A PLAN TO SETTLE THE STRIKE Agreed to Appointment

National Association of Manufacturers Submit a Plan--Think It Will Be Acceptable--The Manufacturers May Have to Advance Price of Articles

NEW YORK, Oct. 14.-The regular | meeting of the coal operators today was preceded by a conference hands of Mr. Mitchell and his colleawith a committee of the National Asso- gues. I am particularly anxious not to ciation of Manufacturers, and at the say anything that might be construed the miners, as it covers the proposition to settle the anthracite coal strike were opinion, the proposition made by the the mine workers are reaching a con- on the commission of arbitration is conclusion in regard to the proposal of cerned, is an insult to the president of the United States. I desire that the Roosevelt at Washington yesterday. A president use his discretion in the selecmember of the Manufacturers' Asso- tion of the personnel of the commission ciation said he knew the Assaciation's By induction it would seem from the plan would be acceptable to Mr. Mitchell. The same member of the committee said the manufacturers' plan would No one believes this. The operators in be considered by the operators if the mine workers reject the plan submitted to the president today. The operators began their meeting immediately after the conference with the manufacturers, and after the close of the meet-ing President Baer of the Reading sail mining properties, shall be one of the that no statement would be given out regarding it.

The members of the manufacturers committee at the conference were David N. Parry, president of the association; Frank Leake of Philadelphia and Richard Young of this city. Mr. Leake said the proposition of the Manufacturers' Association had not been formally presented to the operators, but that its sallent points were discussed. He said that sent the bituminous miners are organized, and that if the anthracite miners become organized on similar lines it is his belief that the price of coal would be permanently advanced, with the result that the manufacturers would have to advance the prices of all articles manufactured. He said his association was desirous of having prices remain as they are now.

According to President Parry's secretary, at the meeting between Mr. Mitchell and the representatives of the Manufacturers' Association last week and the secretary they have stenographer notes of the proceedings. Mr Mitchell agreed to forego the recognition of the union in his demands upon the operators if there was a ge advance in wages of 10 per cent. Mr. Parry and Mr. Leake announced that they would leave the city tonight, but their destination is not known. All the leading operators were present at the meeting except President Oliphant and Vice-President Wilcox of the D. and H. while the coal operators' meeting was

J. P. Morgan and his partner, Robert Bacon, arrived in the city from Wash ington and went directly to Mr. Morgan's office. Mr. Morgan was asked: "Have you heard anything from Mr. Mitchell in regard to the terms of the

"No. I have not heard anything since I left," replied the financier. "Have you anything to say about your conference with the president?" "No, I have not a word to say. The

MR. GOMPERS TALKS.

WASHINGTON, D. C., Oct. 14 .-President Gompers, of the American Federation of Labor, with whom Mr. Mitchell has been in constant communication and consultation, declined all requests of newspapers for an exof the coal operators. But tonight he government urging a better surveilstated his views. Mr. Gompers said: lance of the Turko-Bulgarian frontier

"You can readily understand that I want to leave this whole matter in the conference the satient points of a plan otherwise. I will say that, in my pitted by the manufacturers. The operators, at least so far as their desigoperators considered the plan, while nation of who should be invited to go operators' proposition that the president has evil designs upon the mine owners dicate what class of men should be se lected for the personnel of the commis sion. For instance, they say that an expert mining engineer, experienced in the mining of coal and other minerals, members. In other words, this one must be an expert miner out of a job. This member either must have been employed in the mines as an expert or must expect or hope to be employed in the future as an expert. Another must be an eminent sociologist. Well, why must he be a speculative sociologist theorist or what? Another member is to be some man actively participating in the mining and selling of coal, and familiar with the commercial as well as the physical part of the business. This must certainly be one of the operators or one of their representatives. No the mining business, it being under- the others have been a small return other man familiar with the commercial features of the business in those fields fits that description. In the classes of persons from whom the mine owners' prescribe the commission shall be selected there is to be not a single representative of the miners who dig coal, the man who works in and about the mines. Now, as a matter of fact, the entire question of selection and appointment of a commission should be left to the president of the United States. Mr. Mitchell has said that he will be perfectly satisfied with whoever the president selects. If the mine own ers are to be permitted to suggest who shall constitute the arbitration commission why, in all fairness, should it not follow that Mr. Mitchell should be permitted to make suggestions? I hope that the president will decline to act on this proposition of the mine owners
