THE HOME OF A FARMER WHO HAS ACCOMPLISHED MUCH FOR HIS BROTHER FARMERS

A glimpse at the home of Mr. Wellington Boulter, in Prince Edward County, whose farm "The Maples" was one of the prize winning farms last year in Farm and Dairy's Prize Farms Competition, is here given. Mr. Boulter is seated in the automobile. The ladies include Mr. Boulter's two daughters. Mr. Boulter has not only been interested in farming all his life but he built on his farm the first canning factory erected in Eastern Ontario and one of the first in Canada. Last year the canning factories in Prince Edward County alone paid the farmers of that county more than all the cheese factories in the county. Canadian canning factories now pay farmers several million dollars a year for their products.
