

The New Improved DE LAVAL SEPARATOR

Beautiful in Design . Perfect in Construction
Everlasting in Daily Use

The New centre balanced bowl, with its separate spindle, is a triumph in separator construction, and the whole machine, from patented seamless "Anti-Splash" supply can, to the base, is a lesson in mechanical beauty, simplicity and convenience. It operates as smoothly and noiselessly as a watch and only one tool—a screw driver—is required to set the machine or entirely remove its parts.

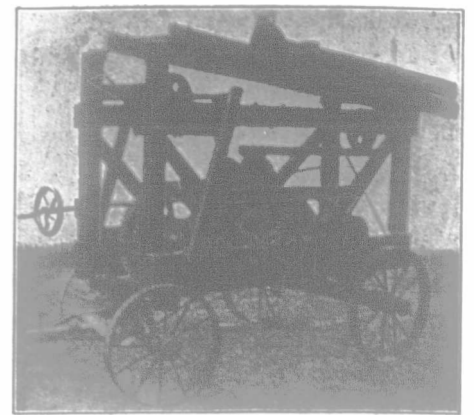

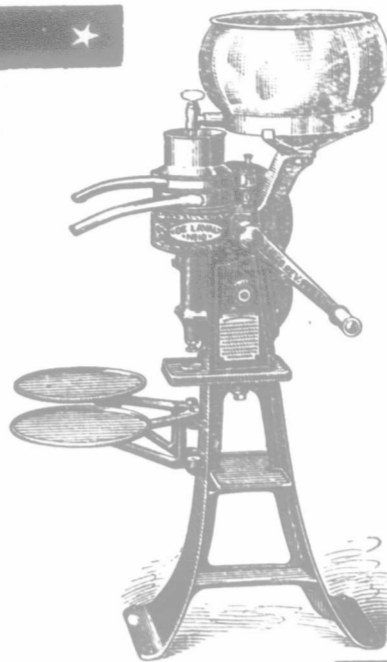

Ask for new 1908 catalog—it's as interesting and superior as the machine itself

Use Foresight

THE TIME TO PREPARE FOR A RAINY DAY is when the weather is fine.

That is a truism. Yet many a person who would rather for a moment dispute so obvious a piece of common-sense forgets that the time to prepare for a financial "rainy day" is NOW, and that the way to do so is by means of Life Insurance. To the great majority Insurance offers the only way within their reach of taking care of the future—not only the future of dependent ones but their own as well.

The Great-West Life Policies provide such Insurance on exceedingly attractive terms. Premium rates are low and profit returns are high. Personal rates and full explanations will be gladly given on request. State age.
