'Red' Menace Real, Says Fr. Corrigan

Declares Clever Plotters Plan America's Ruin.

(Boston Herald)

The Rev. Jones J. Corrigan, S. J., professor of social ethics at Boston College, characterized the communist doctrines of Soviet Russia as a revelation to barbarism, during an address before Back Bay Council, K. of C., at the Copley-Plaza yesterday.

He appealed for support of the Government in its efforts to combat with communist propaganda, declaring that "in every large city of the country American freedom of speech is being proscribed in a way that is a treason against our industrial, political and social institutions." He pointed out how alien to American ideals are the communist doctrines which the communists of this country are seeking to introduce by crime, sabotage, violence and terrorism.

"Make no mistake," he said, "communism in America is no bug-a-boo. It is a present and threatening danger that menaces our democracy, our army and navy, our constitutional guarantees, individual initiative, private enterprise and private property. Russia's red ruin is being plotted for free America by an alert, clever, tireless band of conspirators who will live to see the red flag fly in the place of old glory under the poison of their teachings is offset in time."

"Marxism, the clear-minded cardinal statesman, saved Belgium in 1914 by

his fervid patriotism and love of country. With no less love for our age-long civilization, now threatened by Soviet plots and propaganda, he has warned the peoples and Governments of the civilized world against the horde of brigands, led by an international band, who are experimenting in blood, pillage and sacrifice with their mad dreams of communism, and have plotted to impose it on the world by means of cannon and rifle. While pacifists are foolishly prattling of no more war, the greatest clash in all history is about to be launched, the supreme struggle between communist barbarism and western civilization."

At a meeting of the West End Improvement League last night, called for the purpose of appointing a committee from the league to co-operate with the city in the development of the new playground site recently purchased by the city, it was decided to set the ap-

pointment of the committee over until a meeting to be held on Wednesday night of next week. It was felt that a more generous response to co-operate with the city in this matter should be made by the West St. John people in view of the action of the city in acquiring the grounds.

MEXICO TO SEND BANDITS TO DREAD PRISON ISLES

Deportation Ordered to End Wave of Crime Which is Sweeping City.

Mexico City, April 26.—The great increase in crime in this city has induced the Government to take extreme measures for the protection of society. An order has been issued that all criminals captured by the police during the latter part of the last year be deported to the penal colony of the Islas Marias, a group of islands several hundred miles off the west coast of Mexico. The criminals have been protesting strongly and craving the protection of federal

justice. The judicial authorities of Mexico, however, are in complete accord on the policy of deportation, as it is believed that it constitutes the only effective method of checking the bands of robbers and murderers who have been terrorizing the city.

Two hundred criminals are on the list to be sent to the penal colony. The Islas Marias are held in great dread by all Mexican felons, as the islands are said to be the worst prison colonies in the world.

In 1920 France, Italy and Belgium imported 804,000 tons of beef.
