THE REAL WORLD SERIES.

Whether or not there will be a base-ball "world series" is not clear. In any event there is not as much interest in it as other years. Folks are too busy thinking about the greatest world's battle ever fought.
Most people want to have some part in that struggle. Millions are already doing not only their "bit" but their utmost. There is great need of increased food production and that need will continue after the war. The world has been short-rationed for many months and every person in Canada must do his utmost to produce and conserve food.
Join the army of harvesters. Put your heart into the work of saving the 1918 crop.
