s increase very fast,
e formed like fleeces,
ds the edge, with the
i hail, snow or rain.
i trains, like locks of
in. When a general
fragments of clouds

ly underneath, they are a sure sign of rain, and probably will
be lasting. Two currents of clouds always portend rain, and
in summer, thunder.

Dew.—If the dew lies plentifully on the grass after a fair
day, it is a sign of another. If not, and there is no wind, rain
must follow. A red evening portends fine weather; but if it
