

## 'HAS DONE ME A WORLD OF GOOD'

Mrs. Eva Tebo, of St. John, Relieved of Five Years' Trouble—Declares Tanlac is the Best Medicine on the Earth.

Mrs. Eva Tebo, who lives at 30 Acadia street, St. John, is an ardent champion of the merits of Tanlac since she began taking it several weeks ago.

While discussing Tanlac, which has been so beneficial to her, Mrs. Tebo became very enthusiastic in commenting on her improved condition, said:

"I suffered terribly from indigestion for five years, and when I commenced taking Tanlac, I didn't believe I would ever be a well woman again, for all the medicines and treatments I had taken up to that time, didn't do me a particle of good, and my condition was gradually getting worse all the time. Everything I ate soured on my stomach, and I would have something sour, and often my heart would palpitate something awful on account of the gas that formed from this sour, undigested food. I would often suffer a great deal from headaches after going to bed, that I would have to get up and walk the floor all night long. My nerves were in bad condition, too, and the least noise would upset me. I suffered a great deal from chafes, and there were times when it just seemed that my head was going to burst. Finally became so weak and run-down that when I tried to do any of my housework I would become completely exhausted in a few minutes, and would just have to stop and let the work go.

"Some of my friends kept insisting on my giving Tanlac a trial until I was finally persuaded to buy one bottle and see what it would do for me. Well, I must say that Tanlac has done me a world of good, and I feel like a different person altogether now. In fact, my troubles have been completely overcome, and I am enjoying as good health in every way as I ever did in my life. I have a fine appetite, and can eat just anything I want without suffering afterwards. My nerves seem to be in perfect condition, and I sleep like a child every night. Those splitting headaches have left me, too, and that alone would make me say that Tanlac is the best medicine I have ever used. I am completely rid of stomach troubles, and am never bothered with shortness of breath, and never have those smothering spells any more. I am as well and strong in every way as I ever was in my life, and can do all my housework without the least trouble, and when I finish all my work, I feel so fresh that I often dress and go to a picture show. Tanlac did all that for me, and as long as I live I will never lose an opportunity to say a good word for it."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative. (Adv.)

## REGULATIONS TO PUT A STOP TO RECKLESS FLYING

Ottawa, July 16.—On the recommendation of the air board, privy council has approved of regulations forbidding dangerous flying. Trick or exhibition flying over areas is absolutely prohibited, as is also such flying at regattas or other public assemblies, except where specially arranged for by the promoters. Dangerous low flying is forbidden everywhere, and any flying over cities or towns must be at a height which permits the machine to land outside in the event of engine failure.

Nothing dangerous must be dropped under any circumstances from a flying machine. The penalties provided are six months' imprisonment or a fine of \$1,000, or both, and not only the pilot, but the owner of the machine is liable.

## The Intelligent Way To End Corns

Not by paring. That's a risky makeshift, and results are brief. Not by harsh, haphazard methods made by non-scientific men.

Not by padding. Pads are unsightly, and they simply coddle corns.

**Expert Methods**  
Blue-jay was invented by a scientific expert. It is made by a house famed for its surgical dressings.

It embodies the up-to-date method, the right method of corn treatment.

Apply it and the pain stops instantly. Forget it for two days. Remove it, and the corn is gone for good. One corn in ten may need a second application, but that's all.

Millions of corns have been ended in this way. Aching corns are unknown to its users.

These are facts known to your own friends and neighbors. It is time that you knew them. Try Blue-jay tonight.

Thin, Nervous People Need Bitro-Phosphate

What It Is and How It Increases Weight, Strength and Nerve Force in Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL

Says Editor of "Physicians' Who's Who"

Take plain bitro-phosphate is the advice of these physicians to thin delicate nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation.

Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and sold by the Ross Drug Co. in St. John and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 23 and 27 pounds, respectively, through the administration of organic phosphate; both patients claim they have not felt as strong and well for the past twelve years.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear. dull eyes ought to brighten and pale cheeks glow with the bloom of perfect health.

Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Frederick Koile, M. D., editor of New York Physicians, "Who's Who," "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance. Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-Phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised 'cure-alls.'"

**CAUTION!**—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its tendency to increase weight it should not be used by anyone who does not desire to put on flesh.

## When Appetite Fails And Health Declines Follow This Suggestion

REQUIRES ONLY A COUPLE OF SMALL TABLETS AFTER MEALS TO FIX YOU UP AGAIN.

A New Blood-Food Called Ferrozone Sure to Restore You Quickly. Every day comes the good news of wonderful cures with Ferrozone.

In Peterboro' it worked marvels for Louis Mehan—put him right on his feet—made him entirely well.

"About three years ago," says Mr. Mehan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up breaking with the doctors because they did not help me and on the advice of a friend used Ferrozone. It not only cured me of Dyspepsia and Bilelessness, but has built up my strength to what it was before I had the Grippe. I can recommend Ferrozone as an ideal restorative."

Ferrozone gives you force, energy and vim. It strengthens the stomach, cures indigestion, prevents headaches—guarantees good health.

Thousands use Ferrozone—they all feel better; try it yourself—sold in 50c boxes, six for \$2.50 at all dealers or direct from The Caturrhoeo Co., Kingston, Ont.

## NO LAW TO INVOKE AGAINST CARSON

Attorney-General Advises no Action Can be Taken Though Language Used is Condemned in House.

London, July 16.—Sir Edward Carson's recent speech regarding Irish conditions came up in the House of Commons today. The Attorney General Sir Gordon Hewart, announced that there were no grounds for setting the law in motion against Sir Edward for his threat to call out the Ulster volunteers against Home Rule. By a vote of 217 to 78 the House rejected a motion by J. R. Clynes, labor member, urging the government to prosecute Sir Edward Carson for his "speech of incitement to violence and breach of the law."

The debate turned on the legal point, in which, the Attorney General said he had the concurrence of the Solicitor General. But almost all the speakers, without distinction of party, condemned the Carson speech. Sir Donald Maclean, Liberal, appealed to the government to try to regain the moral authority of parliament by condemning the language of the Irish Unionist leader.

Mr. Bonar Law, the government spokesman, contended that the government was bound to be guided by its legal advisers though nothing could be more painful to him. If the government had been advised that the law was broken he would have insisted on action being taken, or would have resigned. The whole thing was a very unfortunate affair, said Mr. Law.
