Liners.  
"Chick" O'Connor, who played first base for the Quincy, Illinois team last season, was ordained in Holy Name Cathedral, Chicago, re-

cently, and is now the Rev. Father Edward O'Connor.

Howard Fahey, the Dartmouth player signed by the Philadelphia Athletics when the college season closed last June, has been turned over to the Los Angeles club of the Pacific Coast League.

Bill Dahlen will not be new to Augusta. Bad William went there with the Boston Nationals under Josephus Kelley and Francois Bowerman. It's a pretty good town at that, and, aside from Macon, has the only grass outfield in the south, and a very fine infield.

The Brantford Curling Club will open the season to-morrow night (Friday) by a game between rinks chosen by the President and Vice-President. At the close of the game refreshments will be served at the rink. Previous to the game a general meeting of the Club will be held for transaction of routine business. Appointment of skips to the tankard games and other matters that may come up.

They Helped Her Husband and Cured Her Own Rheumatism, Dropsy and Gravel of Thirteen Years' Standing.

CANDO, Sask., Jan. 6—(Special)—"I would not be without Dodd's Kidney Pills in the house," exclaims Mrs. John C. MacKenzie, of this place. And those who have heard Mrs. MacKenzie's story do not wonder that she is so emphatic.

"I was a victim for about twelve or thirteen years of Bladder and Kidney Trouble," Mrs. MacKenzie says. "It grew into Rheumatism, Dropsy and Gravel. Doctors attended me but they did not do me any good."

"My husband had used Dodd's Kidney Pills with good results so I decided to give them a trial. Before I had finished the first box I was greatly benefited."

Dodd's Kidney Pills benefit and cure permanently all who suffer from any form of Kidney Disease. They cure the kidneys and cured kidneys strain the poison that causes the diseases out of the blood. That's why Dodd's Kidney Pills never fail to cure rheumatism, Dropsy and Gravel.

NEWPORT.  
(From our own correspondent)  
Mr. W. Cook delivered a splendid sermon on Sunday night which was very much appreciated.

Rev. Mr. Keefer, of St. George will take charge of the service next Sunday night.

Rev. Daniel Wilson of Minnesota, is the guest of his sister, Mrs. James Bailey.

Mr. and Mrs. A. Hunt of Brantford spent over Sunday with Mr. and Mrs. Mellican.

Mr. and Mrs. Will J. Muir and son and Miss Ruby Slaght of Brantford, spent the week-end with Miss E. Charlton.

Mrs. Otto Eitel of Courtland is visiting her parents, Mr. and Mrs. Bilger.

Mr. Harold Fisher of Gull Lake, Sask. spent a few days this week visiting his uncles, Mr. Henry and Mr. Thomas Phillips.

Mr. Greenwood and son Chester of Echo Place, spent Tuesday with Mr. H. Phillips.

Mr. and Mrs. Will Wheeler, River Road, entertained a number of their relatives at dinner on New Year's day.

Mr. and Mrs. James Black and daughters, spent New Year's with Mr. and Mrs. T. Hargreaves.

The Misses Alice and Corrie Emmott, spent a few days at Lynden.

TO CURE A COLD IN ONE DAY  
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box, 25c.

## MAGIC OF WIRELESS.

To Bring "Blind Lighthouses" in Touch With the Outer World.

There was a time when the keepers of lonely lighthouse stations were greatly to be pitied and when some went insane from solitude. Soon these men will be in touch with the affairs of the world and learn the news as quickly as the man who reads the latest editions of the newspapers.

For it has been proposed that in some of the lighthouses along our coasts a wireless equipment should be installed and supplement the work now done by the beacon light. The advisability of doing this is being carefully considered by government experts, and tests are being made with these "blind lighthouses," as they are called.

This plan seems very reasonable. Today these great land beacons throw out a flash of light, or a beam of light, so that a vessel can recognize a particular lighthouse miles at sea. In very clear weather the most powerful of these lights are visible upward of forty miles, most of them, however, having a much shorter range.

A warning by wireless may, of course, be thrown hundreds of miles in advance, telling a vessel many hours in advance that she is approaching a dangerous coast. Nor is this all, for in the experiments now being carried on these wireless signals do more than warn ships at sea of the perils of the shore—they actually enable a ship to calculate its exact position, even should it be in the midst of the thickest fog or most blinding storm. The wireless or blind lighthouses flash their position, and the master of a ship receiving messages from two or more such points on shore can determine his own position by a simple process of triangulation.

Such an extension of the wonderful system of wireless communication makes us realize that we have probably only begun to enjoy the benefits that this great discovery is destined to confer on humanity.—Francis A. Collins in St. Nicholas.

FEAR OF WAR.  
Fearful Financial Burden It Places Upon the Great Nations.

War debt began with the nineteenth century. Not until the establishment of constitutional government had nations any credit in the world of finance.

The bond of a king was notoriously had security. Since 1800 the war debts of the nations have grown by leaps and bounds. That of Europe as a whole amounts to more than \$26,000,000,000 and interest at the rate of \$1,150,000,000 per year.

All these "endless caravans of ciphers" represent sums which have never been paid, so long as the present system of national armament goes on.

