Made in types for every kind of earth and rock drilling or mineral prospecting, equipped with any power, or operated with your traction engine. Our new 100 page Catalog Free.

#### THE AMERICAN WELL WORKS

General Office and Works: AURORA

#### The Pump That Pumps

is a final testimony to the character of a house, surely the immense proportions to which this one Western Canadian house have developed may be taken in all seriousness as a "monument to quality."

For the home garden alone the catalogue will furnish all of beauty and novelty in thoroughly tested seeds that have any right to be sown in Western Canada alike in flowers, decorative grasses and prize-winning vegetables.

Field crops have been given a special place, and some very attractive offerings are listed in wheat, oats, barley and potatoes at really moderate prices, all the more remarkable because of the prevailing war prices, which in some quarters have been raised to a prohibitive point.

We take real pleasure in going through this fine work, replete as it is with all that the West can grow in garden and field crops, and in urging our readers to secure a copy while it is possible to secure one.

Substantial Increase to Canadian Shipping

The Canadian Pacific Railway announces the addition of two special new ships to their present Trans-Atlantic service, and which will again emphasize the rapidly growing trade and travel between Canada and Great Britain.

A distinct compliment has been paid to Western Canada, in the naming of the two new boats, the "Melita" and "Minnedosa." This is very gratifying to Westerners, and is a further indication that our great Western country is more and more claiming the attention, which is justly due it. The West, as always, has furnished the best of everything, both in peace and war, and we are now reaping the benefit.

The two new steamers are sister ships of the popular one class cabin and third class type, and will be as thoroughly modern and perfect in design and construction as it is possible for marine architecture to accomplish.

The dimensions are, length 525 feet; beam 67 feet; depth 46 feet; tonnage 13,000 gross. They are fitted with combination turbine and reciprocating engines driving triple screws, and will develop a speed of 15 knots.

The passenger accommodation provides for 500 cabin and 1,500 third class. The striking features of the cabin accommodation are, the large number of two-berth rooms, commodious lounge and smoking room on the promenade deck, also the completely fitted gymnasium. The main dining saloon will accommodate 300 passengers, while the third class dining rooms will accommodate 500 passengers.

The "Melita" and "Minnedosa" are also equipped with every known device for the comfort and safety of passengers, including Babcock and Wilcox patent davits for the safe and expeditious lowering away of lifeboats; double bottoms, giving double life as it were, to the ships; wireless telegraphy, and submarine signalling apparatus. The cruiser stern not only imparts a very war-like appearance to these boats, but greatly accentuates the stability and seaworthiness.

#### WITH WOMEN

Many women, principally Cossocks, are working in Russia for service in the ranks.

Women now want to be represented at the Hague Conference.

There are over 500 women doctors in England and Wales.

Nearly 5,000,000 females are working for wages in England.

Philadelphia has 168 women upholsterers.

Twenty women in every hundred have dark eyes.

At Vassar the girls lately "took account of stock," and found that they were spending for organized pleasures—dances, class suppers, tree ceremonies, and the like—more than \$17,000 a year. When they learned that that sum would give fifty-eight girls an income of \$6 a week or maintain a number of hospital beds, they resolved to save a good part of the expenditure and devote it to some work of debate usefulness.

## BARGAIN IN ENGINES

A few of these high grade Northwestern Engines left which are being offered at a further reduction in price.

One 3 H.P. air cooled, mounted on knuckled axle trucks, also reducing gear.	\$100.00
