

NEW RECORD IN MARKET

Two Hogs with Aggregate weight of 1415 Pounds, Open Eyes of Merchants.

All records for big carcasses of pork were broken in the country market yesterday when George Raymond of Hampton brought into huge hogs weighing 815 and 600 lbs., respectively. These were the weights of the carcasses dressed. They were raised on Mr. Raymond's farm near Hampton, and showed that the possibilities for pork raising here were practically unlimited. Merchants who have done business in the market for years, said yesterday that they had never before seen such large porkers. It was said that the larger would have weighed well over a thousand pounds when alive.

Another record was smashed when a big turkey weighing thirty pounds was placed on exhibition in the stall of Mr. Hamilton. This bird came from the northern part of the province and was said to have been the largest ever shown here. While these records were being broken other articles of food were being displayed for sale in the country market, but the supply was not as large as usual. Butter sold at about thirty cents a pound. Turkey was scarce at thirty cents. There was a fair supply of eggs and poultry, however, and seemed to meet with ready sale. Geese sold for \$1 to \$1.25 each. There was a good supply of pork which sold at 14 and 18 cents a pound.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save your hair! Get a 25 cent bottle of Danderine right now.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, and what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

City Laborers' Payroll. The fortnightly wages for the city laborers, paid yesterday, was charged to the various departments as follows: Ferry \$ 175.15
Water and Sewerage 444.82
Public Works 4,422.97
\$6,442.97

"CASCARETS" ALWAYS STRAIGHTEN YOU UP

When constipated, head-achy, bilious, stomach sour, breath bad.

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out. Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never ripe or sick.

The missionary zeal of Zion Church is still further manifested in a strong Mission Band recently organized with the following officers: President, Miss E. Gilman; corresponding secretary, Muriel Purdy; superintendent of mite boxes, Mildred Wood.

OPERATION OF C. N. R. INTO CALGARY

Advice has been received from the Canadian Northern Railway that commencing March 23rd, that company will operate trains into Calgary, Alta. EXPERTS FAVOR OYSTER CULTURE AT QUINCY'S WHARF

Continued from page one. per cent. These amounts made up the bonus for the first half of the period for twenty years. In the receipts from mining royalties, he would point out that the Maritime Oil Fields Limited had paid royalties on 70,323 gallons crude oil amounting to over \$3,000. The total amount of receipts from royalties was \$13,516.

Oyster Culture. A new item in the report was that regarding oyster culture under the act of last year authorizing the department to issue leases of "barren bottoms or beds" a lease had been entered into with the Canadian Oyster Company at Westport. This company undertook to spend not less than \$10,000 annually for a period of seven years, and after January 1st, 1920, to pay a minimum royalty of not less than \$5,000 annually.

Another lease under nearly similar conditions was issued to Oysters Limited at Shemogue, extending along the western entrance of Great Shemogue to the eastern entrance of Little Shemogue, but excluding a small territory on which some oysters had been taken in the past. This company planted 2,000 barrels of oysters last fall and were to carry on more extensive operations this year. Representatives of a project to carry on oyster culture on an extensive scale in another section of the province had come to him to discuss the matter, and he looked forward to this becoming an important industry which would produce a substantial revenue within a few years.

The report showed that the game receipts were smaller than during the previous year. The licenses issued in 1913 and 1912 were really about the same in number and the difference was accounted for by the way in which the business had been cleaned up so as to come within the fiscal year, which ended before the hunting season opened.

A few weeks ago he had a conference with representatives of the New Brunswick Guides Association, and he read extracts from a report of the conference in which a New York sportsman in a letter stated that after hunting four consecutive years in the province, he was convinced that the moose was becoming more and more rapid as the years go on. He also read the camp record kept by Guide Arthur Pringle in the woods, not including ladies, that in which a New York sportsman in a letter stated that after hunting four consecutive years in the province, he was convinced that the moose was becoming more and more rapid as the years go on.

Hon. Mr. Fleming asked that hon. members bring along their private legislation as rapidly next week. The House adjourned at 5 p. m. until Monday at 8.30 p. m.

An interesting feature of the evening was the presentation by the Sunday school pupils of a purse of gold to Mr. Goudie, superintendent of the Sunday school. The presentation was made by the pastor on behalf of the present. To all present the evening

TORTURE RELIEVED RHEUMATISM CURED

Superintendent of Sunday School in Toronto Says "I Am Pleased to Tell You That I Am Cured," After Taking Fruit-a-lives.

