WEDDING AT MIDDLE SACKVILLE.—A large number of the friends of the contracting parties gathered at the residence of Michael Grace Esq., Middle Sackville, yesterday afternoon to witness the marriage of his daughter Lizzie B. to Harry S. Cutten of the I. C. R. Moncton. Rev. Wm. E. Hall performed the ceremony. The bride was beautifully attired in a perfectly fitting suit of old rose satin with ostrich feathers and lace and carried a bouquet of roses and orange blossoms. She was attended by Miss Carrie Barnes who wore cream cashmere with pink trimmings. The groom was supported by Mr. Harry Black of Amherst. After partaking of a sumptuous wedding repast the party took the express for the future home in Moncton. The presents were numerous and costly. The Post extends congratulations to Mr. and Mrs. Cutten.

FAREWELL SOCIAL.—A large number of the friends of the Rev. Mr. Hall, assembled in the vestry of the Baptist church on Tuesday evening last, to say farewell and spend a social evening. Through the kindness of the ladies a substantial lunch was provided during the evening, and the choir rendered several selections. Dr. Thorne was asked to take the chair, and explained in a few words the object of the meeting, the sorrowful one of saying farewell to Mr. Hall. Rev. Messrs. Lavers and Staples, spoke and referred to the many and lasting relations now to be severed. Mrs. Hall was called to the platform and was presented by the ladies of the church with an address embodying in it all possible good wishes for future prosperity, and accompanied by a purse of \$25. Mrs. Hall was overcome with emotion but made an appropriate and touching reply. Mr. Hall in reply to the expression of good will stated his grief at parting from his friends, and he felt and hoped they would all meet above to part no more. The choir sang "Praise ye the Lord," and the meeting closed with the benediction.

—It is learned that Belfast merchants have been exporting American lard to England, after having labelled it as "purest refined Belfast lard." The evidence shows that a vast quantity of American lard, bearing the spurious mark, has been reshipped from Belfast.

Professor Ayrton estimates that the power annually expended in the Falls of Niagara is as great as that which would be provided for steam engine purposes by \$280,000,000 worth of coal a year. Even these immense figures are based on the estimate that coal would only cost \$1.25 a ton.

WHAT is said to be the largest load ever hauled in the vicinity of Parrsboro was brought into that place last week by Mr. David Law of Kirk's mills. It consisted of 165 pieces measuring 9881 superficial feet and weighed about 8 tons.

THREE or four resignations are being sent in from the I. O. R. employees in the shops here prior to their departure for the United States. The Moncton civic election took place on Monday, D. MacKenzie took part in the contest. The contest was hotly contested between Mayor Sumner and Mr. J. McClellan. Both are popular and the voting was very close. The result was: Sumner, 378; Snow, 362. The following gentlemen will compose the council for the ensuing year:—

President—J. T. Forster, Wm. Gowan.

Ward 2—J. S. Boyd, E. C. Cole (acclamation).

Ward 3—H. H. Ayer, W. D. Mallin (acclamation).

The Parrsboro Leader says:—The shareholders of the Parrsboro Coal Company met in Town Hall, Wednesday evening. 74 shares were reported sold and it was decided to sell the remaining shares and proceed to develop the mine. Messrs Jesse Tipling, J. H. Gillespie, White, Edward Gillespie and Wm. Ryan, were appointed directors, and J. T. Forster, treasurer. The prospects of the mine are said to be most encouraging. A Montreal man wishes to take all the shares now for sale.

The matched race between Don Cesar owned by Nye Thompson of Sackville, and the "Black Horse" owned by Reed of Pugwash came off at Pugwash on Tuesday, March 3, resulting in three straight heats for Sam Slick. The ice was in fine condition and a finer day could not be. It was no disgrace for the Oxford horse to be beaten by Sam, as he was the best of the kind in the district. There was considerable betting and there was not many of the Oxford sports that came to bet but what got accommodated. (Press.)

SAYS THE PRESS.—Mr. William Vernon, of Sackville, has been called upon from Halifax to take a situation as assistant engineer in one of the new steamships being built for the C. P. R. between China and British Columbia. Mr. Vernon served his apprenticeship with A. Robb & Sons of this town, after which he then went into J. & J. H. Thompson's shop on the Clyde, one of the largest in Scotland, being there two years he accepted a situation as engineer on the Allen Line where he remained eighteen months. After passing for second engineer he returned home to visit his friends. He was then called upon to take a situation as assistant engineer on the steamer Magnolia, of the Little Bay of D'or company of Cape Breton. Although having some tempting offers to remain in this country he preferred a larger field where promotion would be more rapid. I believe Mr. Vernon is the only Nova Scotian holding an English certificate.

