

COLOSSAL ENGLISH SUCCESS COMING TO ST. JOHN

Machine that Cures Diseases to be Shown Working next Thursday, and Tested Free, at Keith Assembly Rooms. A Chance of a Lifetime for Rheumatic, Paralytic, and Deaf Sufferers.

As will be given an announcement in the advertising columns a popular Lecture-Demonstration of that wonderful British invention the Veedee, is to be given in St. John, next Thursday evening at the Keith Assembly Rooms, Nickel Theatre building, when admission will be free. Such an unusual attraction is certain to draw a large audience all the more so as the short visit which the Veedee Demonstrator pays to St. John is at the request of many of the citizens who after reading in the British Press reports of the remarkable cures recently effected by the Veedee all over England sent numerous queries to London, which have resulted in the Veedee Company consenting to send us here, at great expense, their best Lecturer and Demonstrator.

THE VEEDEE IS NOT ELECTRICAL.

and as it contains no Electricity it needs no recharging and gives no shocks. So far from giving any shock its action is always gentle and pleasant. It pours a stream of delightful thrill or pulsation, right through any limb, muscle, or bodily organ at will—a stream of health-and-strength-giving vitality, stopping pain in two or three minutes and permanently curing many bodily troubles in a few regular treatments. In most cases the effect of the Veedee seems almost miraculous.

The VEEDEE cures in nature's way by sending largely increased blood circulation (and so nourishment) to the affected limb, muscle or organ. It cures by stimulating the nerves and blood. As a nerve tonic, it thrills new life and energy into you, and doubles your power and pleasure in living. It gives back even to aged of-

both sexes much of the vigor and health-joy of youth. It is the best and safest "General Tonic" ever yet devised.

The Veedee is recommended and employed by thousands of Physicians in Great Britain and all other countries. In one week 147 Veedees have been sold to Medical men in the British Isles alone. Many leading physicians, including Dr. Mortimer Granville, Dr. M. F. Pilgrim, and others have written valuable works strongly advocating Vibratory Massage for stimulating Blood Circulation and for curative purposes.

The list of names of the thousands of private users of the Veedee who have cured themselves at home, and with enthusiastic regarding the clear evidence through this marvelous machine would fill the space of a thick volume.

The Veedee is not recommended as a universal Remedy capable of curing all and every disease. It will not replace a limb torn off by violence, nor reconstruct a part of an organ which has been destroyed, neither will it cure permanently in one single treatment chronic diseases of long standing, which often requires a course of treatments before a permanent cure can be reasonably expected. Yet many sufferers who consider themselves incurable experience a marvelous improvement and relief even after one short treatment of a few minutes' duration, and the Veedee is often successful and beneficial when all other methods of treatment have failed, and for many complaints which are seldom cured by drugs.

Local sufferers should certainly avail themselves of this opportunity to test this remarkable invention and obtain relief free of charge at the Keith Assembly Rooms next Thursday.

Baby Gifts for Christmas

The donor of Baby's first silver set, is long remembered by both parents and recipient. It is used when new and treasured when old. We are describing two sets, one sterling silver, the other silver-plated. While, of course, the Sterling Silver Set is to be preferred, both will give entire satisfaction.

65010, Child's Sterling Silver Knife, Fork and Spoon Set, Saxon Design, in case, \$5.00.

65015, Child's Silver-plated Knife, Fork and Spoon Set, attractive design, in case, \$1.75

Be sure to use number when ordering. We pay postage, guarantee safe delivery and refund money if unsatisfactory.

NO CHANGE IN STAND OF CONSERVATIVES

Continued from page one.
It will be recalled that when Mr. Borden concluded with an amendment calling for a contribution sufficient for the purchase of two battleships for the last Dreadnought type, the Conservative members to a man sang "God Save the King" in the House.
On April 20 Mr. Borden again declared that: "I regard the subject of permanent co-operation by Canada in the naval defence of the Empire as one that should promptly be submitted to the people of this country before any plan of permanent co-operation is entered upon by Canada." In the same speech he said: "We stand as we have always stood in that respect of two considerations. First, that the emergency conditions of the Empire do demand immediate and effective aid; and in the second place, that before a basis of permanent co-operation in the naval defence of the Empire is entered upon, the people of this country have a right to be consulted and to give their mandates."

