

**LOCAL STUDENTS IN
MCGILL EXAMINATIONS**
Victoria Pupils Do Well at the Different Tests.

The McGill University matriculation examinations, held recently, have resulted in 490 students passing out of a total number writing of 725. Of those not passing a number will be able to do so in September by taking one or more supplementary examinations in one subject on which they might have fallen too low. The following is the local list of successful students from the Victoria High school:

Thomas Norris and Henry Lunsum, equal, 52; Elmer Finnan, 51; George Williscroft, 50; Vera Adams, 54; Irene Aird, 54; Margaret Clay, Maud Knappett and Ruby Tubman, equal, 53; Joseph Moore and Jessie Roberts, equal, 53; Annie Rudd, 49; Eleanor Matthews, 48; Mary Robertson, 48; Evelyn Elzerich, 48; Mona MacDonald, 48; Florence Percival, 49; Myrtle Hendry, 42; Stephen Cheeseman, 39.

The following local pupils have passed the preliminary McGill examinations:

St. George's School for Girls—Erminie Chapman, 243.

University School—William Bowser, 272; Kenneth Corsan, 255.

St. Ann's Academy—Katherine Lister, 313.

Collegiate School—Leland Mounce, 282.

James Bay Academy—J. Curtis Watson, 247.

**BALM FOR SOME
MULTI-MILLIONAIRES**

Men Who Have Benefited the Nation Deserve Praise, Says Roosevelt.

New York, July 18.—Col. Roosevelt in the current number of the Outlook magazine apparently has applied a soothing ointment to the many wounds he inflicted upon "predatory wealth." While the former president does not back down from his position nor condone the evil of certain phases of wealth segregation, he apparently passed the olive branch to the class of American millionaires represented by Andrew Carnegie, et al.

Mr. Roosevelt declares in the Outlook that the presence of the multi-millionaire is not conducive to the health of the development of the United States. He builds, however, a well defined barrier of distinction between the multi-millionaire as a class and that person individually. The wide possibility of doing a national good with great wealth, the article states, has been recognized by certain wealthy Americans. These men, he affirms, deserve credit and praise for their ability and energy shown by amassing a great fortune, provided they have made the country richer in their prosperity.

FATAL FALL
Man Plunges to Bottom of Dry Dock at Puget Sound Navy Yard.

Navy Yard, Puget Sound, July 18.—Losing his balance while crossing the dry dock caisson here yesterday, Chauncey C. Stubbs, of Seattle, aged 76, plunged to his death on the cement bottom of the dry dock, 40 feet below. Stubbs, accompanied on his last trip by his wife, was on a sight-seeing trip about the yard.

Seed Cake.—One pound of flour, half a pound of butter, half a pound of sugar, three eggs, two teaspoonsful of caraway seeds, a pinch of salt, a little milk, one teaspoonful of baking powder. Cream the butter and sugar together, then add the yolks of the eggs, and by degrees mix in the flour, caraway seeds, salt, and milk and baking powder. Beat the whites of the eggs to a stiff froth, and add them last; stir very lightly, and bake in a buttered tin for an hour and a half.

**HOW WEAK GIRLS
MAY GROW INTO
STRONG WOMEN**

The Blood Supply Must Be Kept Rich, Red and Pure — Good Blood Means Good Health.

Healthy girlhood is the only path to healthy womanhood. The merging of girlhood into womanhood lays a new tax upon the blood. It is the overtaxing of the scanty blood supply that makes growing girls suffer from all those headaches, backaches and sideaches—all that paleness, weakness and weariness—all that languor, despondency and constant ill-health.

Unhealthy girlhood is bound to lead to unhealthy womanhood and a life of misery. Nothing but the blood-building qualities of Dr. Williams' Pink Pills can save a girl when she undertakes the trials and tasks of womanhood. That is the time when nature makes new demands upon the blood supply. Dr. Williams' Pink Pills actually make new, rich blood which meets these new demands with ease. In this simple scientific way Dr. Williams' Pink Pills fill a girl with overflowing health and strength.

Miss Eva Dennis, Amherst, N. S., says: "Dr. Williams' Pink Pills have done me a world of good. I was completely run down, was very pale, easily tired and suffered from frequent severe headaches. Though I tried many medicines I got nothing to do me the least good until I began using Dr. Williams' Pink Pills. Even the first box of these seemed to help me, and after taking a half dozen boxes I was again a strong, healthy girl. I have not had any illness since, but should I again feel run down Dr. Williams' Pink Pills will be my only medicine, and I strongly recommend them to every weak and ailing girl."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by the Dr. Williams' Medicine Co., Brockville, Ont.

