range—the Kootenay, Canada's foremost steel range that is reinforced to resist rust attacks at vital points, or, if you prefer a cast-iron range, the popular Pandora.

Kootenay Steel Range with Enamel-Clad Flues

While presenting a handsome appearance, the distinctive feature of this range lies in the inner construction. The vital, hidden parts, the flues and smoke box—which in a steel range are most likely to be attacked by rust or corrosion, are protected by being "enamel clad." This prolongs the life of the range and ensures reliable baking qualities through many years of service. Supplied with high closet with enamel back; large directly-heated water reservoir; nickled base, drop oven-door with cool handle and tested thermometer; smooth nickel trimmings and porcelain enamel door panels.
