BUSINESS CHANCE.

WANTED—Partner, to manage (or to purchase outright), a first class General Store Business, in the neighborhood of a flourishing town in Western Ontario. Must be a tradesman with good record, and about \$5,000 capital. No other need apply.

Address,
Drawer 212,
Collingwood, Ont.

TO MANUFACTURERS.

The Town of Collingwood is now prepared to give exemption of taxes for a term of years, also the use of water and light free, to any or all manufacturers who will locate in the Town, and carry on manufacturing industries. Collingwood is well situated for manufactories, having both railway and water facilities not excelled in Canada. Address,

JOHN HOGG,
Town Clerk.

Collingwood, April 16th, 1889.

TO MANUFACTURERS.

The Corporation of the Town of Seaforth is desirous of communicating with suitable persons for the establishment of a Foundry and Machine Shop in Seaforth. Seaforth is surrounded by one of the best agricultural districts in Canada, and is now without a foundry, a recent fire depriving us of that much needed industry. A pushing, practical man with a moderate capital could soon establish a large and profitable business, and would be liberally dealt with by the Corporation. Address

ROBERT WILSON, Mayor,
or WM. ELLIOTT, Clerk.

Gurney's SYSTEM OF Hot Water Heating

THE
BEST.

THE
CHEAPEST.

THE GURNEY HOT WATER SYSTEM.

Brantford, Aug. 29th, 1888.

GENTLEMEN,—

I am in receipt of your inquiry respecting the No. 126 Gurney Boiler you furnished me with last winter for my Forcing-houses, and in reply would beg to give you the following items which the Boiler is doing.

Three houses (standing in a very exposed position) 14 ft. by 60 ft., span roofed and north and south Three rows of 3 inch pipe, 450 ft. in each house, or total of 1,350 ft. in all. Cost of fuel for eight days trial during severest part of winter with Egg coal, houses ranging from 50 degrees at night to 65 or 70 degrees in the day, amounted to 51 cents per day, or an average of 17 cents each house, and a further trial with cheap fuel gave good results at a much less cost. The Boiler would run a fourth house and then have power to spare. For Green-house work as an independant Boiler without brick work, notwithstanding any assertion which may be made to the contrary, the Gurney Heater is all that can be desired. Give it a good long draft and it will far surpass all expectations.

I may add that the Boiler standing inside the centre house and not being troubled in any way with the gas the whole of the heat generated is economized. I am more than pleased with it.

Yours truly, F. C. MILLER.
