

Police Court Cases Yesterday

Seven Drunks Remanded to Think it Over—Case Against Thomas Mallory for Having Illicit Still Was Before the Court—Judgment Thursday Afternoon.

After a couple days' quietness in police court circles, the new week got away with a start yesterday morning. It was "stock taking day" and seven drunks, the harvest of the week-end, were brought up for inspection. After a severe reprimand from the magistrate they were sent below to think it over. One of the men claimed to have lost \$25.

The Mallory case was resumed in the afternoon. Inspector Kerr went on the stand and identified two bottles which he had been given by Police Sergeant Journey to have analyzed.

M. V. Padlock, provincial analyst, found the contents of the bottles to contain a large percentage of alcohol, one went as high as 62 per cent. Police Officer Gibbs identified the bottles as those seized in the same barn as that in which the still was found, one of the bottles having been attached to the still.

Wm. A. Weeks, deputy collector for the Inland Revenue Department, identified the still produced in the court, as the one he had seized when it was

brought forward in evidence against Mallory by the prohibition authorities. He said that the defendant had no authority to have a still in his possession, as a license was necessary from the department, which the defendant did not have.

Mallory stated that he had taken a drink for over twenty years, and that when prohibition went into effect and he found it impossible to get liquor, he had installed the still, from which, after several unsuccessful attempts, he had at last made a strong wine. He never sold a drop, and did not think he was violating the law any more than if he had made the ordinary rhuabarb wine, which he said was in many cases much stronger.

His employer, E. Wetmore, was unaware that the still was in the barn. G. Earl Logan asked for a conviction on the grounds of the defendant having an illicit still in his possession contrary to the Inland Revenue Act.

Judgment will be given in the case at 2 o'clock Thursday afternoon. The Morris case which was to have come up yesterday afternoon, was postponed to Friday afternoon at 2:30 owing to the absence of the counsel for the defense Scott A. Morrell.

Mr. J. T. Hawke's condition continues to improve. Mr. Hawke is gradually gaining strength, and although he is able to sit up, he has not sufficiently recovered to be able to leave his room. Moncton Transcript.

"Auction of Souls" A Real Success

Capacity Houses Yesterday—Will Play All This Week.

It is not rare to see a lineup of hundreds in front of a St. John Moving Picture House occasionally when a picture of peculiar worth has been advertised, but seldom does this occur in the afternoon. These passing the Unique about three o'clock yesterday afternoon, therefore, were greatly surprised to see a very large number waiting for the second afternoon showing of "Auction of Souls," a remarkable feature which has been advertised for the entire week. The Unique management was very careful that all who attended would understand the nature of the subject to be shown, and probably the majority of Monday's patrons were agreeably surprised at not finding the screen version of "Auction of Souls" so realistic as anticipated. Unique patrons will be given an opportunity to see reproductions of modern slave markets and the deplorable cruelty meted out to a nation's girlhood by the fiendish brain of the devilish Turk; also the actual selling of women and girls in the slave markets at a price of 50c and the sinister cruelty of the Kurdish raiders on their innocent victims. This remarkable subject will be shown at the Unique afternoon and evening for the entire week, but after this week an opportunity of seeing the picture will present itself, as the censors have ruled that it can only be shown in one theatre.

his father, who resides at 3 Frederick street, the lad is survived by two sisters, Mrs. John Stark and Miss Annie, and one brother, Howard, all of this city. Much sympathy will be

PREVENTION IS BEST CURE FOR INFLUENZA SAY PUBLIC AUTHORITIES

Every Possible Effort Is Being Made In Affected Localities To Stop Further Spread Of Disease.

OUNCE OF PREVENTION WORTH POUND OF CURE

Persons Who Catch Colds Easily and Who Are In Run-Down Condition In Greatest Danger.

Influenza continues to spread, and the disease is now prevalent over many sections of the country. It has baffled the medical skill to an unusual extent, and although it has been held in check in most localities it has gotten beyond control in others. The germ has eluded bacteriologists, and medical men now agree that the best cure is prevention.

The surest prevention is to build up the bodily powers of resistance, and to get the system into the best physical condition possible. It is universally agreed that it is possible to perfect the powers of resistance of the human system so that it can throw off almost any infection not excepting influenza.

