

Tractors, Automobiles, Aeroplanes, Trucks and Motor Boats give better service and last longer when lubricated with En-ar-co National Motor Oil.

Oils Excel As Do the Men Who Make Them

Scientific Refining Made a Reality By En-ar-co Graduate Workmen

Lubrication satisfaction depends upon one vital factor—the workmen between the raw material and the finished product. To them is entrusted the task of refining the crude; the production of lubricants which mean success or failure to *your* motor.

En-ar-co refiners are graduate workmen. Each man has passed the rigid requirements of the efficiency standards set by En-ar-co experts. He has successfully completed the several grades of specialized training. Each man seeks to merit his master degree, for responsible tasks are entrusted to graduate workmen only.

Scientific Refining, as originated by the Canadian Oil Companies, consists of more than mechanical processes. It is more than laboratory formulas and standardized methods. It is all these, combined with the highest development of skilled training.

En-ar-co National Motor Oil The Scientific Lubricant

For nearly 40 years, En-ar-co National Brands have given utmost satisfaction by reason of the higher quality that En-ar-co methods have produced.

Leaders and authorities recommend its constant use. Thousands of users proclaim its excellence. Experience has taught them that En-ar-co means power conservation—it means that any motor will perform its duty in the most efficient manner.

Let this satisfaction be yours. Decide now to get better results by always using this scientific lubricant, made by graduate workmen.
