

the form of a lecture at the first of our winter series of Musical and Literary Evenings.

#### WORK IN OTHER PLACES.

Reference was made in last year's report to the formation of a Catholic Truth Society in Almonte. This Society continues active and has been a considerable purchaser of literature from us during the year. A still larger purchaser has been the Catholic Truth Society of Alexandria, apparently a most active organization, formed since the date of our last report. The "Catholic Association" of Peterborough has also we believe, taken up the work of disseminating Catholic Literature. The "Catholic Association" of Montreal mentioned in our report of last year, as undertaking work similar to that of our Society, some months ago changed its name to "The Catholic Truth Society of Montreal" and has, we believe, been most active in the cause, more particularly among the sailors who visit the port. A large quantity of the catalogues and advertising literature of our own and the English and American societies has been distributed to both priests and laymen in the various towns of Eastern Ontario, and the secretary has written numerous personal letters in the hope of bringing about the formation of Truth societies in places where they do not already exist, but excepting as above, none have as yet been formed. That this advertising of the Society has not, however, been entirely thrown away is proved by the increased number of enquiries regarding the Society's literature received by the Secretary, and it is hoped that still more tangible results will follow in the future.