A POLITICAL ANATOMY would have had a difficult task to find the backbone of the liberal party during the late contest. When Edna D. Farver, editor of the Globe, the Libral organ, as proved guilty of working against Canada, the cry was made that he was only a paid newspaper writer and not a party man. His answer was exposed that Sir Richard Cartwright went to Washington for about the same work, it was a private matter and therefore not a cause against the party. When Ernest Wiman, who accompanied Sir Richard and others throughout Ontario preaching Rye, was three years ago, he was connected with these same measures in this campaign, he was disowned. The same with Mr. Longley who was caught in New York making speeches of a doubtful patriotic sentiment, when dissolution was announced, all these wars of minor importance when the damaging statements were used against the party, but when a drop of solid party wisdom fell from their lips they were wadded to the magnitude of oracles and were solid party men.

"FAKE" JOURNALS.—A great many people have lately been swayed by so called prize competitions, the only object of which was to deceive the public and realize money for the promoters. Mushroom journals have sprung up and offered wonderful prizes to those who would contribute to the cunningly laid bait, found both the journal and the prize worthless. The publishers of the DOMINION ILLUSTRATED have learned that doubts are expressed regarding the genuineness of the offers they have made in connection with their prize competition. To set all doubts at rest they announce that any dissatisfied person who has already contributed to the prize competition may exchange a prize for the cash price it is valued at in their published list. Their only object in offering prize has been to secure a larger permanent circulation, and to this end their journal has been greatly enlarged and improved. The nature of the prize competition makes it a beneficial literary exercise for all, apart altogether from the question of prizes. A journal with a well-established reputation and which is constantly aiming to improve its literary and illustrative contents is not of the sort that breaks faith with subscribers. The response to the prize competition has been most gratifying. On receipt of 12 cents in stamps the publishers—the Sabiston Litho and Pub. Co., Montreal—will forward any address a complete copy of the journal, with terms, full particulars, etc.

The following compliment was paid this province by an upper province writ:—"If Satan himself was premier of Canada and had Judas Iscariot for minister of finance, he would have no difficulty in getting a majority in New Brunswick."

The skin on one cheek is burned off and the eyelids and eyes are badly burned. Such practical jokes are no jokes at all. (Picton news.)

—A Halifax woman was requested by a policeman to have the snow sowed off her sidewalk. She said she would do it the other day. She said she could not do it to do the work and the officer happened to meet two boys, sent them down. The policeman decided to pay them. The boys snovelled the snow back again on the sidewalk.

—On Friday morning last an accident occurred on the northern division of the C. P. R. of which came very near resulting in loss of life. Some of the train hands on the accommodation jumped, fearing a collision. For untold the driver of the special sighted the disabled train in time to reverse his engine, but his engine struck with considerable force the rear of the passenger car on the accommodation. The damage to the car was slight.

It contained five tons of hay and three barrels of flour and two barrels of meal, a wagon and harness and farming utensils, a lot of which were destroyed. The barn was set on fire by a ten year-old boy who was desirous to be believed of the work of looking after the barn. He was a good and successful in his effort. A quantity of shingles, about ten thousand, piled near the barn was also burned. No insurance. Mr. Harris was away from home at the time. The cattle were saved.

Mr. Welton would not prosecute but gave him a chance to leave town, which he did Sunday night. The loss will come out of Mr. Welton's pocket. Haves collected the renewals of policies and appropriated the money to his own use. He has been going at a pretty fast clip and has victimized several persons about the city.

Farewell Sermon.

REV. W. E. HALL'S FAREWELL SERMON.

On Sunday afternoon last, the largest congregation that has met in the new Baptist church since the opening services, gathered to hear the farewell sermon of their respected pastor, Rev. W. E. Hall, who has terminated his ministry here and goes to Halifax to assume new duties. After the usual preliminary service, the reverend gentleman took as his text Revelation XXII, 21—"The grace of our Lord Jesus Christ be with you all. Amen."

