Notice to Importers

C. CHABOUDEZ & SON
295 rue La Fayette, PARIS, FRANCE.
If you want to buy Percheron Horses and Mares, I will save you time and money and all trouble with papers and shipment. Will meet importers at any landing port. I am acquainted with all breeders and farmers. 30 years experience. Best reference. Correspondence solicited.

Messrs. Hickman & Scruby
Court Lodge, Egerton, Kent, England.

Exporters of Pedigree live stock of all descriptions. Illustrated catalogues and highest references on application. We are doing a very large business in draft horses of all breeds, but especially Percherons, and we are offering unsurpassed values. All over the world there is a shortage of wool and mutton, sheep will go higher, and we solicit orders for show flocks. Our prices on big bunches of field sheep will surprise you.

Shorthorns, Cotswolds, Berkshires

In Shorthorns, am offering a number of cows and young calves. In Cotswolds, have a lot of extra good lambs coming on for fall trade. Nothing to offer at present in Berkshires.

Questions and Answers. Miscellaneous.

Lotion for Sore Shoulders.

Some time last year "Whip" gave a recipe for sore shoulders, also a preventive. I have hunted for the same, but can't find it. I would very much like to get it again through the papers. I know there was sugar of lead in it. Could you publish it again, for it was a grand thing. **G. A. D.**

R. R. No. 4.
Ans.—The lotion to which you refer is one ounce each of sulphate of zinc and acetate of lead in a pint of water. Apply four or five times daily. It is, as you say, a first-class thing.

Tufted Vetch.

I am sending a weed that is getting a foothold in this locality. It resembles the wild pea and flourishes equally well in grain or meadow. Will you please identify it, with a short description of its characteristics; also the best method of eradicating it. **O. E.**

Ans.—This is a plant of the tufted vetch (*Vicia cecca*). Although not the weediest of the vetches, it should be kept off the farm, for by its perennial roots and numerous seeds it soon makes dense patches. A well-cultivated hoe crop should go far to clean it up. Prevent seeding in the meantime.

Chickens Dying.

1. I have chickens dying after about a day's sickness; get sleepy-looking and die. Feed chick food and sour milk. **T. J. O'N.**

Ans.—1. First of all, examine them for lice. As you say nothing about other symptoms, this may easily be the cause of death. If so, grease the heads of young chicks with lard, and repeat in a few days. Hens may be dusted well with insect powder at intervals of a week.

Veterinary.

Distemper.

Sucking colt has distemper. His throat is swollen and he has difficulty in breathing and sucking. **G. M.**

Apply hot poultices to the throat. Change the poultice as soon as it begins to become cool. As soon as an abscess forms, have it lanced and flush out the cavity with a 4 per-cent. solution of carbolic acid three times daily. Give it 3 grains of quinine and 8 grains chlorate of potassium four times daily by placing well back on the tongue with a spoon. Do not try to give anything as a drench. **V.**

Skin Trouble.

Red and white heifer was sick two weeks ago and it required large doses of purgative medicines to cause a free movement in her bowels. Since then the skin of the white spots has become hardened and peels off. The red places are all right. **R. G.**

In some spotted animals the white spots are more liable to skin trouble than the dark ones. This is more common in swine than in cattle, but is occasionally noticed in the latter. Keep her in the stable out of the sun during the day and let her out at nights. Dress the diseased parts three times daily with carbolic acid, 1 part; sweet oil, 30 parts. **V.**

A boy sat on a rail fence enclosing a corn field. A city chap, passing by, said:

"Your corn looks kind of yellow, bub."

"Yep; that's the kind we planted," replied the boy.

"It don't look like you will get more than a half crop," said the city chap.

"Nope; we don't expect to; the landlord gets the other half," retorted the youngster.

The stranger hesitated a moment, and then ventured:

"You are not very far from a fool, are you, my boy?"

"Nope; not more'n ten feet," said the boy, and the city chap moved on.

Can Be Sown With Seed Drill

USE Harab Fertilizers for your fall wheat. They are so dry and finely ground that they can be sown with an ordinary seed drill.

Harab FERTILIZERS

are natural fertilizers, and nourish the soil besides stimulating the crops. Write for full particulars about our fall wheat fertilizer.