It has been observed that persons who are weak and run-down are more susceptible to the disease than per-

sons who are in robust health, and if you are in a generally run-down condition and below normal weight this warning should be heeded promptly. If you are in this condition nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science. As a reconstructive tonic and system builder it is without an equal and contains the very elements needed by the system to give you fighting strength to ward off disease germs. This is a statement of fact and is supported by the recognized authorities and reference works including the U. S. Dispensary, the Encyclopedia Britannica, and also by standard text books used in the schools of medicine. This statement is further proven by the fact that millions of persons who have actually taken Tanlac have testified to its extraordinary merit as a medicine and by the fact Tanlac is today having the largest sale of any tonic on the American market.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of colds, influenza, ordinary Grippe, and bronchial troubles, and hundreds of thousands are using it daily with most gratifying results. In connection with the Tanlac treatment it is very important to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac. Tanlac is sold in St. John by Ross Drug Company, and P. W. Munro, under the personal direction of a special Tanlac representative—Adv.

felt for the family in their bereavement.

H. E. Elson.
Word has been received in Moncton of the death of H. E. Elson, at his

home, 156 Ossington avenue, Toronto. Mr. Elson was for some years factory foreman for the J. A. Marvin Company, Moncton. The end came very suddenly Saturday morning, and was a great shock to his wife and son, G. E. Parks.

The death of G. E. Parks in the 64th year of his age occurred yesterday morning at the home of Mrs. Wesley Long, 58 Winslow street. Mr. Parks had been in ill health for the last burial this morning at 10 o'clock.

year. He was the son of Archibald Parks, a well known ship builder of St. Martins, and was engaged with his father in business for several years. He leaves to mourn five sons and one daughter, Benjamin, of Rothery, George E., of New York; Arthur D., Lee M. and Frank M. and Mrs. Wesley Long, all of West St. John. The funeral will be private and the body will be taken to St. Martins for

Young Men Don't Get Bald Cuticura Does Much To Prevent It

Dandruff, itching, scalp irritation, etc., point to an unhealthy condition of the scalp, which leads to thin, falling hair and premature baldness. Frequent shampoos with Cuticura Soap and hot water do much to prevent such a condition, especially if preceded by a gentle anointing with Cuticura Ointment to spots of dandruff and itching.

Soap 25c. Ointment 25c and 50c. Sold throughout the Dominion. Canadian Agents, Limited, St. Paul St., Montreal. Cuticura Soap shaves without ras.

A DANGER SIGNAL— TENDER AND BLEEDING GUMS

Healthy teeth cannot live in diseased tissue. Gums tainted with Pyorrhea are dangerously diseased. For not only the teeth are affected, but Pyorrhea germs creep into the body, lower its vitality and cause many ills.

Pyorrhea begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the poisonous germs that breed in pockets about them.

Four out of five people over forty have this disease. But you need not have it. Visit your dentist often for tooth and gum inspection. And keep Pyorrhea away by using Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy, the teeth white and clean. If you have tender or bleeding gums, start using it today. If gum-sickness has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

See and 60c tubes in Canada and U. S. If your druggist cannot supply you send to us direct and we will mail tube postpaid.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, straggled and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle at little cost at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

OBITUARY

Mr. Glen L. Atkinson.
A well of sorrow and grief was spread over our village on Tuesday, February 9, when the angel of death claimed all that was mortal of our friend Glen L. Atkinson. Having been ill only a few days, and being in the first years of his manhood, the crushing sorrow to his relatives and friends.

Having possessed a personality which nature surely endowed with all gifts of its lavish hand, and a kindly loving and generous disposition, he endeared himself to all whom were fortunate enough to have known him as a friend, and to have known him was to have loved and respected him.

In his passing from this veil of tears to the life eternal beyond the grave, Norton is robbed of a young life, which it ill could afford to lose. The home of our departed friend is mourning its sad but irrevocable loss in his heart-broken father and mother, and his sisters, Mrs. Albert Makopiepe and Miss Beatrice at home, and his four brothers, Rupert, of Sackville, N. B.; Haddon, St. Clair, and Reginald, of Norton.

The heartfelt sympathy of the community is extended to those sorrowing, who he has left behind. And there are many in this village and many more in other parts, who will, while life and memory lasts, remember their friend Glen L. Atkinson.

The Baptist church here on Thursday afternoon, February 11th, when the obsequies of our departed friend was held was filled to capacity. Representing all classes of the community the immense gathering bore testimony to the place which the deceased held in the esteem of all.

The cortege to the cemetery was followed by sorrowing relatives and friends. The floral tributes were numerous and beautiful, bearing silent testimony of the love of those from whom he has gone.

Robert M. Campbell.
Fredericton, Feb. 9.—One of Fredericton's best known business men, Robert M. Campbell, died last night following a short illness of pneumonia, which developed from a cold contracted three weeks ago, when a building he owned on Queen street was gutted by fire. Mr. Campbell was born at Kingsclear 75 years ago and early in life started the dry goods business, first at St. John, later moving to Kansas City, where he remained for about twenty years. He returned to this city, and started in business on Queen street, which he carried on successfully until a few years ago, when he retired.

