The Game of Prophet.

Have you ever played a game called prophet? If not you will find it very entertaining, and we will tell you how to make the prophet.

First cut a piece of pasteboard per-fectly round; divide with pencil marks this circle into about twenty or more equal parts like the spokes of a wheel. Place this piece of pasteboard on a standard a few inches high, then either make or buy a small wooden doll, which must be dressed like a monk or prophet. Place this figure in the centre of the

circle on a wire or pivot so that it will turn freely. The prophet must have a wand in his right hand, which points to the figures on the disk

Now prepare a lot of cards, upon each of which you must write some prophecy bearing the numbers on the disk, such as No.15, "You will be successful in business;" No. 10, "You will have a long life and a merry one." The person

whose fortune is to be told must start the prophet revolving on the pivot, and when he stops his wand will point to one of the numbers. Then the card bearing that number must be given to the player. On this card he reads his future or part of it, and can, if he wishes, try it again. Several sets of cards with the same

numbers make the action quicker. This pastime affords much amusement is a parlor game.

Nine Nations

Now Use Liquozone.

Won't You Try It - Free?

nations, are constant users of Liquozone Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employ-These users are everywhere; your neighbors and friends are among them. And half the people you meet -wherever you are-know someone whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquozone; then let us buy you a full size bottle to try.

We Paid \$100,000 For the American rights to Liquozone. We did this after testing the product for two years, through physi-

cians and hospitals, after proving, in thousands of difficult cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas-largely oxygen gas-by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food-the most helpful thing in the world to you. Its effects are

Millions of people, of nine different | Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone-like excess of oxygen-is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable. Asthma