R. A. WAUGH, Esq., 55 Dovercourt Road, TORONTO, Oct. 1st, 1913.

"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy 'Fruit-a-lives.' You may publish this letter, whole or in part, if you wish to do so. I have lived in this city for more than twelve years and am well known. I suffered from Rheumatism, especially in my hands. I have spent a lot of money without any good results, until I used 'Fruit-a-lives.' I have taken 'Fruit-a-lives' for 18 months now, and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 25 pounds in 18 months. I am very grateful for what 'Fruit-a-lives' has done for me."

Rheumatism of any kind—whether in hands, arms, feet, legs, joints or back—is caused by uric acid in the blood. Uric acid is formed when there is any stomach trouble, coupled with any disturbance of the kidneys, bowels or skin which prevent these organs from properly ridding the system of waste matter. This waste, or uric acid, acted upon by an acid condition of the stomach forms uric in the blood. The only way that Rheumatism, Sciatica and Lumbago can be cured, is to cure the kidneys, regulate the bowels and improve the digestion and skin action. 'Fruit-a-lives' cures Rheumatism because this wonderful fruit medicine gives new strength and vitality to the stomach, liver, bowels, kidneys and skin—purifies the blood and prevents the formation of an excess of uric acid. Rheumatism is an stubborn disease, but 'Fruit-a-lives' will always cure it when faithfully used according to directions.

ERUPTION ON HEAD HAD TO CUT HAIR

Formed Pimples and Matter Spread. For Three Months Did Not Go to School. Cuticura Soap and Ointment Cured in Ten Days. 60 Rue Doreville, Ville St. Pierre, Montreal. "Cuticura Soap and Ointment cured my little girl, aged eleven, of itchy of the head. It formed a pimple and this pimple broke and the matter spread and wherever the matter went another formed. She had large scales on her head and at night she scratched until the blood came. I was obliged to cut her hair all around the eruption. For three months she did not go to school and I cared for it during that time without result. I was told to wash it and to make an ointment of it, but after washing it she was worse. One evening when reading the paper I saw the advertisement of Cuticura Soap and Ointment and I wrote at once. After receiving the sample I immediately washed her head with the Cuticura Soap, then I put the Cuticura Ointment on. I did this twice a day, evening and morning. From the time I commenced using the Cuticura Soap and Ointment that night she did not scratch any more. It stopped the itching from the first evening. After buying some Cuticura Soap and ointment box of Cuticura Ointment, in ten days she was completely cured." (Signed) Mrs. Arthur Pezler, July 4, 1913. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. A single set is often sufficient. For a liberal free sample of each, with 25c. book, send post-card to Potter Drug & Chem. INMATES OF DISORDERLY HOUSES PROPOSE TO DEPART FROM CITY—"DIVES" WILL BE CLOSED.

It was learned on good authority that inmates of disorderly houses in the city last evening, when a large number of painted and powdered damsels from the out-of-town road houses were seen parading the principal streets wearing anxious expressions. It was learned on good authority that last evening officials made a quiet call on the five road houses in the city that have shady reputations and all for closed. The houses and the proprietresses and the houses were dark and silent. But it was apparent that those who, not many hours before, had been residing in these houses had decided it would be advisable to move as "the houses" were to be cleared and, if kept running, all persons found within the doors would stand a chance of being taken into custody and heavily fined or sent to jail for a long period. At all events, many of the inmates were in the city yesterday afternoon and last night.

"WRECKED IN MID AIR"
An Aeroplane Adventure.
IN THIS THREE-PART FEATURE we carry our patrons, as it were, across the ocean to sunny Italy and give them some thrilling experiences among the mountains, the waters, the rocks of the island, the maddest adventures of the world and the maddest adventures of long ago. The daughter of a wealthy merchant is affianced to one of the most popular and daring aviators of the land. This girl is captured by the robbers while on a morning, and while being carried off to their mountain lair, she escapes in a plane in order that they could collect heavy ransom for her liberation, the desperadoes are seen by the hero while competing in a transatlantic wireless race. He rescues her quickly to the ground but himself is captured. Astonishing aeroplanes and lovers are taken to the sea of health. What follows after that is thrilling indeed. By a clever ruse the hero rescues his heroine and while flying at a great height with the girl as his passenger his plane collapses in mid air and the two are dashed to the ground and re-captured. Climates range upon climates in which passenger airplanes, escape through dense mazes and dodging heretofore flying the watcher guessing as to the outcome. This is a hit not so with all the routine and surprising effects for which the Old World grandeur have long since been famous.