COMPLAINS TO COURT.

Woman Requests to Have Her Husband Put Under Liquor Act.

Complaining that she could get no satisfaction from the police whom she said she had frequently visited with a complaint about her husband's drinking habits, Mrs. Smith waited on Friday in the police court for the appearance of Magistrate Jay, to whom she said she would put her case and see if she could not get the justice she asked for.

Magistrate Jay being out of town, the bench was taken by W. W. Northcott, J. P. Mrs. Smith made application to have her husband placed under the Liquor Act. The story she told from the witness box was that she had been to the police several times to obtain assistance in regard to her husband, but had been given no satisfaction. Her husband's habits were getting worse and worse. He had chased her down the street twice and beaten her. He frequently came home drunk from his occupation driving a milk wagon. Her home had been ruined and debt contracted through the drink habit. Mrs. Smith appeared to suffer considerably in telling her story. She asked that her husband be restrained as far as the law could do so.

Mr. Northcott told her to make the necessary application through the clerk of the police court when the case would be dealt with accordingly.

**CHILDREN'S TEETH
RUINED BY CANDY**

Seattle Dentist Would Have Children Taught the Use of the Toothbrush.

Seattle, Wash., July 18.—Candy is working appalling results among school children, according to a statement by Dr. F. E. O'Connell, of Seattle, before the convention of the Washington State Dental Society, in session in this city.

"There is not a school house in the city that is not surrounded with at least half a dozen candy shops," said Dr. O'Connell, "and to this fact must be attributed the prevalence of bad teeth among the city children."

"What we need to do is to thoroughly educate every one in the use of the various prophylactic measures. People must be taught the use of the toothbrush. In teaching them the care of their teeth we can do more good than with the finest mechanical skill after they are spoiled."

This morning's session of the society was given over to addresses and discussions of technical matters pertaining to the dental profession, and this afternoon clinics will be held.

INVESTIGATION ORDERED.
Lumbermen Complain That Railway Company is Not Using Fire Screens on Locomotives.

Ottawa, July 18.—R. H. Campbell, superintendent of forestry, now en route to British Columbia, has notified the railway commission that the Great Northern Railway Company is not complying with the regulations of the board respecting fire screens on smokestacks of locomotives, and that reports from lumber companies show many forest fires have been started along the railway in consequence. The board has instructed its western inspector to investigate.

CONVICT ESCAPES.

New Westminster, B. C., July 18.—Buying a suit of civilian clothes at a store on Lulu Island, Chas. Kendall, a convict working on the farm of the provincial jail at the island, slipped into the bush yesterday, changed his attire and disappeared. His absence was soon noted, however, and an alarm turned in. The other prisoners were taken back to the jail on the island. Kendall is about 23 years old, and 5 feet 8 inches in height. He was sentenced to a six months' term recently for establishing a fellow workman working on the Great Northern between here and Vancouver.

COAST ARTILLERY RESERVE.

Port Townsend, Wash., July 18.—By the side of the Coast Artillery corps garrison of Fort Worden, 20 tired Washington guardsmen, comprising the first, second, third and fifth companies of the recently organized Coast Artillery reserve of the state, are camped about the big fortification guns to-day.

The assembling of the state's artillery corps brings together the companies of Tacoma, Bellingham, Everett and Snohomish.

Lieut. Col. Gormley, commanding the state troops, expressed great satisfaction to-day at the accomplishments of the first day of the encampment.

TO BUILD MODERN WORKS.

Moncton, N. B., July 18.—The new I. C. R. freight car and passenger car repair shop to be built in St. John will be of the most modern and advanced style, according to plans now on file at the chief engineer's office of the I. C. R. here, which indicate that the building will in every way meet the requirements necessary. The new building will be 125 feet long and 45 feet wide. It will be a wooden frame of one story. There will be a ramp pit where the wheels can be conveniently taken off and replaced on the cars.

REV. D. B. MACDONALD DEAD.

St. Catharines, Ont., July 18.—Rev. Donald B. Macdonald died this morning as a result of a stroke of paralysis which he suffered two years ago. He is survived by three brothers, J. A. Macdonald, of the Toronto Globe; Edward, of Sumner, and John, of Regina. Mrs. John Beaton, of Vancouver, and Mrs. G. Slaters, of Edmonton, are sisters. He leaves six children.

WHEAT PRICES AT CHICAGO.

