Splendid Showing of NEW AUTUMN COATS

Exclusively tailored garments from our own big city factory; all are distinctively cut, many prettily trimmed and beautifully finished; just such garments as careful dressers prefer to wear. They are made from the season's new materials, such as broads, tweeds, Matalasses, two-tone diagonals and novelty cloths; in newest colorings and mixtures; all in the popular 3-4 lengths with slightly cutaway fronts, but all showing the newest in collars and handsome big buttons; a coat showing every woman should see. The values are especially attractive. Every size for women and misses. Every price from \$30.00 to \$10.00.

Special Waist Sale at \$1
Autumn's newest tailored waists—made from pique, linen and vestings. Excellent waists for business wear, and an excellent showing of equally pretty styles—all long sleeves and various styles in collars. All sizes and only \$1.00.

Beautifully Tailored Costumes

Frost Damage Raises Prices

There was a good sized week day market this morning and plenty of vegetables now being offered for sale. Market gardeners and farmers who were on the market this morning reported that the heavy frost played havoc with all vegetables that were

exposed. Farmers claim that the tomato crop is seriously damaged and many reported having lost nearly their whole crop. Tomatoes that were inside the vines escaped.

Quite naturally the price of vegetables took a jump upward this morning. The price of tomatoes was raised from 15c. to 25c. per basket. Cucumbers that sold for 2 for 20c. sold 30c. for 2. The price of cauliflowers was raised from 15c. to 25c. per head.

SOMETHING MILITARY ABOUT NEW FALL SUITS.

There is a trimness and a slowness about some of the new tailor-mades for fall that portends, or should one say, promises—for the idea is agreeable—a return to more mannish and simple effects. This admirable little suit of black serge is made gay by bright silk facings and matching buttons. The high-buttoning front and pointed waistcoat showing below the cutaway coat at the waistline are modern style notes. With such suits buttoned boots of patent leather with tops of kid or cloth will be worn.

RAILWAY WORK RUSHED AHEAD

Activities of the L. E. & N. Railway—Grading Almost Complete.

Work on the L. E. & N. Ry. is being rushed in the Holmedale section of the city. Two steam shovels are at work on the river front between West Mill street and the river front.

One of them, Marion, is working on the right of way, and the other, in a gravel pit next to the corporation pit on West Mill street. The small dump cars are filling in earth along the right of way at the foot of Waterloo street. Tressle work has been built at this point and the earth will be dumped on both sides of it.

Another steam shovel is at work up near the Wilkes dam and the earth from there is being drawn and dumped along the line past the golf links.

The company's yards in the vicinity of the old Morrell street school have been levelled, and the ground is now ready for the placing of the sleepers and the laying of the rails. As soon as the work in behind the golf links is completed, the three steam shovels will be used to dig out earth to be used in filling in the high and wide embankment from Waterloo street to the Lorne bridge.

Taylor Faces Murder Charge

James Taylor will face a charge of murder at the Fall Assizes, November 11. Responsibility for the killing of Charles Dawson was officially placed upon him yesterday by a coroner's jury. The evidence and verdict were completely reported in the Courier. Although a coroner's jury is not empanelled to enquire into the guilt or innocence of any person, but simply to ascertain all the known facts and circumstances surrounding the death yesterday's jury, with the evidence adduced could do little else than say that James Taylor deliberately killed Charles Dawson in cold-blooded fashion. Certain details of the evidence had to be eliminated. Strongly made within the court room were made sick by a recital of gruesome facts. There was not one sympathetic face in the entire room for Taylor.

The jury spent several minutes longer than was expected in arriving at a verdict, although there was no dissenting voice as to holding Taylor responsible. It was suggested that recommendations be incorporated into the verdict as to the hours young people be allowed out at night without parents or guardians. Finally however, these suggestions were rejected and the plain verdict was brought in.

In the meantime Taylor continues to thrive well at the County jail.

Mrs. Munson Westbrook and Mrs. Leo Emery of this city left Saturday morning for a trip through the West, where they will be the guests of Mr. and Mrs. Fred Montgomery, Fort Qu'Appelle, Sask.

3,000 Out Now.

LIVERPOOL, Sept. 16.—The effect of the Transport Workers strike in Dublin was felt on this side of the Irish channel to-day when 3,000 workers at the Liverpool docks and at the various railway stations struck in sympathy with several of their comrades who had been discharged yesterday for refusing to handle Irish goods.

All the railway stations and the southern dock were thus made idle, and great piles of goods including large amounts of provisions which are badly needed in Dublin and other parts of southern Ireland have accumulated in the yards.

