

which completely fills the door, but level no intruder can push it in. It changes to a pupa and lives in the pupa becomes a moth all it to push its head against the door, allowing the moth to emerge. A large tuft of velvet and is bright with red.

THE HORSE.

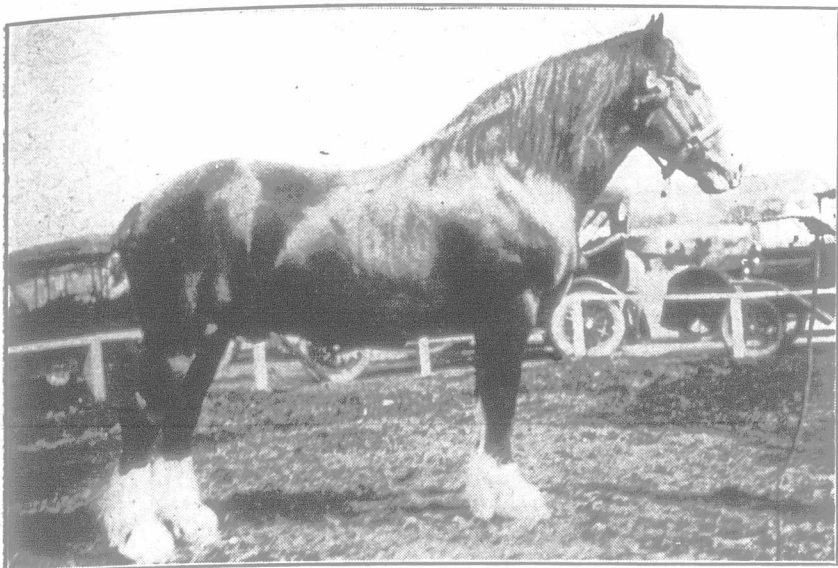

se's Teeth and Age.

on the farm will never know too the methods of telling the age of a teeth. In fact, most farmers and neglect altogether this important horse business. The buyer and seller should be able to tell with reason the age of any horse which may his hands. A writer signing himself "The Farmer and Stockbreeder" bed the method of telling a horse's not new, but we repeat some of it of those anxious to learn more uth of the horse. This year, it is portant that farmers should know ne age of their animals. The Res- sion and Army horse buyers re- of a certain age. There is no use horses or horses too young, several ing centre, and some trouble might horse owners knew how to tell the horses. "Vet" gives as the chief simple rules to follow.

al is born two front teeth are rtly through the gum, and one on these may generally be felt or is k where it will be through in a few o weeks of age the colt has four owing in the lower jaw, the place ce. In six or eight weeks the sec- eeth known as laterals as well as molar are well up. A yearling and two years old has all his teeth nes mistaken for a five-year-old an- owing sentence, while not absolute- a very convenient one in remem- of horses—"2½, 3½, 4½." At about ll years of age, or in the autumn oaled animal, the first or central are clearly through the gums or y up. Such a horse is said to be e years old. By the following hen the horse is three years old, up to the top or meeting those in These teeth are so much larger teeth on either side of them that ark the animal as a three-year-old. ng autumn, or when the horse is alf years old, a tooth is cut on the two permanent teeth already the horse is said to be "rising".

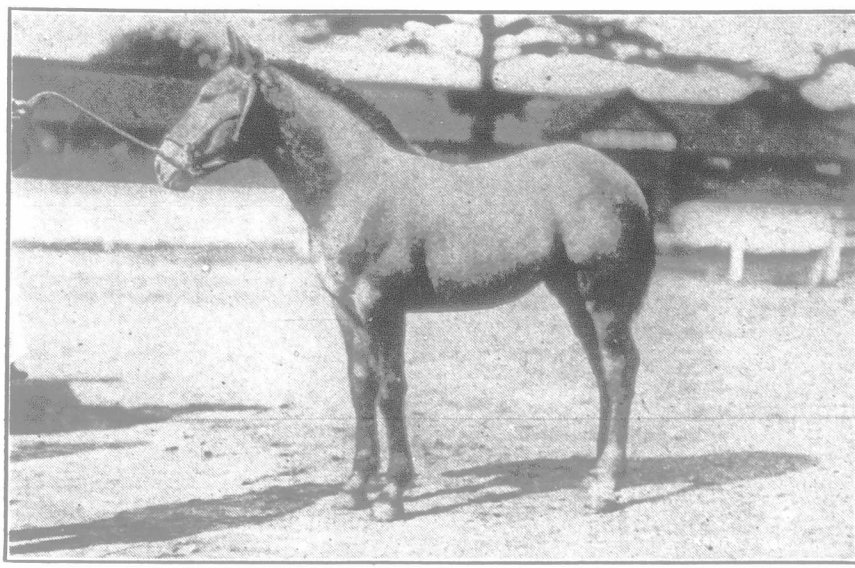

By the end of the following May, orse is four years old, he will have manent teeth matured and meeting per jaw, while the temporary milk end remain showing much smaller an the new permanent teeth. The teeth in an early-dropped foal gen- in the animal about June of the r years old. Such an animal is bed as "four off," until the follow- he will be "rising" five. A horse rs old until the upper and lower meet over their whole surface, and has begun to show wear. The orner tooth is not level with its upper jaw until the horse is about e years old. Then 2½, 3½, 4½, are the mouth shows the changes in- scribed.