Chicago, July 18.—July wheat hovered about \$1.22 this forenoon. The traders generally are under the impression that Mrs. G. Slaters, of Edmonton, are sisters. He leaves six children.

**TAKT WILL WIN
TARIFF FIGHT**
**CONGRESS FORCED TO
GRANT CONCESSIONS**

Material Reductions Likely to Be Made on Coal and Lumber.

Washington, D. C., July 19.—President Taft will win his fight for admission or lower rates of duty on raw materials. Nearly every member of the conference committee on the tariff bill concedes this. Indications are that when the new tariff bill becomes a law the rates on the articles which the president desired to come in free will be as follows:

Iron ore free, present rate 40 cents per ton; oil free, now protected by countervailing duty; hides 7 1/2 per cent; coal, 45 cents per ton, present rate 67 cents; lumber probably \$1.25 on rough, with senate rates on finished.

This would be a material reduction throughout the lumber schedule.

When the conference transferred to the president's shoulders the responsibility of putting the foregoing raw materials on the free list it was not believed he would meet with success in bringing about a changed sentiment in relation to these articles. For several days, however, members of congress have been going to the White House, and not a few came away convinced that the president was right in insisting that all the articles would stand lower rates. It was not believed that he would be able to put hides, lumber, ore and coal on the free list, but it was acknowledged that any reduction of rates of the pending bill on these articles would amount to an administrative triumph.

That a change of sentiment had taken place in the senate in the matter of free iron ore and oil was a matter of common gossip about the capitol. It was stated that the 15 per cent ad valorem rates on hides would have to be cut in half, although some are still hopeful of retaining a rate as high as 10 per cent.

Coal at 45 cents a ton, it was declared, would prove satisfactory to every section except Wyoming, which fears that the industry in that state might be ruined by cheap Canadian coal. Two railroads are now building from northwestern states to Canada, which will tap the Canadian coal fields. It is understood that the 45 cent rate, if adopted, will provide for no change in the existing rate of 15 cents a ton on slack, but that the Elkins amendment providing that this rate shall apply only to natural slack shipped as such at the mines, shall be accepted.

President Taft will win another decided victory in the Philippine free trade provision.

The action taken by the tariff conference settles the question of giving the secretary of the treasury authority to issue 50-year bonds at a rate of interest not exceeding 3 per cent to cover the entire cost of purchasing the site and constructing the Panama canal. An amendment to the tariff bill giving the authority was prepared by Secretary McPherson. It was adopted by the conference.

There is no longer any question that the corporation tax amendment will be accepted.

**WOMAN CHARGED WITH
MURDERING HER BABY**

Alleged to Have Tried to Kill Other Children and End Own Life.

Des Moines, Ia., July 19.—Mrs. Wm. M. Oliphant of West Branch, was arrested on Saturday charged with killing her baby girl, attempting to poison three other daughters and attempting to commit suicide.

A letter found in Mrs. Oliphant's purse read: "I have nothing to live for now. My name is blackened. Bury us all by my little angel, Gladys, for the other little ones will soon be with her." The motive which is believed to have caused the woman's action is found in a suit recently begun by her husband against R. E. Scully, whom he charges with alienation of Mrs. Oliphant's affections. The suit is for \$10,000. Scully was a roomer at the Oliphant home.

MARSHALL FIELD'S WEALTH.

Daughter May Soon Receive Income From Her Share of Estate.

Chicago, July 19.—Mrs. David Beatty, of England, daughter of the late Marshall Field, will not have to wait a year to secure the income from her share of the estate left by her millionaire merchant father. According to a decision given in the probate court by Judge Cutting, the claim of the executors of Field's will that according to legal tenets, the income from the legacy was not available until one year after the death of the testator, was declared invalid.

DRISCOLL AND MORAN.

Sign Articles to Fight for the Featherweight Championship on Sept. 13.

London, July 18.—Jam. Driscoll, the champion English featherweight, and Owen Moran, the former bantamweight, have signed articles for a fight of 20 rounds for the featherweight championship on September 13th. A purse of \$10,000 has been offered, but the fighters have decided to await other bids.

**REPORT OF FIRES
WAS EXAGGERATED**

Only Slight Damage Along Canadian Northern Lines in Saskatchewan.