In other sections of the docks men continued at work, arguing that a strike had not been ordered by their leaders.

A Splendid Assemblage and Display of Autumn Millinery

To write effectively of the remarkable collection of new millinery now on display in our Show Parlors, calls for descriptive ability above the average; and truth to tell, we doubt if the ablest of fashion writers could do more than scant justice to the beautiful things now on display. We recommend our patrons who must have something distinctive and different, to see this early showing of ours; it embraces everything from simple tailored effects to the very elaborate models for dressy occasions.

Regarding Our Black and Navy Serges

We have the finest and most comprehensive stock of these ever popular suitings in every known weave and finish, imported from the best English and French makers; all guaranteed qualities, best fast unfading dyes and thoroughly soap shrunk, including black and navy, West of England serge suitings in fine and medium tweed, chevrons, wide wale in worsted or Botany finish. Man-finished serges in fine twill and Vecuna finish; absolutely the best tailoring serges; 42 to 60 inches wide at, per yard, 50c. to \$3.50.

Some of the New Fall Suits

There is no keener delight for the average normal woman than an hour spent in reviewing the new season's fashions; and there is no better place in the city to enjoy this sensational relaxation than the big department at this store. So new and complete is our collection that you will find it an excellent range from which to make selections for the coming season's suits of tweeds, serges, Bedford cords, two-tone cloths, beautifully lined with silk and satin; some are plain tailored, styles for those whose taste is severe; others are dressier models; many with collars and cuffs to match. Prices range from \$30.00 \$12.50 to \$30.00.

A Word About Those New Fall Cloakings

The new fall cloakings are being shown in very large range of colorings and materials. THREE DEPUTATIONS PRESENT AT COUNCIL

(Continued from Page 1)

We have been deprived of getting any benefit whatever.

Mr. Charlie Snowden said the trees were likely to knock one's block off while walking. 8 years had Mr. Snowden lived on Campbell Street and he had to swim out of his house every spring. We're all workmen, our little homes are just as near and dear to us as the \$9000 castles on Dufferin Avenue.

The Tannery Affair

Mr. Percy Thornton, of Thornton's limited, in reference to his request for a license, said the firm had spent \$10,000 recently and had a sanitary system, which received the unqualified approval of the Medical Health Officer of Buffalo. Similar plants in Toronto and Hamilton excited no protest. It was expected to establish within a year, a leather industry in Brantford, employing 100 hands. Mr. Thornton said it would mean a big loss to his firm if they had to move. He wanted the committee to inspect the plant themselves. A statement was read by Mr. Thornton to the council.

Mr. W. E. Long said he had no objection to Mr. Thornton's business, but he did to their odor from it. His men threatened to quit if it continued. He didn't purpose to say anything about it, everybody had sniffed it.

John Patte, chairman of the board of health, said he had received numerous complaints. People sleeping on the south side of Colborne Street had complained. It might be true that rendering was done at night, but that didn't help the sleepers any. Even the policemen along the street complained, they were nauseated.

Mr. Patte mentioned days when complaints were specific, whereupon Mr. Thornton interjected that on these days his plant was broken down.

Ald. Hollinrake: Don't you think it might be the civic dumping ground? Mr. Patte: Small one and small the other, and you'll know the difference. Continuing Mr. Patte showed that he was an expert on smells. He knew what the Matthews Company odor was, also the Varnish works, also the civic dumping grounds. Even on the north side of Colborne Street, the odor was highly objectionable.

Ald. Hollinrake, lawyer like, said it was doubtful if it could be proved which place it was. He said he had walked past the City Hall recently, and he noticed something. Mr. Patte: Just do your duty here as we are trying to do ours and you

won't notice only what you should. We've condemned, time after time, the city hall affair, and yet you don't do anything.

At this point, the mayor shut off the deputations propaganda and the council proceeded with other business.

SITUATION MORE SERIOUS.

DUBLIN, Sept. 16.—Over 10,000 men have joined in the strike movement started by the transport workers here, and the building and other trades are greatly affected. It is estimated by the men's leaders that unless peace between the men and the employers is soon reached, 6,000 more men will be thrown out of work, as their labor depends on that of the men who have struck already.

There is considerable suffering among the poorer classes, both in the Irish capital and in other towns of the south of Ireland, owing to the rise in the price of food stuffs, brought about by the lack of transportation facilities. A number of vessels laden with commodities are lying in dock where unable to discharge their cargoes.
