THE POLICE FORCE
OF THE BODY

DAY and night—without
ceasing—a struggle is
going on in your body be-
tween the germs of disease
and the white blood cor-
puscles—the police force of
the human body.

If this police force weakens,
disease germs gain a foot-
hold—sickness follows.

Constipation is the most common
and dangerous way of corrupting
the human police force. Food
waste remains too long in the
intestines—decays—poisons the blood
—and opens the way for attack by
the germs that cause tuberculosis,
diphtheria, pneumonia and a mul-
titude of other ills.

The culpable habit of using salts,
pills, mineral waters, castor oil,
etc., to force the bowels to move,
makes this condition even worse,
as constipation returns almost im-
mediately.

Nujol is entirely different from
drugs as it does not force or irritate
the bowels.

Nujol prevents stagnation by soft-
ening the food waste and encour-
aging the intestinal muscles to act
naturally, thus removing the cause
of constipation and self-poisoning.
It is absolutely harmless and pleasant.

Nujol helps Nature establish easy,
thorough bowel evacuation at reg-
ular intervals—the healthiest habit
in the world.

Get a bottle of Nujol from your
druggist today and keep your police
force on the job.

Warning: Nujol is sold in sealed
Nujol Trade Mark. All druggists. In-
sist on Nujol. You may suffer from
substitutes.

Train With 250 New Brun-
swick Men Bound for St.
John Was Derailed and
Three Cars Topped Over
Embankment—Men Arriv-
ed Here Yesterday.

About two hundred and fifty men for
New Brunswick, who crossed on the
Olympic, reached St. John yesterday
at noon and were given a warm wel-
come by friends. Owing to the news
of an accident to the train having
reached the city many were on the
anxious seat until the train arrived,
wondering whether loved ones had
come back safely from Europe only to
meet injury near home. Fortunately
none were seriously hurt, and the
minds of those at home were put at
rest with the arrival of the troop
train.

The run off occurred at Atkinson's
Sliding, about forty-eight miles west of
Truro. The train was going about
thirty-five miles an hour. Three of the
cars toppled over an embankment,
and the boys got quite a shaking up.
On arrival here Ptes. LeBlanc, Arm-
strong, Cullinan, Whitty and Long
were taken to the Lancaster Military
Hospital for treatment, having sus-
tained cuts and bruises.

The men were put here by represen-
tatives of the Citizens' Reception Com-
mittee and K. of C., and the usual gifts
were passed around, after which they
marched to the Armories for discharge.

Lieut. Eric Leger, of Richibucto, son
of A. T. Leger, M. P. for Kent, was
among those who came yesterday. He
enlisted as a private with the 165th
and won his commission on the field.

Pte. E. L. McPeake, of West St. John,
was over four years away, going over
in May, 1915, with the Victoria Rifles.

He also served in an artillery unit.

Dvr. George A. Chesley, one of three
brothers who enlisted early in the war,
returned yesterday, the only one of the
three to come back. Frank and Harold
lying in soldiers' graves "in Flanders
Fields."

C. S. M. Frederick B. Ross, M. P.,
one of the original 26th, returned yes-
terday. He passed through four years
of fighting and escaped injury until
the day before the armistice was
signed.

minded.

A case against Mrs. Florence Phil-
lips, charged with supplying liquor to
James Dempster, was resumed. Mrs.
Mary Hebert, 27 Brunswick street,
gave evidence, and the case was post-
poned until Friday at noon. Kenneth
J. MacIntyre appeared for the defendant.

Why all this Precaution?

JUST wherein lies the reason for the use of vegetable preparations for infants
and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and
most laymen?

Why has the Government placed a ban on all preparations containing, among
other poisonous drugs, Opium in its variously prepared forms and pleasing tastes,
and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the
house for the common ailments of infants and children.

CASTORIA

The False and the True.

Advertising by the use of large space, the expenditure of huge sums
of money have placed on the market, have put in your home, perhaps,
many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the
public than has Fletcher's Castoria—modest in all its claims, pleading
at all times—and truthfully—for "babies?"

The big splash, the misleading claims may win for a time, but
the honest truth-telling advertiser is like the old story of the tortoise
that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak
frankly, glowingly, enthusiastically in praise of Fletcher's Castoria.

Speak of it lovingly as a friend that has brought comfort, cheer and
smiles to their little one.

There are substitutes and imitations as there are for the diamond,
for anything of value. One might almost say that that which is not
copied has no value. So you have had the signature of Chas. H.
Fletcher and a copy of the genuine wrapper kept constantly before
you that you may guard against the false and the untrue.

Merchant Nearly
Put Out of Business

Had to Close Store Because
He Was So Run-Down—
Gains Twelve Pounds By
Taking Tanlac — "Best
Medicine on Earth," He
Says.

"When I say that Tanlac is the best
medicine I have ever seen, I know
just what I am talking about, for since
taking it all my troubles have been
overcome, and I have gained exactly
twelve pounds," said M. K. Tatar,
a well-known merchant who lives at
12806 123rd street, West Edmonton,
a few days ago.

"I had a bad spell of influenza about
four months ago," he continued, "and
it didn't lack very much of putting
me out of business altogether. I
piled through, however, but it cer-
tainly left my entire system in a
badly run-down condition. My stom-
ach was in such a bad fix that every-
thing I ate would sour and cause me
to be terribly bloated up with gas.
Then, at times, what I ate would give
me the worst sort of cramping pains
right in the pit of my stomach. I was
so nervous that the least noise would
startle me, and I would go right after
night without getting as much as an
hour's sleep. I finally got so weak
and run-down that I was not able to
do any work and had to keep my
store closed up for a long time. To
tell you the truth, I didn't have any
idea that I would ever be a well man
again."

"This Tanlac seemed to be doing
so many people so much good, so I
finally decided that if others got so
much benefit from it, it ought to help
me, too, and I bought a bottle and
commenced taking it. I have taken
three bottles of Tanlac so far, and it
certainly has done me a world of
good. My appetite came back before
I had finished my first bottle, and
now I eat just anything I want and I
never suffer a particle from it after-
wards. I am never bloated from