In closing his ministry he had decided, he said, to take the closing word of the Book of God as his closing word to the people with whom he had been so pleasantly connected during the past five years. Just what the Spirit of God expressed for the church in Asia Minor he wanted to express to the people of Sackville and those of the Baptist church. St. Paul closed nearly all his addresses to the different churches, with the exception of the Romans, with an earnest solicitation for God's abiding love for them and with a plea for the Divine benediction. This expression was one of a soul anxious for the welfare and deeply in love with the people. It was not an occasion of total failure upon which he spoke to-day, yet it seemed a failure when he considered the work done in the church of Ephesus. He could see many changes in the congregation—the land of the dead had wrought many; some of the dear faces that had greeted him in the early days of his ministry were now gone forever. New faces had appeared in the congregation; new members had been baptized; others had gone away to other parts.

The text embodied all the fondest expressions of regard and love that the human heart could know, and the more it was read and studied, the more majestic and sublime its precepts appear. It embodied the hope for the converting grace of God in its highest glory. It expressed the hope that the grace of God, which was the highest gift of God to man, would ever remain with them. He had endeavored to impress this important truth upon all during his ministry, and sincerely hoped he had succeeded in showing that a man must be born again before he could enter Heaven. There were still a few who were lagging with sin—still a few who were putting off the day of conversion until later. They said "Never mind religion now. I'll be converted before I die." He knew of no one who would openly say "I do not expect to be converted before Death visits me." All hope to have a change—to seek the comforting grace of God before their span of life terminates. They are waiting for the dying hour—for the sunset of life's day; when the sands of life are nearly run they expect to seek and find peace in death. If they expect to feel its comforting power why not seek it now.

In closing, he referred to his ministry in Sackville. He had baptized 111 persons during his ministry, and in the various missions 103. If he had any successes to glory in, it was due to the grace of God rather than to himself. He desired to heartily thank all those friends who had been so kind to his family and himself in the past. He had come here a stranger and they had made life pleasant to him. He would never, he knew, have the pleasure of meeting again on earth all those to whom he was now speaking; but he hoped that on the Judgment more he would see all the dear familiar faces, and welcome them again.

For his successor he asked the fullest consideration of the congregation. He entrusted them to keep up the prayer meetings; not to let the social meetings of the church decline. For himself he asked the prayers of the people for his welfare. He could, in closing his farewell address to them, fervently echo the words of the text—"May the Grace of our Lord Jesus Christ be with you all. Amen."

Rev. Mr. Warren, of Parrsboro, will preach next Sunday. It is probable that Mr. Warren will be Mr. Hall's successor. Mr. Hall has accepted a call to the Tabernacle Church, Halifax.

Personal and Political.

—A member of the Missouri Legislature introduced a bill to prevent women from holding office and then took to the woods.

—Sir Richard Sutton, owner of the English cutter yacht Genesta, which raced with the Boston centennial boat Puritan in 1886 for the American cup, is dead.

—Patti has accepted an engagement for 20 operatic performances in Rio Janeiro, Brazil, for \$30,000. She will sail about the middle of June and remain in Brazil about two months.

—W. C. Macdonald, the rich tobacco manufacturer, has given \$40,000 to McGill College, Montreal, towards the endowment of an electrical engineering chair. The sum of his donation towards McGill College reaches nearly \$1,000,000.

—President Harrison recently nominated Henry H. Clifford of New York State as consul at Halifax, Ont., A. E. Noyl of Maine at St. Stephen's, N. B., and W. Stanley of Wisconsin at Picton, N. S.

—A despatch from Zanzibar states that Baron Wissman has punished the Kibaki tribe. He killed 200, wounded 60 and captured 50 of the tribesmen. The German loss was two men killed and fifteen wounded. The Germans acquired 100,000 cattle and a quantity of ammunition and ivory.

—An application will be made next session for an act to incorporate the Moosem and Souris Railway and Coal Company with power to construct a railway from a point on the Canadian Pacific railway near Moosem, Assiniboia, to a point near the international boundary in township one, range six west, second principal meridian.

—The Newfoundland Legislature's address in reply to the Governor's speech spoke somewhat warmly in regard to the stoppage of the negotiations for a reciprocity treaty with the States and to the modus vivendi. From the Governor's later statement it appeared that there was misapprehension on the former subject.

—Lieutenant Lavigne, chief of police of Massowawa, who is accused of murdering rich natives for purposes of plunder, in a communication to the Sicot, Rome, asserts that exalted personages instructed the Massowawa Police to assassinate eight hundred natives. The public are much excited and demand stringent investigation.

—Sir John Pope Hennessy has written letters to priests and others in Ireland in which he claims that to outbid Mr. Parnell in the extent of the home Rule measures which he desired, he says that he demands control of everything, including the customs and fiscal systems, without which, he adds, the development of Ireland's resources would be hindered.
