Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidots for the disease. Sarsaparilla is reputed to care. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that on which will accomplish their cure must prove of immense service to this large class of our afficted fellow-citizens. How completely thus compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—
Schopella AND Schopellous Complaints, Eulerpions and Eulertic Diseases, Ulcrus,

Schoffla and Schofflous Complaints, Eutprinos and Eutprine Diseases, Ulcerra, Pomers, Blotters, Temors, Salt Ringer, Scald Head, Straites and Straitline Appletions, Merchan Debrase, Dropsy, Neutland of The Dochagere, Debrity, Dyspersy and Indocument, Debrits, Rose of St. Anthony's Fire, and indeed the whole class of complaints arising from Imperity of the Bloom.

ciaes of complaints arising from Insperior of raz Bloots.

This compound will be found a great promoter of health, when taken to the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous scree, through which the system will strive to rid itself of corruptions, if not assisted to daths through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstanced and slaggish in the veins; cleanse it whenever it is foul, and your feelings will telf you when. Even where no particular disorder is felt, people enjoy better health, and five longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla thus, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the dragalone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but hittle of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quant

or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart
of Extract of Sassaparilla for one dollar. Most
of these have been frauds upon the sinkly, for
they not only contain little, if any, Sarsayathey not only contain little, if any, Sarsayarilla, but often no curative properties whatever. Hence, bitter and pointal disappointmenshas followed the me of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with hippestion and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall research to supply such a remedy as shall research to he mane from the lead of obloquy which rost upon it. And we think we have ground for believing it has virtues which are irresistibly by the ordinary run of the diseases it is intended to cure. In order to secure their complete radication from the system, the sand of should be judiciously taken according to directions on the bottle.