H. E. Elson.
Word has been received in Moncton of the death of H. E. Elson, at his home, 156 Ossington avenue, Toronto. Mr. Elson was for some years factory foreman for the J. A. Marvin Company, Moncton. The end came very suddenly, Saturday morning, and was a great shock to his wife and son.

William Sullivan.
The death of William Sullivan, aged sixteen years, son of Dennis and the late Elizabeth Sullivan, occurred yesterday morning in the General Public Hospital. He had been ill just a few days with spinal meningitis. Besides

Harvard University.

CLARK S. NORTHRUP, Ph. D.,
Cornell University.

JOHN C. ROLFE, Ph. D.,
University of Pennsylvania.

FORREST S. LUNT, A. M.,
Columbia University.

MORRIS W. CROLL, Ph. D.,
Princeton University.

GEORGE J. HAGAR, Editor-in-Chief.

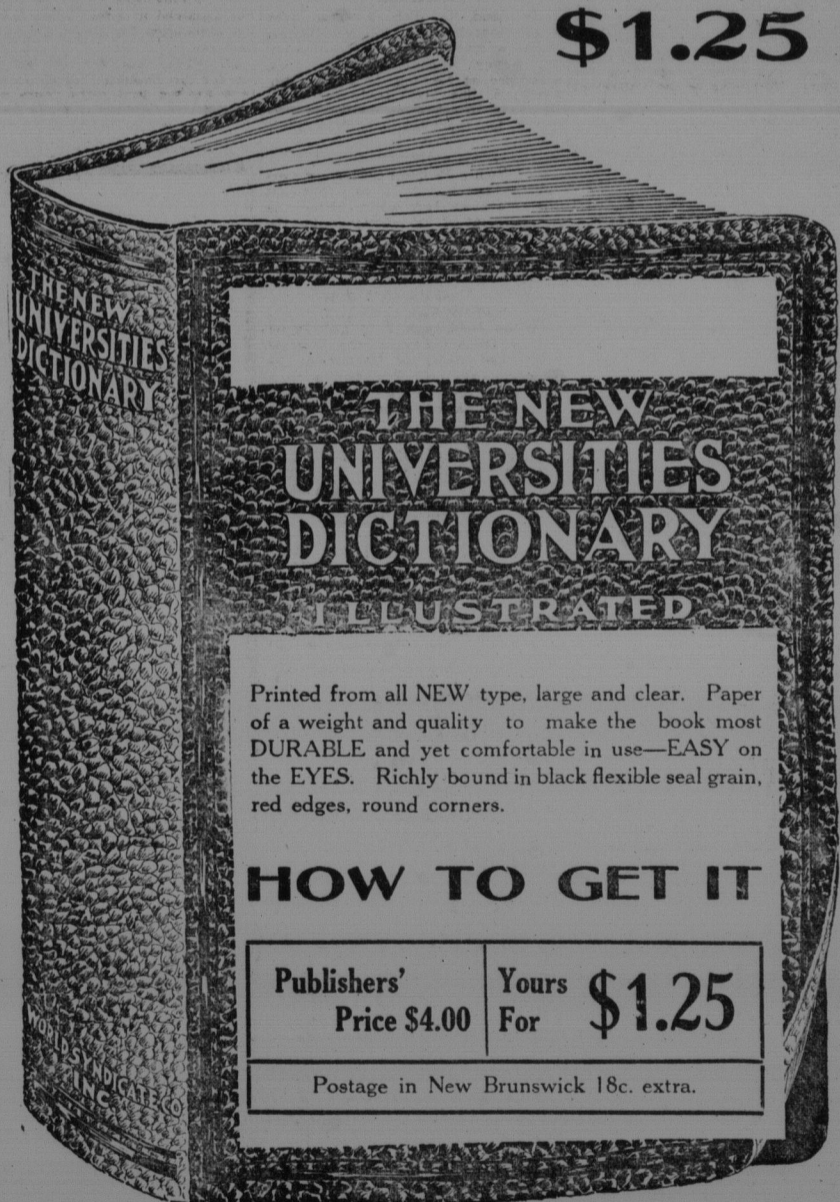

Each of these distinguished educators teaches, in their contributions to the New Universities Dictionary, how fashions in words changed and outgrew the old dictionaries. They tell how to build and punctuate sentences—how to acquire refinement, culture and force in speech and writing.

The New Universities Dictionary is more than a vocabulary—it is twenty-five dictionaries and a complete encyclopedia all in one—an exhaustive inventory of today's English.

All other dictionaries are out-of-date. This one, offered exclusively to readers of this paper, for a limited time only, is right up to the minute. You need it—your family needs it—your children need it every day. It should be your pleasure to get it at once.