Ottawa, July 19.—Careful inquiry made by the forestry branch of the department of the interior from its officials and from independent lumbermen with regard to the damage reported early in June along the Canadian Northern line in Saskatchewan show that the reports of the damage were greatly exaggerated. From Tisdale to Etomani the only loss sustained was that of the Carrot River Lumber Company, which lost a quantity of lumber north of Tisdale. Their mill had, however, been previously removed. The Ruby lake mills sustained no loss, a fire in their yard having been got under control without causing serious damage. The fires in the vicinity of Crooked river did little damage. At Roscoe the Canadian Northern railway lost one span of their bridge. The fact that so little loss was caused is matter for congratulation as much damage exists in lumberyards and along the Canadian Northern railway right-of-way.

CONGRESSMEN PLAY BASEBALL

Washington, D. C., July 18.—Nine Democratic and as many Republican members of the lower house of congress divided into two teams, and afforded amusement for a great number of fans and some near fans this afternoon, when they clashed in a real ball game at the American League park for the benefit of charity. James Sherman, president of the senate, acted in the capacity of umpire.

VANCOUVER WOULD ENLARGE MINISTRY

Delegation Asks Government to Create New Portfolio.

A deputation representing the Vancouver Board of Trade waited upon the Provincial government on Thursday afternoon to urge upon the Premier and his colleagues a more active policy with respect to agricultural lands and immigration, and the filling up of the fertile valleys of the province.

Premier McBride and his colleagues heard the representatives, listening with evident interest, but promised nothing.

It was suggested by the delegation that the department of agriculture and immigration might well be put under the charge of a minister alone charged with that duty, thus relieving the Minister of Finance of his double task.

The Premier, however, gave little hope for any addition to the cabinet. In view of the fact that a minister had been added so recently.

The deputation is confident that their representations and the friendly consideration they had with the government will result in good.

MUST REMOVE ALL OBSTRUCTIONS

Railway Commission of Washington Now Dealing With Complaints.

Olympia, Wash., July 19.—To protect persons from injuries at grade crossings, the state railroad commission has issued citations, preliminary to hearings, when orders will be issued requiring railroad companies to move grain warehouses and other structures from the rights of way where such buildings obstruct a view of the tracks from the road.

One citation was issued to the O. R. & N., the Interior Warehouse Company and F. A. Mannerling, lessee, on the complaint ordering the removal of a warehouse at Gardfield. This warehouse is on the main street of that city and but four feet from a passing track. Teamsters driving along the road are shut off from all view of the track until they are practically on the tracks.

Similar conditions exist at many other places in the state, and at two stations on the Northern Pacific, where complaints have been made and citations issued.

KILLED BY RUNAWAY HORSES.

Roseburg, Ore., July 16.—In an effort to stop a team of horses which had got beyond the control of her husband, Mrs. John Frescher, sr., wife of a prominent farmer in this vicinity, was run over by the team and so seriously injured that she died an hour later.

TO ADVERTISE THE RESOURCES OF ALBERNI

Pamphlet Setting Forth Advantages of District Will Be Issued.

Alberni, July 15.—The regular monthly meeting of the board of trade was held in the court house on the 5th inst. with Vice-President C. F. Bishop in the chair. Considerable business of importance was transacted and the committee appointed at the previous meeting to look into the question of the best means of advertising the district, was authorized to prepare a pamphlet telling of the advantages of Alberni and the surrounding country.

There are a number of the athletes of the district training faithfully for the Scottish sports in Victoria on the 17th inst. The party includes E. M. Whyte, H. Bishop, G. Ward, F. Rollins and A. Drinkwater. They will leave here on Thursday night for Victoria.

Mr. and Mrs. James Anderson, of Anderson Lake, Barkley Sound, have been visitors in Alberni for the past week. Messrs. Sharp and Bournville, of

Victoria, who have been touring the island on their bicycles, spent a few days here last week.

Messrs. J. T. Croot and Melkoff, of Vancouver, arrived here on Saturday night and went down the canal to Bamfield yesterday, accompanied by R. J. Burde in R. Fort's launch.

The farmers are now busy cutting the season's hay.

TACOMA PITCHER RELEASED.

Owner Shreeder Not Satisfied With the Work of Hensling.

Portland, Ore., July 16.—Outfielder Garry, of the Portland Colts, and Pitcher Hensling, of the Tacoma team, are to-day men of leisure with not a single worry so far as the great American game is concerned, for they were presented with walking papers after yesterday's game in which they both participated.

George W. Shreeder, owner of the Tacoma club, says he is going to get a little new blood into the team in the hope of crawling "out of the cellar."

He has been assured that Ike Butler, who jumped the team some time ago, and Catcher Dashwood, will return. Hensling will be returned to Vernon, and Garry probably will return to his home in California.
