

254018-23

May 9th, 1919.

Sir,-

Your application to Mr. Chene of this Department, for assistance in having some of your land ploughed this spring has been transmitted to me for consideration. In reply I beg to say that in view of the recommendation made on your behalf as being interested in farming, I have to inform you that you may have four acres of your land ploughed, providing it is already cleared.

Kindly submit the account for this work to Mr. Henry Niquet, the Indian Agent, who should certify as to its correctness and forward same to the Department in the usual manner. The Department has also decided to provide for you the delivery of four tons of fertilizer next fall, when arrangements will be made regarding the supply of same.

Your obedient servant,

Asst. Deputy &amp; Secretary.

Mr. Charles Nolet,  
Odanak,  
Que.