old mouth is denoted by wear on th. The shelly appearance on the e and the table or surface of the wear on the front and back edges, small point at the side. The wear the front edge. The teeth on those next to the corner teeth have wing out and showing much less of k than the previous year, and the el surrounding the black mark has ne an oval shape. The cavities of ul incisors are almost gone but the rrounding the original black mark me assumed an elliptical shape, ex- the diameter of the tooth table and e back edge than to the front one. e fully developed with its groove. e tooth shows no wear. ars of age the corner nippers show w cavity and their tables are com- entral enamel is well defined, elipt- and is nearer to the back than to of the tooth. The enamel of the s has assumed a shape approaching shallow mark remaining does not as at the age of six. The tooth

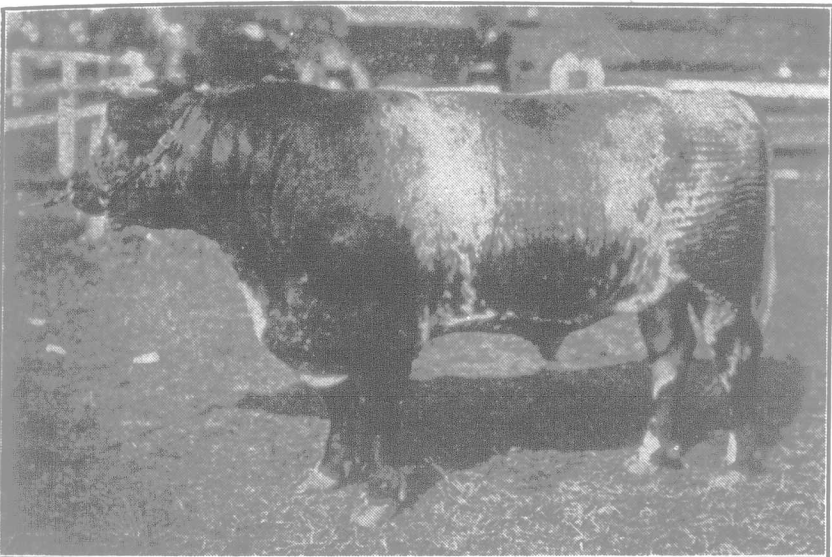

Ardyne Blend.

Champion Clydesdale stallion at London, for T. D. Elliott, Bolton, Ont.

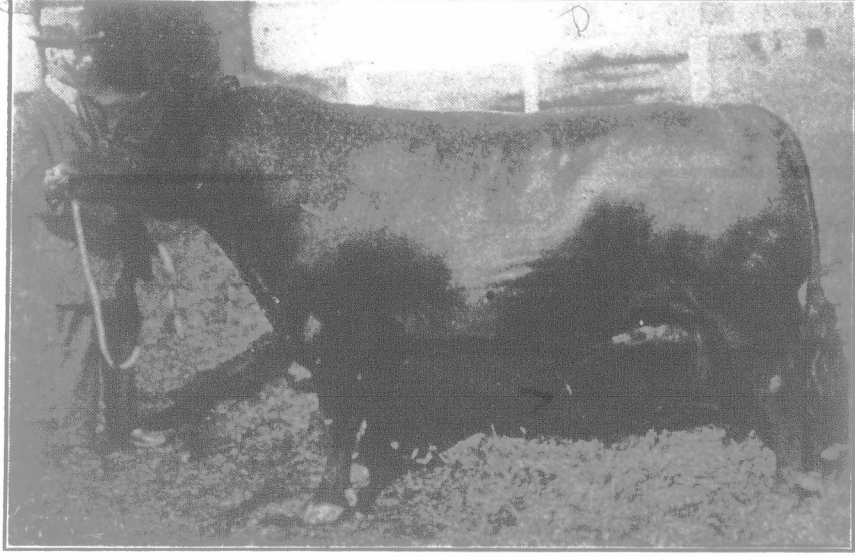

Percheron Foal.

Winner of first place at London, for J. W. Coulter, St. Thomas, Ont.

