Ottawa, January 2nd, 1947.

Dear Mr. \_\_\_\_\_:

Will you be good enough to draw to the attention of your officials the importance of submitting to this office, at the earliest possible date, all legislation intended for introduction at the coming session. It is requested that bills be forwarded to this office by January 11th at the latest, so that the Cabinet can give consideration to the whole legislative programme during the following week.

Special importance is attached to the immediate submission of legislation to replace emergency powers and I have written special letters to Ministers whose departments have responsibility for such measures.

Yours sincerely,