A Permanent Policy.
Concluding he repeated that "The true solution, the wise solution of the great problem that is before the people of Canada today would be, in the first place to bring immediate and effective aid in the manner I have already indicated to the house on the second reading of this bill, and in the second place, to mature more carefully and wisely the proposals for permanent co-operation by Canada in the naval defence of the Empire—to bring these proposals into parliament and discuss them, then to submit them to the people at a general election, and after that to have them carried in force according to the mandate and the direction of the free people of Canada."

On November 21, 1910, Mr. Borden gave the house an outline of the course he would follow if in power. "The government of this country," he said, "are able to ascertain and to know, if they take the proper action for that purpose, whether the conditions which face the Empire at this time in respect of naval defence are grave. If we were in power we would endeavor to win a decision on this question, and if the answer to that question, based upon the assurance of the government of the mother country and the report of the naval experts of the admiralty were such as to demand instant effective action by this country, then I would appeal to parliament for immediate and effective aid, and if parliament did not give immediate and effective aid, I would appeal from parliament to the people of the country. Then Sir, as to the permanent policy I think the people have a right to be consulted. A permanent policy would have to be worked out and when that permanent policy had been worked out and explained to the people of Canada, to every citizen in this country, then it would be the duty of any government to go to the people of Canada, to resolve their mandate, and accept or act upon their approval or disapproval of that policy."

These statements made by Premier Borden while in opposition mark the course which he has followed so far since becoming prime minister and which will be followed by him in connection with his naval policy during the coming session.
The Free Kindergarten.
Free kindergarten annual meeting, Monday evening in the board of trade rooms. Interesting sketches of work among the little people by kindergarten teachers and prominent social workers.
Classes in Mechanical Drawing will begin this evening at 7 o'clock in the Y. M. C. A., Roy Ring being instructor.

TURKEY SEEKS TO GAIN TIME TO STRENGTHEN HANDS AGAINST ALLIES

Continued from page 1.
Paris, Nov. 9.—"Dangerous but not hopeless," in the way the political plight in which Europe finds herself is summed up in official circles in Paris. The diplomatic controversy between Austria and Serbia over the question of Serbia's access to the Adriatic has the centre of the stage, overshadowing all else, even the war itself.

Efforts at mediation have been postponed because of this, as the complication retards the attempts to bring the powers into accord. A hopeful feature in the yesterday's news is the knowledge that powerful influence is at work on both sides to induce the disputants to find a compromise for the vexatious question.

Should this fail, Europe would find itself threatened by a deadlock between the Triple Alliance and the Triple Entente—Austria, Germany and Italy as opposed to Great Britain, France and Russia—full of possible complications.

Discussing the complexities of the situation a prominent diplomat said: "If this deadlock should not be too pessimistic. It is almost certain that we shall pass through difficult and dangerous chapters before the gloom is dispelled, but I think that we can reasonably expect that Austria and Germany will eventually settle their differences in an amicable way."

Paris, Nov. 9.—The French cruiser *Jardin de la Reine* was tonight despatched from Toulon for Smyrna for the protection of the Christians.

Constantinople, Nov. 9.—The Sheik-ul-Islam yesterday issued a manifesto to the Ulema and Hodjas, proclaiming a holy war, made public a further statement today. He said: "On the initiative of the military council of ministers, a communique of the Grand Vizier has been issued, in which the dispatch to Hadramout of about 100 eloquent and influential Ulema with the object of uplifting the moral state and reviving the religious ardor of the imperial army now being concentrated at Tchatalja."

"The Ulema are to exhort the troops to be ready to be understood by the common soldiers. These orators have been chosen from among the most distinguished Ulema in the capital. They are now preparing to leave for the headquarters of the army."

Athens, Nov. 9.—Admiral Michalis, from Crown Prince Constantine to night give details of the capitulation of Saloniki.

All day and night (Thursday) our troops were crossing the Axios Bridge," says the despatch.

