## COMMISSION TO HEAR TELEPHONE CHARGES

A public investigation into the excessive rates charged by the New Brunswick Telephone Company in this city seems assured. H. A. Powell, K. C., representing the board of trade committee, who were appointed to look into the matter, appeared before the public utilities commission, which met here yesterday afternoon, and gave notice that the commission had decided to take action. The complaint against the telephone company has already been drafted. Mr. Powell said and would be filed within the next few days. The complaint deals exclusively with the charges that are made in St. John.

Mr. Powell stated that he had been requested to make a draft of the complaint to be presented before the commission in order that they might be given an opportunity to inquire into the rates charged by the N. B. Telephone Co., the complaint to be that the company's charges were

unreasonable. While he had the complaint drafted, the rules of procedure forbade him presenting it at the meeting. Mr. Otty pointed out that if both parties took the same time for filing and answering, the matter could not come up at the next meeting. Chairman Vince suggested that Mr. Powell meet the telephone people in the matter and arrange so that it could be dealt with at the next meeting, and Mr. Powell promised to do so.

## Bathtubs for Mules

A large bathtub, 40 feet in length, has been installed in the stables of a coal mining company in Pennsylvania. This tub is not for the use of the miners, but for the mules owned by the company. The unique mine improvement is built at the entrance of the mule barn. The long-eared beasts are pretty tired when their day's work is done, but when they strike the bath all fatigue disappears and they rush into the water, crowding each other for the deepest place in the tub. The bath is expected to prolong their vigor and vitality.

L. K. Simmons, who was fined one cent in the city court in Richmond, Ind., for trespass, declares that he will take an appeal to the circuit court. Simmons took down a stove in the residence of Charles Skellens and in doing so threw some soil on several pieces. Skellens then filed the charge against him.

## The Evening Chit-Chat

By RUTH CAMERON

IT OCCURRED to me the other day, after being an unwilling witness at a family scrap, that one of the greatest harmony destroyers in the home is the fixed idea which many people have, that every untoward thing that happens must be somebody's FAULT.

Don't you think maybe there is something in my idea?

Perhaps you don't grasp exactly what I mean.

I'll try to elucidate.

Big brother puts his bundle of shirts for the laundry out in the hall. Sister in the darkness falls over them and breaks the pitcher she is carrying.

"It's all Bob's FAULT," she wails, "for leaving those old shirts in the hall for somebody to tumble over."

"Go on!" retorts Bob warmly. "It's your own fault for not carrying a lamp or lighting the light so you could see where you were going and not tumble over everything."

Why anybody's FAULT? Why not call it just what it was—an unfortunate accident—and thereby preserve family harmony, which surely is infinitely more important than any little china pitcher?

The other day I saw two young folks half spoiling what should have been a perfect holiday outing, just because each insisted on calling an unfortunate accident the other's FAULT.

The husband went back after a magazine which he was particularly anxious to read, and then when the car was blocked and they missed the train his wife said that if he hadn't gone back for that magazine they would doubtless have gotten a car that would have been ahead of the blockade and therefore the husband's fault. The wife, in turn, insisted on stopping to do up the dishes, instead of leaving them until night, as he wanted her to, they would surely have gotten the train, and therefore it was her FAULT.

And in the flare of recriminations and temper that followed, the beauty and brightness of the perfect autumn morning was clouded and the edge taken of that childlike delight in a lack with which they had fared forth together.

All of which needs to have happened had they both accepted the blockade and the missing of the train as an unfortunate accident, and had not insisted on calling it somebody's FAULT.

Irritating and disturbing little things inevitably happen to all of us. If we try hard enough we can usually find someone to blame for them. But wouldn't it be a happier world if instead of trying hard enough, we cheerfully accepted such things as nobody's FAULT, just accidents.

Seems so to me anyway.

## GENERAL NEWS

As a result to Nationalize Monopolies—P. E. I. Telephone Co.—I. C. R. Driver Killed

Melbourne, Australia, Sept. 28.—The new Fisher administration apparently is determined that politics shall not reach a dead level of dulness. The latest proposal of the cabinet is that all monopolies shall be nationalized, and all industrial authority, through the commonwealth shall be vested in the federation. This ambitious programme is intended to submit to the electors by means of referendum. The people will be asked to approve or reject the proposals and afterwards legislation, based on the people's decision, will be brought before parliament.

Charlottetown, P. E. I., Sept. 28.—(Special)—The adjourned meeting of the P. E. I. Telephone Company was held in their offices in this city tonight. Offers were received from the Bell Telephone Company of Canada and the Maritime Telegraph & Telephone Company for the purchase of the stock of the island company. The latter company is a newly chartered corporation in this province.

The meeting adjourned without any action being taken.

Shelburne, Maine, Sept. 28.—Ivory Russell was tonight found guilty of manslaughter in causing the death of his father, John Russell, last December.

Halifax, Sept. 28.—(Special)—B. Postman, engineer on a shunting engine of the I. C. R. at Richmond, was killed tonight. It is thought that while crossing the track to his engine he was struck by an incoming freight, the wheels passing over him and cutting him up terribly.
