

Should any thing be done in that respect, I am confident
that you recollect the circumstances & your kind assurance
on that occasion, it is however with very little hopes of success -
I again trouble you, many of our great folks are at Quebec -
no doubt to present their remonstrance on the same point.

Will you allow me at the beginning of this
new year to present to you & your family sincere wishes
for their happiness and prosperity, & to you my grateful
thanks for the favors I have received
since I had the honour of your acquaintance.