"Last night the consuls of England, Germany, France and Austria, with the commandant of Saloniki and representatives of Tahsin Pasha, commander of the Turkish army, came to me at headquarters to submit proposals for the capitulation of the army."

"I refused, making the surrender of arms an absolute condition, and only conceding that their arms should be returned to them at the end of the war, I gave them until six o'clock in the morning to reply."

"As it happened" at 5 o'clock this morning (Friday) the commandant of Saloniki accompanied by the diplomatic agent, returned with a counter proposal admitting in principle the surrender of arms, but demanding the exemption of 5,000 rifles destined for the instruction of recruits. This request having been refused, they departed, but obtained a further delay of two hours in order to make an arrangement with the Turkish commander."

"As they had not returned at the stipulated time I ordered our troops to march which they did at nine o'clock in the morning. When our lines drew near the enemies' advanced posts towards half past four in the afternoon Tahsin Pasha sent an officer with a letter declaring that he accepted my conditions. I thereupon suspended the forward march and sent two officers to draw up a protocol for the surrender of arms and the capitulation of the town invested by our troops."

"The Turkish officers have been authorized to keep their words, on condition that they give their parole to take no further part in the war."

A great stir did not ensue. The Turkish army, surrounded by the two headed eagle of Byzantium is being made in Athens for presentation to the Crown Prince when he returns.

Saloniki, Nov. 9.—The crew of the Turkish paddle wheel despatch boat *Pand* at which the Turkish boat fired when she sank the Turkish battleship *Fethi Bulend* has mutinied and shot the captain. The other officers were fired at the men many of whom were killed.

CONFESSES HE TRIED TO POISON BROTHER

NEAR KENTVILLE, N. S.

Special to The Standard.

Halifax, Nov. 10.—Arthur Dorey of New Ross Road, near Kentville, was arrested yesterday charged with using poison with intent to kill. He is one of a family of six brothers, four of whom for some time have been at enmity with Charles Dorey, an elder brother.

In September last when Charles Dorey was at dinner he took a bite of potato. It was bitter and it was detected at once but Dorey's mouth and jaws were paralyzed. The police started an investigation and the Chas. Dorey potato patch was found to have been dug up and the potatoes impregnated with strychnine. The result was Arthur's arrest.

He confessed last evening. The case will come up next Friday.

Officer Henry improving.
The Third Chief of Policeman George Henry will be pleased to learn that he is rapidly recovering in the general public hospital, and it is expected that he will be around again in a few weeks.

MR. ASQUITH IS CONFIDENT OF OUTCOME

Continued from page 1.
"When Pitt, mortally stricken by the news of Asquith's, came home to die, he told those about him to roll up the map of Europe which hung on the wall. But even the campaign of Asquith did not produce changes so sudden and so startling and overwhelmingly complete as those which during the last month have been wrought by the Italian confederacy. The map of Eastern Europe has been recast, and in the process it may be that ideas, preconceptions and policies which were born in what is now a bygone era, will have to be modified, reconstructed, or even so altogether by the board. Upon one thing I believe the general opinion of Europe to be unanimous, namely, that the victors are not to be robbed of the fruits which cost them so dear. (Load cheering.)

"So as I know there is no disposition anywhere to belittle the magnitude of the struggle or dispute the decisiveness of the result. We in this country have no direct interest in the exact form which consequent political and territorial redistributions may ultimately take. These are other powers whose special relations, geographical, economic, ethical and historical, with the scene of the conflict and its destination are such that they cannot be expected not to claim hearing and a voice when the time comes for a permanent settlement."

PERSONAL.

Mrs. W. A. McGinley and Miss J. Gertrude Powers returned on Saturday night from Camden, Me., where they had been visiting their sister, Mrs. W. T. Grinnell.

Miss Margaret J. Irvine, of Milford, accompanied by her sister, Mrs. F. J. Stewart and Master Ronald Stewart, of Vancouver, left last evening for Montreal. En route they will visit Montreal, Minneapolis, Winnipeg and Calgary.

H. A. Powell left on a business trip to Montreal yesterday afternoon.

City Bunch, of Truro, is at the Royal Hotel. But in the afternoon the proposition of a big timber limits proposition on the Labrador.
