THE UNION ADVOCATE, WEDNESDAY, SEPTEMBER 22, 1875.

The Larmer's Corner.

Improving the Farm.

Improving the Farm. I believe in harmers trying well; no chase better deserves the fat of the hands by the washerwoman as she chase better deserves the fat of the hands by the washerwoman as she hands by the washer clothes to dry in a winter's day. When water assume the form of gas or vapour it occu-ples more than a thousand times its investments made ou the farm itself. It is possible for a farmer to live like an independent prince, but on farmer the farm to its utmost productiveness. High living with thy other programme, tends only by the sund of allowing it to evaporate the box on failing the water from the bottom in a great measure prevented by analog of blo soil is it to evaporate the sund case a fail of securing profitable result, provided he uses profitable result, provided he uses bed knows. ry degree of discretion. There is

liars could not be used in ways that uld be perfectly certain to return nty to fifty per cent. On many ns it would be a job of underdrainn, will always return cost in four if the ground is already saturated s, and sometimes in two. There with water, these rich gases can do s, and sometimes in two. There average return in draining all that need it, folly thirty-three ent. Manure can often be it at rates which will pay one ed per cent, more in the first increased value of the farm, irres more thought and ability capital in a farm properly emcapital in a farm properly em- model in His great system of drainthan is given to any other business; and yet there is no on wherein surplus capital there are some who maintain, even

s the testimony of hundreds s who know how to use dently not the intention of the Crethe testimony of hundreds operation from men. It was, evi-s who know how to use dently not the intention of the Cre-d profitably. That it does from this care with homes and from this date. Parties indebted to the Estate of the late J. B. Newman, or to the I profitably. That it does the testimony of millions bemonstrate their position ively. Both are right-ng to the method he farm improvements for al of judgment is need-ich are the most pro-

ich are the most pro- age. The rivers do indeed do inspeediest deed carry off the great bulk of the bring the ment which is re- surplus water, and there is vastly