At the present rate of expenditure the four countries of Germany, France, Great Britain and the United States will spend in the next forty years, the life of one generation, for the support of armies and navies an amount sufficient to build 20,000,000 country and village houses at an average cost of \$2,500 each.

With father, mother and four children in each of these houses they would furnish homes for 120,000,000 of people, which is more than the total present population of these four countries living in villages and the open country.

Thus the fear of war is consuming the homes of the rural and village population of these great nations in a single generation.—Albany Times-Union.

THE CEMENT GUN.  
There is a cement gun which is used to apply a mortar covering to structural steel work. A mixture of dry sand and cement is shot from a nozzle by compressed air. A second hose delivers to the same nozzle a supply of water under pressure, and the mixture of sand, cement and water is shot out with a velocity of about 250 feet per second.

The nozzle is arranged to produce a thorough wetting of the material on which the mortar strikes the surface to be covered. The concrete grains rebound until the fine cement mortar, which adheres immediately, has formed a plastic base in which the coarse particles become embedded. A covering of any required thickness is then rapidly built up. One of these guns has been used on the Panama Canal in covering the sides of the Culbert cut with cement to prevent the unstable earth from sliding into the canal.—Harper's.

ROYALTY AND THE OPERA.  
The Berlin opera cost the Kaiser 1,000,000 marks a year. He bears the loss without indulging in any agonized wails. The Austrian emperor is not far behind Kaiser Wilhelm, for he gives more than \$150,000 a year to help out the opera, besides \$100,000 for the playhouse, and the emperor's contribution for the opera house in Munich is 250,000 marks; in Dresden, 450,000. Even the grand duke of Hesse uncompromisingly pays 210,000 marks annually to keep the theatrical and operatic performances at Darmstadt at a high level.

A Queen's Telephone.  
The queen of Spain possesses what is said to be the most remarkable telephone in the world. It is of solid silver with a gold transmitter and is supported by four bronze figures, among which a boy leaning against a Spanish coat of arms is conversing by telephone—a golden wire—with an English girl in close proximity to a British lion.

Above the mouthpiece are two goddesses. This work of art stands on her majesty's writing table and connects with the royal nursery only.

## Are the Fly and Mosquito Dangerous?

The fly, with spangly feet, collects the invisible germs of disease, spreads them over our food and poisons us with typhoid and cholera. The mosquito with its bite injects into our veins malaria and yellow fever. The bacteria of consumption, or grip, are everywhere present for us to breathe into our lungs. The blood which flows through our veins and arteries is our protection. It should contain healthy red and white blood corpuscles—capable of warding off these disease germs. Dr. Pierce's Golden Medical Discovery is a blood medicine and alternative made entirely without alcohol, a pure glyceric extract of bloodroot, ginseng, Oregon grape root, quina's root, meadow-sage and stone root, which has enjoyed a good reputation for over forty years. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

"About forty years ago while in Newark, New Jersey, I had chills and fever," writes Mr. MICHAEL MAQUER, of National Military Home, N.Y. "I went to Kansas City and in the spring of 1877 the chills and fever returned. Doctors and everything I tried failed to do me good. Finally I saw Dr. Pierce's Golden Medical Discovery advertised. I took one bottle of it and the chills vanished. In about a year afterward I felt them coming back so I got another bottle and have never had any symptoms of fever or ague since. That is all of twenty years ago, for I had the chills about twelve years before I started to take Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets are for liver ills.

## Sure-Grip Rubbers

—Rubbers that grip the ice and prevent one from falling. Don't take any chances—it may cost you a broken limb, thus necessitating an absence from your work and a doctor's bill. Get a pair of Sure-Grip Rubbers from us and be safe and well.

## Narrow Escape to be

(Courier Leased Wire).

ST. JOHN'S, Nfld., Jan. 10.—Capt. Burke and the eight members of the crew of the Fishing Schooner Evelyn were hauled to safety on the steep cliffs at Isle Aux Bois.

The schooner was blown ashore at the Evelyn had been dismasted and pieces on the ledges off shore.

The wreck of the Evelyn had left her crew helpless as their boats had been carried away. Hope of reaching shore safely was slight until a boat manned by three Amherst fishermen put out from shore and reached the Evelyn's side.

When the transfer of the schooner's crew from the wrecked vessel to the small boat had been accomplished.

## Plot

(Courier Leased Wire).

TARRYTOWN, N. Y., Jan. 10.—Abraham D. Tompkins died here yesterday indirectly the victim of a poisoning plot forty-nine years ago.

In February, 1864, Tompkins sister, Theresa, received a letter from a jealous lover warning her not to keep company with a certain young man. She did not heed the warning.

## An American Negro

## Guilty of Murder

(Courier Leased Wire).

LONDON, Jan. 10.—Mrs. Annie Gross, an American negro, who was to-day found guilty of the manslaughter of Miss Jessie McIntyre, a young English actress, was sentenced at the Old Bailey yesterday to a term of five years penal servitude.

On the night of December 10, Mrs. Gross, who lived in the same boarding house as Miss McIntyre, attempted to kill her husband, Harry Gross, a ruffian dancer. Miss McIntyre, whom she alleges had replaced her in her husband's affections, was present, and a bullet struck and killed her. The prisoner to-day pleaded that she had fired at her husband, who was punching her in the neck. She de-
