Among the earliest strikes in the  
United States were those of the  
shoemakers in Philadelphia in 1696  
and 1793, of the sailors in New  
York in 1803, the shipwrights at  
Medford, Mass., in 1817, the Al-  
bany printers in 1821, and the New  
York jitters in 1822.

The popular cork stoppers used  
for champagne bottles were invented  
by a Benedictine monk named Pari-  
geon at the abbey of Bantvillers  
about the year 1670.

## Keep the Cobwebs away

YOU know that times are good to-day.

You know that business is humming, that  
your pay envelope comes regularly and is  
well filled.

But do you know why this is so?

Canada is prosperous—and you are prosper-  
ous—because the Victory Loan 1918 was  
successful, enabling Canada to give credit to  
Great Britain and other countries who, as a  
result, were enabled to place orders in Canada  
for the goods YOU make.

But the proceeds of the Victory Loan 1918  
are exhausted.

Great Britain and her allies have more orders  
to place—but they are not yet in a position  
to pay cash.

If Canada is to get these further orders, she  
must extend credit.

The Victory Loan 1919 will provide the neces-  
sary money to establish these credits.

Every workingman wants prosperity to con-  
tinue. Therefore every workingman will buy  
Victory Bonds.

Buy to the limit of your ability.
