The KELSEY Warm Air Generator

is the **Last Word** in the methods of heating—it is an easy matter to make a fire and create heat, but to create the greatest amount of heat, to use the least amount of fuel, to send the heat to its proper place in proper quantities, is the problem that has been solved most effectively by the KELSEY.

Churches, Schools, Halls, Dwellings, etc., can be heated by the Kelsey System with a supply of coal which with any other system would be wholly inadequate.