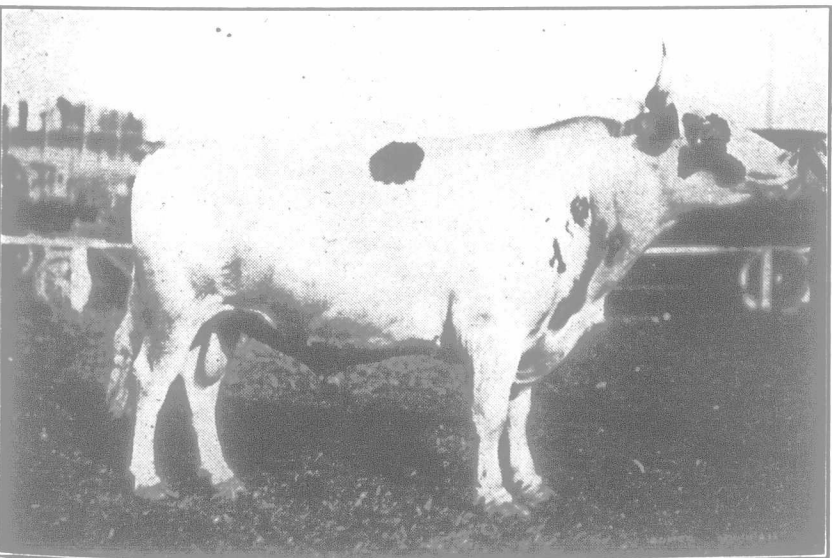

Augusta's Fairview.

First-prize senior yearling Shorthorn bull at Toronto and London. Owned by Robt. Duff, Myrtle, Ont.

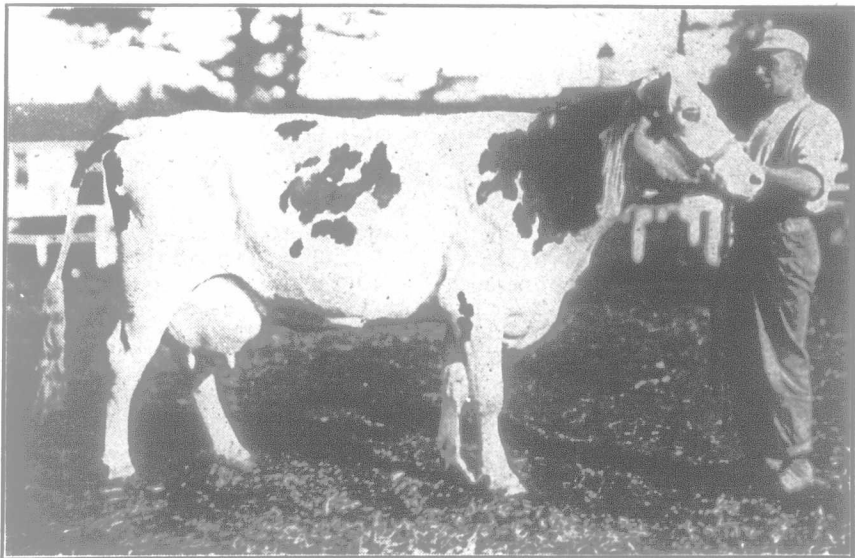

Beauty's Irwin.

Champion Aberdeen-Angus bull at London, and second at Toronto, for Jas. Bowman, Guelph, Ont.

Hillside Peter Pan.

Champion Ayrshire bull at London, and second at Toronto, for Alex. Hume, Campbellford, Ont.

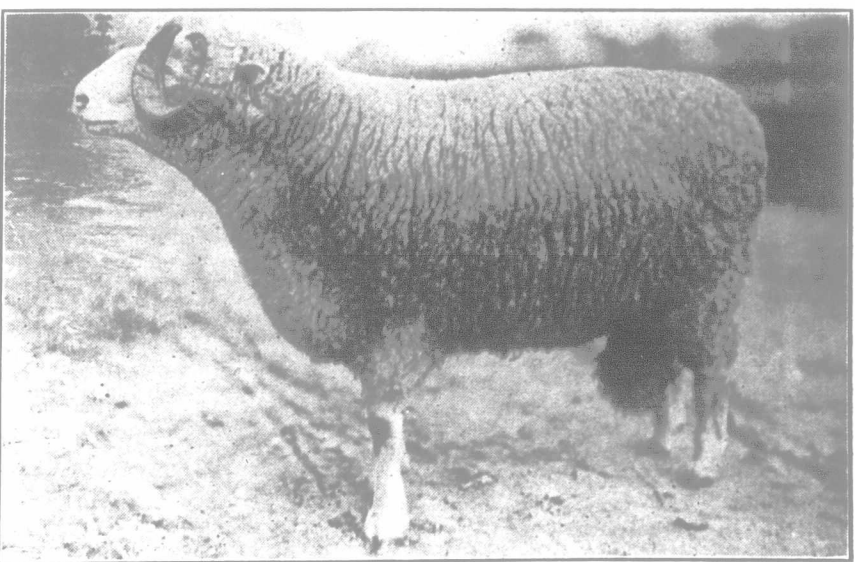

Homestead Howtje Calamity.

Champion Holstein female at London. Owned by R. J. Kelly, Culloden, Ont.

Aged Oxford Ram.

Champion at Toronto in 1915, for Peter Arkell & Sons, Teeswater, Ont.

Dorset Horn Ram Lamb.

Champion at Toronto in 1915, for W. E. Wright & Son, Glanworth, Ont.
