The bright spots given on this sheet as being boundaries
of a Redwood Survey and from Hawthorne to
the south to a distance of 10 miles. They represent
the same bright spots as the white ones on
the other sheet.

Compiled and drawn by W. M. Jones from a compilation by Scott De Lowe, and from Halfway, Grove Lands and Geological Survey Plans and from Wulffing's map of the State of Maine Geologically surveyed by L. W. Peabody and W. M. Jones
